(2) That establishing for him a maximum price, bearing a normal relation to the maximum prices established for competitive sellers of the same or similar articles, will not cause or threaten to cause an increase in the level of retail prices. (b) Any person seeking relief, for which no provision is made in the foregoing paragraph (a) of this section, from a maximum price established under this Maximum Price Regulation No. 116 may present the special circumstances of his case in an application for an order of adjustment. TITLE 46—SHIPPING

Chapter IV—War Shipping Administration

[General Order 6, Supp. 3]

PART 305—INSURANCE

WAR RISK INSURANCE—AUTOMATIC COVERAGE ON IMPORT CARGOES AND ON CARGOES EXPORTED TO THE TERRITORIES AND POSSESSIONS OF THE UNITED STATES

Pursuant to the authority contained in the Merchant Marine Act of 1936, as amended, the following additional rules and regulations for the underwriting of cargo war risk insurance under Warshipopencargo Policy form, are hereby promulgated:

§ 305.72 *Basis of valuation under Warshipopencargo Policy Form.*

Paragraph (a) of Supplement #1 of General Order No. 6 (§ 305.50) together with subparagraphs (1) and (2) thereof are hereby deleted and the following provisions substituted therefor:

(a) Applications for open policies must be filed in accordance with the form attached hereto, such filing to be made to an Underwriting Agent of the War Shipping Administration. All applications for open policies must specify the basis of valuation to be incorporated therein. Any basis of valuation may be so specified by the Assured which defines the value on the basis of facts which were existent prior to shipment and which are readily ascertainable by either party subsequent to safe arrival or loss.

For example, valuations such as invoice cost plus ------%, market value at ---------- on date of shipment plus ------%, or $------ per -------- (unit) shall be deemed compliance with the foregoing.

§ 305.73 *Warshipopencargo Form Part I: Limitation of amount collectible in event of loss.* Effective as to shipments:

(a) Under ocean Bills of Lading dated on or after September 15, 1942, or

(b) If ocean Bills of Lading not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean Bills of Lading or equivalent documents are issued or the same are undated, laden on overseas vessel on and after said date.

the following clause is deleted from Part I of the Warshipopencargo Form: (§ 305.59)

In the event of loss the Assured shall be required to file an affidavit to the effect that the amount claimed does not exceed the actual bona fide pecuniary loss to the Assured, exclusive of any allowance for anticipated or accrued profit arising out of the insured venture. Such affidavit shall be subject to the provisions of section 35 (a) of the Criminal Code.

and the following provision shall be substituted therefor:

(a) In the event of loss the Assured shall be required to file an affidavit to the effect that the amount claimed does not exceed fair market value at place and approximate time of attachment of risk, plus marine insurance and transportation costs incurred with respect to the insured voyage, plus war risk insurance premiums payable hereunder. With respect to goods, the fair market value of which at place and approximate time of attachment of risk cannot be readily or satisfactorily determined by established or recognized market quotations, but the goods have been sold to or purchased by the Assured in a bona fide sale between independent parties within the thirty day period prior to attachment of risk, the sale or purchase price shall be deemed prima facie evidence of such fair market value.

(b) In cases where it is impossible to determine the fair market value at place and approximate time of attachment of risk as aforesaid, such affidavit shall be to the effect that the amount claimed does not exceed fair market value at port of arrival on date of attachment of risk.

(c) The affidavit required pursuant to the foregoing paragraphs (a) and (b) shall be subject to the provisions of section 35 (a) of the Criminal Code.

(d) In the event that in the judgment of the War Shipping Administration the foregoing provision as to affidavit works an inequity with respect to any commodity by reason of any subsidy payable by the Government of the United States or any Department, Agency, or Corporate instrumentality thereof, consideration will be given to an appropriate modification of said provision by endorsement of the policy.

§ 305.74 *Warshipopencargo Policy Standard Optional Endorsement No. 1.* Warshipopencargo Policy Standard Optional Endorsement No. 1 embodied in Article 1 of supplement #2 to General Order No. 6 (§ 305.62) is hereby withdrawn, and the following Optional Endorsement, hereinafter to be designated Warshipopencargo Policy Standard Optional Endorsement No. 1 (Amended) is to be substituted therefor:

In consideration of such additional rate as may be prescribed from time to time by the War Shipping Administration, it is understood and agreed that Clause 4c of Part II of this policy is deleted.

It is further understood and agreed that, if owing to circumstances beyond the control of the Assured, the merchandise insured hereunder is landed at an intermediate port other than the intended port of discharge, this insurance shall continue in force subject to all of its terms until the Assured has had a reasonable opportunity to forward the goods to their intended destination, or substituted destination, or to dispose of said goods at port of landing. In the event that prior to the termination of this insurance said goods are forwarded to substituted destination as aforesaid this policy shall continue to cover, subject to its terms to such substituted destination without further additional premium. This insurance shall also continue in force as aforesaid if the merchandise insured hereunder subsequent to attachment of this insurance is discharged at the port of loading but only provided that at the time of such discharge title to and interest in the goods is vested in a citizen of the United States, a domestic corporation or partnership or the Assured in whose name this policy is issued, and such insurance at port of loading shall terminate if at any time during the continuance of such insurance as aforesaid title to and interest in the goods shall no longer be vested in a citizen of the United States, a domestic corporation or partnership, or the Assured in whose name this policy is issued.

All other terms and conditions remaining unchanged.

Effective as of the date of this General Order the foregoing endorsement shall be deemed to have been automatically substituted for Standard Optional Endorsement No. 1 where the latter has been hitherto attached to any policy.

§ 305.75 *Geographical scope of policy.* The following Standard Optional Endorsement hereinafter to be referred to as Warshipopencargo Policy Standard Optional Endorsement No. VIII is hereby promulgated:

Notwithstanding anything to the contrary contained in Part I (Section 305.59) of Part II (Section 305.60) of this Policy, or any endorsement attached thereto of prior date to this endorsement, it is understood and agreed that this policy covers such of the following classes of shipments as are indicated by the insertion of the word "yes" in the blank indicated opposite to such class of shipments:

( ) 1. Imports to the Continental United States excluding Alaska.

( ) 2. Exports from the Continental United States excluding Alaska to the territories and possessions of the United States, including the Canal Zone and Alaska.

( ) 3. Shipments between ports in the Continental United States excluding Alaska.

( ) 4. Shipments between ports in any one territory or possession of the United States, including the Canal Zone and Alaska.

( ) 5. Shipments to the territories and possessions of the United States including the Canal Zone and Alaska (excepting shipments from the Continental United States excluding Alaska).

Notwithstanding the foregoing this policy shall not cover any specific classes of shipments that may be specifically excluded from coverage hereunder by special agreement incorporated herein by endorsement.

The Assured warrants that with respect to such shipments all the terms and conditions of this policy will apply, and that full provisional and closing reports supported by affidavits, as and if required, will be filed with respect to shipments covered under the terms of this endorsement.

All other terms and conditions remaining unchanged.

Where the open policy application filed by the Assured includes certain but not all classes of shipments as listed above the Underwriting Agent will insert the word "no" in the appropriate blank.

§ 305.76 *Goods insured for account of third party.* The following Standard Optional Endorsement hereinafter to be designated Warshipopencargo Policy Standard Optional Endorsement No. IV (amended) is hereby promulgated, and shall be deemed to be automatically substituted for Standard Optional Endorsement No. IV (§ 305.65) where the latter has hitherto been attached to any policy.

It is understood and agreed that this policy is to cover with respect to all shipments otherwise coming within the scope of this policy but

a.* Shipped to or consigned to the Assured, or

b.* Shipped by the Assured

and for the account and risk of --------, hereinafter referred to as the principal. The Assured warrants that he is a duly authorized agent of said principal for the purposes of the insured transaction. The Assured warrants that provisional and closing reports as provided for by the terms of this policy and by the terms of General Order No. 6 of the War Shipping Administration and supplements thereto will be filed by him with respect to all shipments insured hereunder, and subject to all the conditions and regulations of the War Shipping Administration relating to such reports. In the event of loss, any sums payable under the terms of this policy shall be paid to the order of said principal.

The agent shall be required to file the affidavit called for by Part I of this policy in event of loss, but if the principal is domiciled in the United States of America, or any possession or territory thereof including the Canal Zone, or maintains regular office or place of business therein, said principal shall be required to file a similar affidavit. In the event of loss the amount collectible hereunder shall in no event exceed the amount which could have been collectible by the Assured named herein, in the event the goods had been insured for his own account.

All other terms and conditions remaining unchanged.

§ 305.77 *Goods insured by shipper.* The following Standard Optional Endorsement, hereinafter to be designated Warshipopencargo Policy Standard Optional Endorsement No. III (Revised)

*If either (a) or (b) is inapplicable, same will be deleted.

is hereby promulgated; and shall be deemed to be automatically substituted for Standard Optional Endorsement No. III (§ 305.64) where the latter has hitherto been attached to any policy.

In consideration of the payment of premium as hereinafter provided, this policy is extended to cover goods otherwise coming within the scope of this policy but sold by the Assured prior to shipment on terms requiring him to provide War Risk insurance to the port of discharge. The Assured agrees to file separately upon the Standard Forms provided for in Supplement #1 of General Order No. 6 Provisional and Closing Reports of all such shipments to be insured, such report to be filed subject to all of the rules and conditions as set forth in said General Order. In the event of loss claims shall be filed by the Assured unless otherwise permitted by the War Shipping Administration for good cause shown. In the event of loss claims shall be filed by the Assured unless otherwise permitted by the War Shipping Administration for good cause shown. In the event that with the consent of the War Shipping Administration claim is filed by the purchaser, said purchaser shall be required to file an affidavit in accordance with the provisions of the policy. Such affidavit shall be subject to the provisions of Section 35 (a) of the Criminal Code.

All other terms and conditions remaining unchanged.

§ 305.78 Warshipopencargo Policies may be issued to citizens of the United States, resident aliens, domestic partnerships or domestic corporation; policies may also be issued to foreign corporations having an office or place of business within the United States, with respect to shipments by, to, or for the account of, said office within the United States. Where a policy is issued to an agent for account of a principal the foregoing requirement shall apply only to the agent and not the principal.

All policies hitherto issued by Underwriting Agents to persons other than the foregoing must be cancelled effective not later than October 1.

§ 305.79 Notwithstanding the provisions of Article 9 of Supplement #2 of General Order No. 6 (§ 305.70), Warshipopencargo Policy form may be endorsed to cover goods imported into the United States with the intention of re-exporting the same for account of the U. S. Army to bases outside of the United States. All shipments covered under the terms of such endorsement must be reported on separate bordereaux form and must pay premium at special rates to be named by the War Shipping Administration, for the voyage involved, rather than at the customary import rate. The following endorsement hereafter designated Standard Optional Endorsement No. IX is hereby promulgated for use by Underwriting Agents in this connection:

Notwithstanding the provisions of Article 9 of Supplement #2 of General Order No. 6 (§ 305.70) of the War Shipping Administration, dated August 10, 1942, it is understood and agreed that with respect to shipments

a. Under ocean bills of lading dated on or after ----------, or

b. If ocean bills of lading not issued under equivalent shipping documents issued on or after said date, or

c. If no ocean bills of lading or equivalent documents are issued, or if the same are undated, laden on over-seas vessel on and after said date,

which would be covered under the terms of this policy but for said article 9, but which are excluded therefrom by reason of the fact that at the time of attachment of risk or subsequent thereto, the goods are intended for reexport to United States Army foreign bases, such shipment shall nonetheless be covered subject to all the terms of this policy. It is especially agreed, however, that the Assured will file special provisional and closing reports with respect to all such shipments, ad shall pay premiums thereon at such special rates as may be named with respect to the same by the War Shipping Administration.

§ 305.80 *Shipments of high priority cargoes intended for reexport to Canada.* Nothwithstanding the provisions of Article 9 of Supplement #2 of General Order No. 6 (§ 305.70), the War Shipping Administration is prepared under certain circumstances to provide War Risk Insurance on high priority cargoes imported into United States ports but intended for reexport to Canada. Persons wishing to insure such shipments in this manner must apply to Underwriting Agents of the War Shipping Administration, on Standard Form of Open Policy Application, setting forth the circumstances surrounding the application. Underwriting Agents will submit all such applications to the War Shipping Administration for approval prior to issuance of policies. All such insurances must be reported by the Assured on separate provisional and closing reports and premiums payable thereon shall be computed at special rates named by the War Shipping Administration, at levels deemed by it to be compensatory. In connection with such insurances, the following Standard Optional Endorsements are hereby promulgated:

Standard Optional Endorsement No. X

Nothwithstanding the terms of Warshipopencargo Policy Part I (§ 305.59) and Part II (§ 305.60) as amended by Article #9 of Supplement #2 to General Order No. 6 (§ 305.70, of the War Shipping Administration, this policy covers only shipments to United States ports, of ----------, which would be covered under the terms of this policy but for said Article #9, of Supplement #2 of General Order No. 6 of the War Shipping Administration, but which are thereby excluded from coverage hereunder by reason of the fact that at the time of shipment they are intended for re-export to Canada.

All other terms and conditions remaining unchanged.

Standard Optional Endorsement No. XI

Effective as to shipments

a. Under Ocean Bills of Lading dated on and after ----------, or

b. If Ocean Bills of Lading not issued, under equivalent shipping documents dated on and after *said date*, or

c. If no Ocean Bills of Lading or equivalent documents are issued, or if the same are undated, laden on over-seas vessel on and after said date,

this policy is extended to cover shipments to United States ports of ----------, which at any time during the currency of this insurance are destined for re-export from the United States to Canada, and which accordingly, in the absence of this endorsement would be excluded from the protection of this policy by the provisions of Article 9 of Supplement #2 of General Order No. 6 of the War Shipping Administration. The Assured warrants that all such shipments will be reported to the War Shipping Administration on separate provisional and closing monthly bordereaux from other shipments covered by this policy.

All other terms and conditions remaining unchanged.

§ 305.81 *Amendment to standard form of surety bond.* The standard form of surety bond incorporated in General Order No. 6, Supplement #1 (§ 305.61), is hereby amended, effective with respect to all bonds tendered on or after September 15, 1942, by striking out in paragraph 1 thereof the words "values of import shipments covered under the policy" and substituting therefor the words "values of all shipments covered under the policy."

§ 305.82 *Amendment to standard form of Part I of Warshipopencargo policy.* Effective 48 hours from the date hereof the second paragraph of Part I (§ 305.59) of Warshipopencargo Policy Form is amended to read as follows:

In consideration of a collateral deposit fund or surety bond to be established in accordance with Clause 13 of Part II of this policy, and of premiums computed and paid as provided in Clause 12, Part II of this policy, War Shipping Administration by this policy of insurance hereby insures -------- ---------- against War Risks as specified in Part II with respect to all imports to the Continental United States, excluding Alaska (except as to such imports as may be specifically excluded from this policy by special agreement noted hereon by endorsement) shipped or consigned to or by the Assured and for his account and risk or shipped or consigned to or by other parties for the account and at the risk of the Assured:

a. Under ocean Bills of Lading dated on or after ----------, or

b. If ocean Bills of Lading not issued, under equivalent shipping documents dated on or after said date, or

c. If no ocean Bills of Lading or equivalent shipping documents are issued or the same are undated, laden on overseas vessel on and after said date.

For the purpose of this insurance, goods insured hereunder shall be valued at -------- ----------.

§ 305.83 *Definition of territories and possessions.* Wherever reference is made to the territories and possessions of the United States in this General Order, any supplement thereto, or any policy of insurance issued pursuant to the provisions thereof, said territories and possessions shall be deemed to include only Alaska, Hawaiian Islands, Puerto Rico, Virgin Islands and the Canal Zone.

By Order of the War Shipping Administrator.

Secretary.

The Wentworth Gas Company, Limited	Natural gas utility company in Ontario.

The application filed by Dominion on behalf of itself and its subsidiaries (File No. 31-500) requests:

(1) Pursuant to section 3 (a) (5), exemptions from those provisions of the Act which would require Dominion, United Fuel Investments, Limited, and United Gas and Fuel Company of Hamilton, Limited to register as holding companies.

(2) Pursuant to section 3 (b), exemptions from all provisions of the Act which would be applicable to Dominion and each of its subsidiary companies as subsidiary companies of Cities Service Company.

It appearing to the Commission that it is appropriate and in the public interest and for the protection of investors that a hearing be held with respect to such applications; and

It further appearing to the Commission that the applications are related and involve common questions of law and fact; that evidence offered in respect to each of said applications may have a bearing on the others; and that substantial savings in time, effort and expense will result if the hearings on these applications are consolidated so they may be heard as one matter, and so that evidence adduced in each matter may stand as evidence in the other for all purposes:

It is ordered, That hearings on said applications be held on September 30, 1942 at 10:00 o'clock in the forenoon of that day at the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearings will be held.

It is further ordered, That the hearings on said applications be, and they hereby are, consolidated. The Commission reserves the right, if at any time it may appear conducive to an orderly and economic disposition of any proceeding or proceedings herein, to order a separate hearing concerning such proceeding or proceedings, to close the record with respect to any of the matters, or to take action on any of the matters prior to the closing of the record in the other matters.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the consolidated hearing in such matters. The officer designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18(c) of said Act and to a trial examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given to said applicants and to any other person whose participation in such proceeding may be in the public interest or in the interest of investors. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before September 25, 1942.

It is further ordered, That, without limiting the scope of the issues presented by said applications, particular attention will be directed at such hearing to the following matters and questions:

1. Whether any of the applicants hereto receives a material part of its income, directly or indirectly, from sources within the United States.

2. Whether there is any provision or provisions of said Act which, in the public interest or for the protection of investors, it is not necessary to apply to applicants.

3. Whether it is necessary or appropriate in the public interest or for the protection of investors to impose terms and conditions in respect of any exemptions which might be granted.

By the Commission.

AUTHORITY: §§ 232.1 to 232.15, inclusive, are issued under sec. 302 of the Agricultural Adjustment Act of 1938, as amended (52 Stat. 43; 7 U.S.C., 1940 ed., 1302), and the Act of May 26, 1941 (55 Stat. 203; 7 U.S.C., 1940 ed., Supp. I, 1330), as amended by the Act of December 26, 1941 (55 Stat. 860).

§ 232.1 *Definitions.* As used in these instructions, unless the context otherwise requires, the following terms will be construed respectively to mean:

(a) *Producer.* A producer shall be any person producing cotton in 1942 in the capacity of landowner, landlord, tenant, or sharecropper. Person, as used herein, means an individual, partnership, firm, corporation, association, joint-stock company, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision. If the eligible cotton produced on a farm has been divided among the producers entitled to share in such cotton, the landlord, tenants, and sharecroppers may each obtain a loan on his separate share, or two or more such producers may obtain a loan jointly on their shares of such cotton. Share tenants and sharecroppers may not obtain a loan on cotton in which a landlord has an interest: *Provided,* That a tenant and his landlord may obtain a joint loan on cotton in which they both have an interest. In any case where a landlord, cash tenant, or standing-rent tenant obtains a loan on cotton in which a share tenant or sharecropper has an interest, the 1942 cotton producer's note and loan agreement (1942 C.C.C. Cotton Form A) requires that he have the legal right to do so and that the share tenant or sharecropper be paid his pro rata share of the proceeds.

(b) *Cooperator.* A cooperator, with respect to any farm on which cotton is produced in 1942, shall be a producer who is entitled to obtain a loan at the full loan rate on eligible cotton produced on such farm in 1942. A producer will be entitled to a loan at the full loan rate on eligible cotton produced by or for him in 1942 on a farm for which a cotton acreage allotment or permitted acreage is determined under the 1942 agricultural conservation program, provided that the following requirements are met:

(1) The 1942 acreage of cotton on the farm does not exceed the cotton acreage allotment or the permitted acreage of cotton determined for the farm. For the purpose of determining eligibility for loans under the 1942 cotton loan program, the acreage of cotton on the farm shall not be considered as being in excess of the cotton acreage allotment for the farm unless the producer knowingly planted cotton in excess of the allotment. The producer will not be considered to have knowingly overplanted the allotment for the farm if the planted acreage of cotton on the farm does not exceed the allotment by more than the larger of 3 acres or 3 percent of the allotment.

(2) The sum of the 1942 acreages of cotton, wheat, corn (in the commercial corn-producing area), and tobacco on the farm does not exceed the sum of the following:

(i) The permitted acreage of cotton or the larger of 103 percent of the cotton acreage allotment or such allotment plus 3 acres.

(ii) The permitted acreage of corn or the larger of 103 percent of the corn acreage allotment or such allotment plus 3 acres. (This subdivision (ii) will be applicable only in the commercial corn-producing area.)

(iii) The permitted acreage of wheat or the larger of 103 percent of the wheat acreage allotment or such allotment plus 3 acres.

(iv) The tobacco acreage allotment or permitted acreage of tobacco.

(3) His aggregate share of the 1942 acreage of cotton on all farms in the county in which he has an interest does not exceed his aggregate share of the permitted acreages of cotton for such farms or the larger of 103 percent of the cotton acreage allotments for such farms or such allotments plus 3 acres for each of such farms.

(4) His aggregate share of the 1942 acreages of cotton on all farms in the State in which he has an interest is not found by the State committee to be such that it substantially offsets the performance under the 1942 agricultural conservation program on the farm or farms from which his share of the cotton would otherwise be eligible for a loan at the full loan rate.

(5) Payment of the penalty on any amount of cotton produced in excess of the cotton marketing quota for the farm has been secured, as provided under the 1942 regulations for marketing quotas for cotton.

(c) *Noncooperator.* A noncooperator, with respect to any farm on which cotton is produced in 1942, shall be a producer who is entitled only to obtain a loan at 60 per centum of the full loan rate on eligible cotton produced on such farm in 1942. If the 1942 acreage of cotton on a farm exceeds the permitted acreage determined for the farm under the 1942 agricultural conservation program, or if the cotton acreage allotment for the farm is knowingly overplanted, a producer will be entitled to a loan at 60 per centum of the full loan rate on that portion of his share of the eligible cotton produced by or for him on the farm in 1942 which is in excess of his share of the normal or actual production, whichever is greater, of the cotton acreage allotment or permitted acreage determined for the farm.

(d) *Eligible cotton.* Eligible cotton shall be cotton produced in 1942 by or for a producer, provided that the cotton meets the following requirements:

(1) Such cotton must be of a grade and staple specified in § 232.3 of these instructions.

(2) Such cotton must be represented by warehouse receipts issued by an approved warehouse in the form prescribed in § 232.8 of these instructions.

(3) Such cotton must not be compressed to high density.

(4) Such cotton must be free and clear of all liens and encumbrances, except those in favor of the warehouse in which the cotton is stored, as specified in the warehouseman's certificate and storage agreement in 1942 C.C.C. Cotton Form A.

(5) Such cotton must be tendered for a loan by a person who has the legal right to pledge it as security for a loan.

(6) The beneficial interest in the cotton must be, and must always have been, in the person tendering such cotton for a loan, or in such person and any share tenant or sharecropper having an interest in the cotton or its proceeds in case such person is a landlord, cash tenant, or standing-rent tenant and is placing under loan cotton in which both he and a share tenant or sharecropper have an interest.

(7) Such cotton must not have been received in payment of standing or fixed rent.

(8) The persons having an interest in the cotton must either all be entitled to a loan on the cotton at the full loan rate or all be entitled to a loan on the cotton at 60 per centum of the full loan rate.

(e) *Certificate of indemnity.* Cotton covered by a certificate of indemnity (Form FCI–274, issued by Federal Crop Insurance Corporation) will also be eligible for direct loans by Commodity Credit Corporation, in accordance with special instructions to be issued by Commodity Credit Corporation.

(f) *Lending agency* Any bank, corporation, partnership, association, or person making a loan to a producer, pursuant to a 1942 producer's note and loan agreement (1942 C.C.C. Cotton Form A) in accordance with these instructions.

(g) *Eligible paper.* A 1942 cotton producer's note and loan agreement (1942

C.C.C. Cotton Form A), duly executed subsequent to July 31, 1942, and prior to May 1, 1943. State documentary revenue stamps should be affixed thereto where required by law. (A 1942 cotton producer's note and loan agreement (1942 C.C.C. Cotton Form A) executed by an administrator, executor, or trustee will be acceptable only where valid in law and must be submitted for a direct loan in accordance with § 232.11 of these instructions, unless accompanied by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the regional office of Commodity Credit Corporation, New Orleans, La.)

§ 232.2 *Forms.* The following documents must be delivered in connection with every loan:

(a) 1942 cotton producer's note and loan agreement (1942 C.C.C. Cotton Form A).

(b) Warehouse receipts complying with the provisions of § 232.8 hereof.

(c) Producer's letter of transmittal (1942 C.C.C. Cotton Form B) or lending agency's letter of transmittal (1942 C.C.C. Cotton Form C).

§ 232.3 *Amount.* The base loan rate applicable at each approved warehouse will be shown on the "Schedule of Approved Warehouses" issued by Commodity Credit Corporation and available at the office of the county agricultural conservation committee. Premiums and discounts applicable to each grade and staple length are shown in the table in § 232.5. Loans will not be made on grades or staple lengths of cotton not shown in such table. Loans to "cooperators" will be made at the full loan rate, which shall be the rates shown in the "Schedule of Approved Warehouses" adjusted for the appropriate premium or discount for each grade and staple. Loans to "noncooperators" will be made on the basis of 60 percent of such rates on that portion of their shares of the eligible cotton produced by or for them on a farm in 1942 which is in excess of their shares of the normal or actual production, whichever is greater, of the cotton acreage allotment or permitted acreage. All loans will be made on the net weight of the lint cotton.

§ 232.4 *Classification of cotton.* All cotton must be classified by a Board of Cotton Examiners of the United States Department of Agriculture. Warehousemen should forward samples to the Board of Cotton Examiners serving the district in which the warehouse is located, and a list showing the class of the cotton will be returned by said board. Instructions have been issued to approved warehouses concerning sampling and forwarding of samples and recording the class of the cotton in the loan agreement. No separate charge is to be made to producers for this service as it is included in the warehouseman's storage agreement. Either Form 1 Classification Memorandum of the United States Department of Agriculture or a Form A–2 Classification Memorandum of the United States Department of Agriculture, issued to the Farm Security Administration, will be accepted as evidence of the class of cotton.

A charge of 15 cents per bale will be made for classing the cotton. The Boards of Cotton Examiners will make collections for classing charges from the warehousemen at the end of each month. A certified check, cashier's check, or postal money order payable to Commodity Credit Corporation must be sent to the Board of Cotton Examiners by the warehouseman in payment of these charges. The warehouseman should collect this charge from the producer.

§ 232.5 *Preparation of documents.* A producer desiring to obtain a loan may obtain the necessary forms from approved cotton warehouses and also from persons approved by the county agricultural conservation committees in the cotton-producing areas to assist producers in preparing and executing the loan forms. Persons approved by such committees for such purpose must execute the clerk's certificate in 1942 C.C.C. Cotton Form A. Such persons are permitted to collect a fee from producers not to exceed the amount approved by Commodity Credit Corporation for rendering this service. These fees are shown in the following schedule:

All blanks must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and no documents containing additions, alterations, or erasures will be accepted by Commodity Credit Corporation. Only the original copy of 1942 C.C.C. Cotton Form A is to be signed, the copy marked "duplicate" is to be retained by the producer.

The schedule of warehouse receipts must represent cotton of only one grade and staple length.

§ 232.6 *Determination of coöperators or noncoöperators.* As evidence that the producer is a cooperator, Commodity Credit Corporation will accept the clerk's certificate in 1942 C.C.C. Cotton Form A. If the producer does not exhibit the white marketing card(s) on Form Cotton 611 and make the representations to the clerk as required in section 2 of the clerk's certificate, the applicable certificate of the county agricultural conservation committee in 1942 C.C.C. Cotton Form A must be completed. The certificate of the county agricultural conservation committee must be completed on any 1942 C.C.C. Cotton Form A tendered to Commodity Credit Corporation for a direct loan pursuant to § 232.11 hereof.

§ 232.7 *Approved warehouses.* Warehouse receipts representing eligible cotton will be accepted as security for loans made pursuant to 1942 C.C.C. Cotton Form A only if issued by warehousemen approved by Commodity Credit Corporation. Warehousemen desiring to be approved should communicate with the regional office of the Commodity Credit Corporation, New Orleans, La. When warehouses are approved, notification will be given either by letter or published lists. All cotton pledged as security for any one loan must be in the same warehouse.

The warehouseman is required, as provided in the warehouseman's certificate and storage agreement in 1942 C.C.C. Cotton Form A, to draw representative samples from the bales and to deliver or forward such samples to a Board of Cotton Examiners for classing, except where either Form 1 or Form A–2 Classification Memorandum of the United States Department of Agriculture is used.

Since the loan will be made on net weight, it will be necessary for the warehouseman to determine the amount of tare on each bale and show the tare in the schedule of pledged cotton in 1942 C.C.C. Cotton Form A. Instructions will be issued to the warehousemen for their guidance in determining tare.

§ 232.8 *Warehouse receipts.* Only negotiable warehouse receipts issued by an approved warehouse dated on or prior to the date of the producer's note and properly assigned by an endorsement in blank so as to vest title in the holders or issued to bearer will be acceptable. They must set out in their written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1942, which by their terms will expire prior to August 1, 1943, must bear an endorsement of the warehouse extending the terms of the warehouse receipt for a period of 1 year from August 1, 1942. Block warehouse receipts will not be accepted.

§ 232.9 *Warehouse charges.* The warehouseman's charges are limited and his obligation defined by the warehouseman's certificate and storage agreement contained in 1942 C.C.C. Cotton Form A. This should be read carefully and must be executed by the warehouseman issuing the cotton warehouse receipts pledged as collateral to the producer's note.

§ 232.10 *Liens.* Eligible cotton must be free and clear of all liens except in favor of the warehouse in which the cotton is stored, as specified in the warehouseman's certificate and storage agreement in 1942 C.C.C. Cotton Form A. The names of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgagees (but not warehousemen), must be listed in the space provided therefor in 1942 C.C.C. Cotton Form A, and the lienholders so listed must execute the lienholders' waiver in such form. If the borrower is a tenant or sharecropper, the landlord must sign the lien waiver whether or not he claims a lien, unless the producer's note is signed jointly by the landlord and the tenant or sharecropper. A misrepresentation as to prior liens, or otherwise, will render the producer personally liable under the terms of the loan agreement and subject him to criminal prosecution under the provisions of section 35 (A) of the Criminal Code of the United States (18 U.S.C. 80 (1940 ed.)). The lienholders' waiver in 1942 C.C.C. Cotton Form A must be signed personally by all lienholders listed or by their agents, or, if a corporation, by the designated officer thereof customarily authorized to execute such instruments, in which case the duly executed authority need not be attached. A 1942 C.C.C. Cotton Form A will not be acceptable unless all prior lienholders are listed therein and have executed the lienholders' waiver.

§ 232.11 *Direct loans.* It is contemplated that producers will ordinarily obtain loans from a local bank or other lending agency which, in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Arrangements, however, have been made for making direct loans to producers prior to May 1, 1943. In such cases, the note must be made payable to Commodity Credit Corporation and must be tendered to Commodity Credit Corporation, Masonic Temple Building, New Orleans, La., on a producer's letter of transmittal (1942 C.C.C. Cotton Form B) in duplicate, postmarked not later than April 30, 1943, if tendered by mail. Upon delivery of all necessary documents, properly executed, and upon approval, payment will be made in accordance with the directions of the producer contained in said 1942 C.C.C. Cotton Form B, which permits the producer, if he so desires, to designate persons other than himself to receive all or part of the proceeds of the loan.

Direct loans will be made on certificates of indemnity (Form FCI–274, issued by the Federal Crop Insurance Corporation). Instructions with reference to the requirements of Commodity Credit Corporation in making such loans will be issued by Commodity Credit Corporation as a supplement to these instructions and will be made available through the county agricultural conservation committees.

§ 232.12 *Time and manner of tendering loans for purchase and pooling.* Loans made by a lending agency which has executed and delivered a lending agency agreement (1942 C.C.C. Cotton Form D) to the Regional Office of Commodity Credit Corporation, New Orleans, La., prior to the making of the loan will be eligible for purchase or pooling by Commodity Credit Corporation. 1942 C.C.C. Forms D are obtainable only from the Regional Office of Commodity Credit Corporation, New Orleans, La. Under the terms of this agreement, lending agencies which are parties thereto are required to tender to Commodity Credit Corporation, Masonic Temple Building, New Orleans, La., on Lending Agency's Letter of Transmittal (1942 C.C.C. Cotton Form C), executed in triplicate, all notes on 1942 C.C.C. Cotton Form A, with collateral attached, representing loans made by the lending agency within 15 days of the dates of the notes. Forty notes shall be submitted on each Lending Agency's Letter of Transmittal, except when fewer notes are listed thereon in order that the loans may be tendered within 15 days of the dates of their execution. The Lending Agency's Letter of Transmittal shall state whether the lending agency desires the Corporation to purchase the notes or to place them in a pool operated by it. Upon receipt by Commodity Credit Corporation, the loan papers will be examined, and if found correct, will be approved and purchased, or will be transmitted to the Federal Reserve bank serving the district in which the cotton is stored and placed in a pool, as directed by the lending agency. In the event that the notes are pooled, a certificate of interest will be issued to any approved lending agency designated by the lending agency tendering the eligible paper representing the interest in the pool acquired as the result of the deposit therein of the notes shown on the letter of transmittal. All requests for the release of cotton pledged as security for notes on 1942 C.C.C. Cotton Form A will be handled by the Federal Reserve bank serving the district in which the loan originated.

§ 232.13 *Lending agency.* The lending agency shall endorse the notes of producers as provided in the note, 1942 C.C.C. Cotton Form A. Care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No provision is made for any deduction from the loan proceeds by the lending agency as a charge for handling the loan documents except the authorized clerk's fee, in case the lending agency has executed the clerk's certificate.

§ 232.14 *Federal Reserve Banks.* The location of the Federal Reserve banks referred to herein and the district served by each are shown below:

Location of Federal Reserve Bank and	District Served
Atlanta, Ga.	Georgia, Florida, Virginia, North Carolina, South Carolina.
Birmingham, Ala.	Alabama.
Dallas, Tex.	Texas, New Mexico.

Oklahoma City, Okla.	Oklahoma.

§ 232.15 *Repayments.* No partial releases of the cotton securing a note will be permitted. If a producer desires to obtain the return of the note and the release of the collateral, he should notify Commodity Credit Corporation, care of the Federal Reserve bank or branch thereof serving the district in which the cotton is stored, as stated in § 232.14 hereof. The notes and warehouse receipts will then be forwarded to an approved bank for release only to said producer upon payment of the amount of the loan, the accrued interest and proper charges. Do not send requests for the return of notes and the release of collateral to the Regional Office of Commodity Credit Corporation, New Orleans, Louisiana, as this causes delay in making the release. If the producer desires to sell his equity in the loan cotton, he must complete the Producer's Equity Transfer on his copy of 1942 Commodity Credit Corporation Cotton Form A. Upon the request of the producer or upon receipt of the request contained in the Producer's Equity Transfer on the producer's copy of 1942 Commodity Credit Corporation Cotton Form A, the note and warehouse receipts will be forwarded to any approved bank designated by the person requesting the release of the cotton with directions to release such note and warehouse receipts upon payment of the amount of the loan, the accrued interest, and proper charges. In all such cases, the bank will be instructed to return the notes and warehouse receipts to the Federal Reserve bank if payment is not effected within 15 days. All charges and expenses of the bank to which the notes and warehouse receipts are sent shall be paid by the person requesting the release of the cotton. In the event that release of the cotton is requested by the submission of the Producer's Equity Transfer, the witness to the producer's signature to such form must be a person approved for such purpose by a county agricultural conservation committee in the cotton-producing area.

[Supp. 1 to 1942 C.C.C. Cotton Form 1: Instructions]

PART 232—1942 COTTON LOANS

PURCHASE OR POOLING OF 1942 COTTON PRODUCERS' NOTES

Rules and procedure relating to the purchase or pooling by Commodity Credit Corporation of 1942 cotton producers' notes pursuant to a lending agency agreement.

Pursuant to the provisions of Title III, section 302 of the Agricultural Adjustment Act of 1938, as amended (52 Stat. 43; 7 U.S.C., 1940 ed., 1302), and the Act of May 26, 1941 (55 Stat. 203; 7 U.S.C., 1940 ed., Supp. I, 1330), as amended by the Act of December 26, 1941 (55 Stat. 860), Commodity Credit Corporation has authorized the making of loans upon the security of cotton in accordance with the regulations in this part (1942 C.C.C. Cotton Form 1—Instructions). Such regulations are supplemented as follows:

Section 232.12 *Time and manner of tendering loans for purchase and pooling*[1] is supplemented by adding at the end thereof the following new section:

§ 232.12a *Rules and procedure relating to the purchase or pooling by Commodity Credit Corporation of 1942 cotton producers' notes pursuant to a lending agency agreement.* (a) 1942 cotton producers' notes (1942 C.C.C. Cotton Form A) (hereinafter called "notes") will be eligible for purchase or for pooling only when tendered by the lending agency which is the payee of the notes tendered and which, prior to the making of the loans on such notes, has executed a lending agency agreement (1942 C.C.C. Cotton Form D) and delivered such agreement to the regional office of Commodity Credit Corporation, Masonic Temple Building, New Orleans, Louisiana.

(b) All notes, together with the warehouse receipts representing the cotton securing such notes, must be tendered to Commodity Credit Corporation, Regional Office, Masonic Temple Building, New Orleans, Louisiana, within 15 days after the respective dates of such notes. Notes must be tendered on 1942 C.C.C. Cotton Form C. (lending agency's letter of transmittal), which shall state whether the lending agency desires Commodity Credit Corporation to purchase the notes or to place them in a pool. All of the notes tendered on any one 1942 C.C.C. Cotton Form C must be secured by cotton stored in the same Federal Reserve District. Four copies of the 1942 C.C.C. Cotton Form C must accompany the notes, and not more than 40 notes may be covered by any one transmittal letter.

(c) Notes, when properly tendered, will be examined by the New Orleans Office of the Commodity Credit Corporation. Notes not found to be acceptable will be returned. Notes returned will be accepted if retendered in acceptable form. One copy of 1942 C.C.C. Cotton Form C, on which any notes not accepted will be indicated, will be returned to the lending agency and will constitute a receipt for the accepted notes. Notes accepted by the New Orleans Office of Commodity Credit Corporation will be forwarded by it to the Federal Reserve Bank for the district in which the cotton is stored.

(d) If the notes accepted by the New Orleans Office of Commodity Credit Corporation and forwarded to the Federal Reserve Bank were tendered for purchase, the Federal Reserve Bank, acting for Commodity Credit Corporation, will make payment therefor. The purchase price will be the face amounts of the notes, plus accrued interest at the rate of 1½ percent per annum from the respective dates of the notes to the date of their purchase.

(e) If the notes accepted by the New Orleans Office of Commodity Credit Corporation and forwarded to the Federal Reserve Bank were tendered for pooling, the Federal Reserve Bank, acting for Commodity Credit Corporation, will issue to the lending agency named as payee in the notes, or to any other approved lending agency designated by the payee in the 1942 C.C.C. Cotton Form C on which the notes were tendered, a certificate of interest (1942 C.C.C. Cotton Form H) in a face amount equal to the face amounts of the notes deposited, evidencing the deposit of such notes in the pool pursuant to the lending agency agreement.

(f) A separate pool will be created for each Federal Reserve District in which pooled cotton is stored, and each of the notes tendered by all lending agencies for pooling and accepted by Commodity Credit Corporation will be placed in the pool for the district in which the cotton securing such note is stored. The Federal Reserve Bank for each district in which a pool is created will act as custodian of the pool in its district.

(g) The value of a certificate of interest, at any time, shall be its face amount less the total amount of payments made upon it. At the time of its issuance, a payment upon the certificate will be made to the holder in such amount as may be necessary to make the original value of the certificate an integral multiple of $100. At the time of its issuance, there will also be paid to the holder interest upon the total face amounts of the notes with respect to which the certificate is issued at the rate of 1½ percent per annum from the respective dates of the notes to the date of the issuance of the certificate.

(h) A certificate of interest shall bear interest on the value thereof at the rate of 1½ percent per annum, payable at the time and in the manner provided in paragraph (i) hereof.

(i) The total amount on hand as of the close of business on the last day of each month which was obtained through the collection of the principal amounts of notes comprising the pool will be paid during the 10-day period following the end of the month (hereinafter called the "distribution period") upon certificates of interest outstanding as of the close of business on the last day of the month: *Provided*, That such payments will not be made if Commodity Credit Corporation determines that such action is impracticable because of the insufficiency of the total amount available for payments. Payments upon certificates will be made upon the basis of the ratio of the value of each certificate to the value of all certificates upon which payments will be made: *Provided*, That the amount which would otherwise be paid upon any certificate may be increased or decreased so as to make such payment an integral multiple of $100: *And, provided further*, That the amount of any such payment shall in no event exceed the value of the certificate. Interest will be paid on each such payment at the rate of 1½ percent per annum from the date of the certificate upon which the payment is paid to the date of such payment.

(j) A certificate of interest shall be retired when the total amount of payments made upon the certificate equals the face amount thereof.

(k) A certificate of interest may be purchased from the holder thereof, at any time, by Commodity Credit Corporation by paying the holder the value thereof, plus interest thereon at the rate of 1½ percent per annum from the date of the certificate to the date of purchase, and will be purchased by Commodity Credit Corporation at such amount upon demand by the holder thereof. Commodity Credit Corporation may also purchase notes from the pool at any time by paying the face amount of such notes, plus charges and interest.

(l) A certificate of interest may be transferred, subject to the following conditions: Transfers may be made only to a lending agency which has executed a lending agency agreement (1942 C.C.C. Cotton Form D). Only two transfers may be made. Transfers may be made only on 1942 C.C.C. Cotton Form I (assignment of certificate of interest) and will be effective only upon the receipt and acceptance of such form by Commodity Credit Corporation. A 1942 C.C.C. Cotton Form I (assignment of certificate of interest) received during a distribution period will not be effective until the end of such period and payments upon the certificate during such distribution period will be made to the transferor rather than the transferee.

(m) The Federal Reserve Bank by which a certificate of interest is issued will act as custodian of the certificate for the holder until such certificate is retired or purchased by Commodity Credit Corporation, and such bank will enter on the certificate all payments made thereon.

(n) If any amount remains in the pool after all certificates issued with respect to the pool have been retired, such amount shall revert to Commodity Credit Corporation.

(o) If, upon final liquidation of the pool, the proceeds thereof are not sufficient to retire all outstanding certificates, the Corporation will pay to the holders of such certificates the value thereof, plus interest thereon at the rate of 1½ percent from the respective dates of such certificates to the date of retirement.

Dated: August 10, 1942.

President.

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1198—GLASS CONTAINER AND CLOSURE SIMPLIFICATION

[Limitation Order L-103 as amended September 12, 1942]

Section 1198.1 *Limitation Order L-103*[1] is hereby amended to read as follows:

§ 1198.1 *Limitation Order L-103*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Class container" means any glass bottle, jar, or tumbler which is intended for packing, packaging, or putting up products of any kind, but does not include any closure as defined in subparagraph (3) of this paragraph (b).

(3) "Closure" for a glass container means the sealing or covering device including, but not limited to, a crown or cap affixed or to be affixed to a glass container in order to retain the contents within the container.

(4) "Finish" of a glass container means the configuration of the neck or opening which serves to engage specific parts of the closure in order to affix it to the glass container.

(5) "Design" of a glass container means the particular shape, form, figure, size, capacity, or contour of the body of such container (other than the finish) which influences the use, desirability, advertising, or trade acceptance of the product contained.

(6) A "design in existence" shall mean and shall be limited to a design for which any mold (sample or otherwise) has been cast by any party and is actually in existence. The fact that a design is "in existence" for one size or capacity container shall not mean that it is "in existence" for containers of any other size or capacity, whether or not said other size or capacity containers shall have similar shapes, forms, figures, or contours.

(c) *Issuance of schedules of simplification of lines.* The Director General for Operations may from time to time issue schedules establishing simplified practices with respect to designs, weights, sizes, or types of glass containers and closures. When any such schedule describes a finish by reference either to an over-all measurement in millimeters or to the letters "G. C. A." followed by a numeral or numerals, such description shall mean a specification issued by the Glass Container Association of America and in effect on May 11, 1942. From and after the date of issuance of any such schedule no such containers or closures shall be produced, formed, stamped, drawn, blown, or molded except those that conform to the issued schedule, nor shall any such containers or closures be used contrary to the provisions of such schedule.

(1) Any specification (whether or not relating to a finish) indicated by such a schedule shall mean a specification issued by the Glass Container Association of America, and in effect on May 11, 1942, including the tolerances recognized by that Association in respect to such specification.

(d) *Exhibits.* Exhibits 1 to 28 attached to this order shall have no application except as they are established as standard glass containers by the provisions of any schedule issued pursuant to paragraph (c) hereof.

(e) *Freezing of all glass container designs to designs existing on May 11, 1942.* No person shall manufacture a glass container of a design not in existence on May 11, 1942, except upon one of the following conditions:

[3] 7 F.R. 2086.
[4] 7 F.R. 2088, 6517.

[2] 7 F.R. 2089.
[1] 7 F.R. 3514.

(1) When a schedule or exhibit thereof issued by the Director General for Operations or the Director of Industry Operations specifically authorizes the use of a design,

(2) When no suitable glass container exists for packing a product not previously packed in glass,

(3) When it is necessary to design a special glass container in order that it can be used on an existing filling and packing line previously used for containers made from other materials, or

(4) When a minor change in an existing permitted container design will result in a glass container that is lighter in weight in proportion to its capacity, or in a glass container that can be made faster or more efficiently, or of better quality, except that such change shall not be permitted unless the former design is then abandoned.

(5) Any new design permitted by subparagraphs (2), (3), or (4) of this paragraph (e) must be submitted to the War Production Board, Ref: L–103, for approval before adoption by a manufacturer of glass containers.

(6) In appropriate cases, permission to manufacture, by hand blowing, glass containers of a design not in existence on May 11, 1942, and not covered by any of the exceptions set forth in subparagraphs (1) through (5) of this paragraph (e), will be granted upon application for such permission by letter addressed to the War Production Board, Washington, D. C., Ref: L–103.

(f) *Allowance of normal operating tolerances.* Nothing in this order or any schedules which may be issued pursuant to paragraph (c) hereof shall (i) restrict any normal operating practices for improving mold for forming glass containers, when being prepared for use on a machine for forming glass containers, such as adjusting the weight, capacity, or other specification of the mold within the recognized tolerances for such glass containers issued by the Glass Container Association of America; (ii) prevent the normal interchange of finishes or similar parts which may be made optional on a particular body design by reason of a schedule issued pursuant to paragraph (c) above; (iii) prohibit the usual differences in a glass-container design when manufactured on glass-container machinery of different types; or (iv) prevent the alteration of weight to the extent made necessary through interchangeable finish designs when such interchange requires the use of a finish which, through its construction, normally requires a different weight of glass.

(g) *Exceptions.* (1) Nothing in this order shall prohibit the manufacture of a glass container of a design not in existence on or before May 11, 1942, provided that any variations from a design then in existence have been effected by alterations of molds in existence on or before May 11, 1942, and without the necessity for casting new molds, and provided further that such glass container shall not conflict with the specifications established by any schedule of this order.

(2) Whenever a schedule prohibits the replacement of existing molds, such prohibition shall extend to the body mold only and shall not be deemed to prohibit the use of new neck rings nor new blank molds or other equipment which are necessary for use with a body mold.

(3) Nothing in this order or any schedule hereof shall affect the manufacture, sale or delivery of glass containers or closures of any design intended to be shipped outside the forty-eight states of the United States of America and the District of Columbia, provided that said glass containers are made from molds in existence on or before May 11, 1942. On and after the 30th day of September, 1942, any container intended for such shipment, of a design otherwise prohibited hereby or by any schedule hereof shall be identified by means of three raised dots spaced not more than ¼ inch, center to center, in the form of an equilateral triangle placed on the bottom plate of the container.

(h) *Miscellaneous provisions.*—(1) *Appeal.* Any person affected by this order who considers that compliance therewith or with any schedule issued pursuant thereto would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of glass conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the Office of the War Production Board, Ref: L–103, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to Office of War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Branch, Washington, D. C. Ref: L–103. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. PART 3080—CHEMICAL FERTILIZERS

[Conservation Order M-231]

CHEMICAL NITROGEN

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of chemical nitrogen for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3080.1 *Conservation Order M-231.* (a) *Definitions.* For the purposes of this order:

(1) "Chemical fertilizer" means any material used as a plant food containing one or more of the following: nitrogen, phosphorus or potassium, excluding, however, animal manures and animal, fish and plant residues, unless mixed with a chemical fertilizer.

(2) "Grade" means the minimum guaranteed plant food content of any fertilizer expressed in percentages of its principal plant food components; namely, nitrogen, available phosphoric acid and water-soluble potash. In expressing grades the percentage of nitrogen content is stated first, the percentage of available phosphoric acid is stated second, and the percentage of water-soluble potash is stated third. For example, 2-12-6 means a fertilizer containing 2 percent nitrogen, 12 percent phosphoric acid and 6 percent potash; 0-14-7 means a fertilizer containing no nitrogen, 14 percent phosphoric acid and 7 percent potash.

(3) "Superphosphate" means any plant food product which is obtained by mixing rock phosphate with either or both sulfuric acid and phosphoric acid.

(4) "Potash" means any compound of potassium containing, or capable of releasing in the soil, any water-soluble compound of potassium including, but not limited to, muriate of potash, sulfate of potash or manure salts.

(5) "Organic nitrogen" means nitrogen derived from any plant or animal organism containing nitrogen, including, but not limited to, animal, fish and other tankages, castor pumace, tobacco stems, cotton seed meal, peanut meal, soy bean meal, sewage sludge, cocoa shell meal, peat and humus.

(6) "Chemical nitrogen" means any nitrogen, other than organic nitrogen, including, but not limited to, ammonium sulfate, sodium nitrate, calcium cyanamid, urea and nitrogen-bearing solutions.

(7) "Fertilizer manufacturer" means any person who manufactures or mixes chemical fertilizer.

(8) "Dealer" means any person, other than a fertilizer manufacturer, who purchases or has purchased chemical fertilizer for resale.

(9) "Agent" means any person, other than a fertilizer manufacturer, who receives or has received chemical fertilizer on a consignment basis for resale.

(b) *Restrictions on use and delivery of fertilizer.* (1) On and after September 12, 1942, the effective date of this order, no fertilizer manufacturer, dealer or agent, shall, subject to the exemptions provided for in paragraph (c) hereof, deliver, and no person, including fertilizer manufacturers, dealers and agents, shall use on crops, in any of the states listed in Schedule A attached hereto, any grade of chemical fertilizer other than the grades designated on such schedule as applicable to the respective states listed thereon, and where a particular grade is designated on such schedule as available only for a particular crop, such grade shall be sold or used only for the production of such crop.

(2) In addition to the restrictions provided for in paragraph (b) (1) hereof, but subject to the exemptions provided for in paragraph (c) hereof, on and after September 12, 1942, the effective date of this order:

(i) No fertilizer manufacturer, dealer or agent shall deliver any chemical fertilizer containing chemical nitrogen for use in 1942 on grain sown in the fall of 1942 to be harvested for grain, and no person, including fertilizer manufacturers, dealers and agents, shall use any chemical fertilizer containing chemical nitrogen for such purpose.

(ii) No fertilizer manufacturer, dealer or agent shall deliver any chemical fertilizer containing chemical nitrogen for use on lawns, golf courses, parks, cemeteries, roadsides or noncommercial plantings of trees, shrubs or flowers, and no person, including fertilizer manufacturers, dealers and agents, shall use any chemical fertilizer containing chemical nitrogen for any of such purposes. The restriction provided for in this paragraph (b) (2) (ii) shall apply to the use by any landscape gardener or nurseryman of any chemical fertilizer containing chemical nitrogen, on trees, shrubs or flowers planted on the premises of his customers.

(iii) No fertilizer manufacturer, dealer or agent shall deliver any chemical fertilizer containing chemical nitrogen in packages of less than one hundred (100) pounds: *Provided, however,* That any fertilizer manufacturer, dealer or agent holding stocks of chemical fertilizer containing chemical nitrogen in bags of not less than eighty (80) pounds on the effective date of this order, or having stocks of fertilizer bags of not less than eighty (80) pounds capacity on the effective date of this order, shall have the right to deliver chemical fertilizer containing chemical nitrogen in packages of not less than eighty (80) pounds until such time as his existing stock of chemical fertilizer in bags of not less than eighty (80) pounds, and of fertilizer bags of not less than eighty (80) pounds capacity, is exhausted.

(iv) No fertilizer manufacturer, dealer or agent shall, prior to November 15, 1942, deliver any chemical fertilizer containing chemical nitrogen except for use during 1942.

(v) No fertilizer manufacturer shall deliver to any consumer any superphosphate which carries less than 18% available phosphoric acid except as specifically designated on Schedule A hereof.

(3) No person shall accept delivery of any chemical fertilizer which he knows or has reason to believe is made in violation of this order.

(c) *Exemptions.* (1) The restrictions provided for in paragraph (b) (1) hereof, shall not apply to:

(i) Deliveries by dealers or agents of stocks of unapproved grades of chemical fertilizer in their hands on the effective date of this order or to the use by any person of any chemical fertilizer delivered pursuant to this paragraph (c) (1) (i) or to the use by any person of any chemical fertilizer on hand on the effective date of this order.

(ii) Deliveries by any person of any chemical fertilizer to a fertilizer manufacturer for use in the manufacture of chemical fertilizer.

PART 1306—IRON AND STEEL

[Amendment 7 to Revised Price Schedule 6[1]]

IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1306.10 (f) is amended to read as set forth below:

§ 1306.10 *Appendix A: Domestic and export ceiling prices for sales by producers of iron and steel products.* * * *

(f) (1) The maximum delivered prices for flat rolled iron or steel products which either have been rejected from the original order for which they were rolled or contain imperfections customarily distinguishing secondary or off-grade iron or steel products from products of prime quality, shall be as set forth hereinafter in this paragraph (f): *Provided,* That a product which has been rejected from the original order for which it was rolled may be applied at the full applicable prime price against a different prime order if such product fulfills in every respect the quality and other requirements in the original specifications for such different order, and if such product may be used by the purchaser without resorting to additional processing not usually performed in order to adapt the material to his requirements.

(i) "Seconds arising" shall not be sold at a price in excess of the applicable prices filed therefor in accordance with paragraph (b) of § 1306.5 of this Revised Price Schedule No. 6.

(ii) "Rejects" shall not be sold at a price in excess of the aggregate of 85% of the applicable basing point base price at the basing point nearest freightwise to the point of shipment plus 85% of such of the following extras established by this Revised Price Schedule No. 6 as may be applicable: (*a*) in the case of hot rolled sheets and cold rolled sheets, the standard extra for 32" x 96" sheet in the gauge specified, and, in the case of hot rolled pickled sheets, the pickling extra; (*b*) in the case of hot rolled strip, cold rolled strip .26 carbon and higher, commodity cold rolled strip and cold rolled spring steel, the standard extra for gauge and size and, in the case of hot rolled pickled strip, the pickling extra; (*c*) in the case of cold rolled strip under .26 carbon, the standard extra for gauge and size in cut lengths, for either hard or soft temper; (*d*) in the case of plates, the standard extra for thickness, for wide widths, for pickling or sandblasting and for quality (provided such quality is actually furnished and was not the reason for the original rejection and is specified by the customer); and (*e*) in the case of galvanized sheets, galvannealed sheets, long terne sheets, and all other products with separate gauge extra and size extras, the extra for gauge. "Rejects", for the purpose of this subparagraph are flat-rolled iron or steel products which are of a designated specific size and gauge and which contain minor imperfections such as minor surface defects, lack of flatness, camber, off or fluctuating gauge or temper, and similar imperfections, but which may be utilized without requiring unusual processing in order to remove or minimize injurious defects.

(iii) "Wasters" shall not be sold at a price in excess of the aggregate of 75% of the applicable basing point base price at the basing point nearest freight-wise to the point of shipment plus 75% of such of the extras set forth in (ii) of this subparagraph as are applicable. "Wasters", for the purposes of this subparagraph, are flat-rolled iron or steel products which are of a designated specific gauge but are unassorted to size, and which are otherwise of the same quality as "rejects."

(iv) "Waste wasters" shall not be sold at a price in excess of the aggregate of 65% of the applicable basing point base price at the basing point nearest freightwise to the point of shipment plus 65% of such of the extras set forth in (ii) of this subparagraph as are applicable: *Provided,* That in computing the maximum unit price for any lot of "waste wasters" containing a range of gauges, the maximum price for the gauge within the range carrying the lowest gauge extra shall be the price used in determining the maximum price for the entire lot: *Provided further,* That the maximum prices for plates which are "waste wasters" shall be those set forth in (iii) of this subparagraph. "Waste wasters", for the purposes of this subparagraph, are flat-rolled iron or steel products which are unassorted to both size and gauge and also include flat-rolled iron or steel products which, in addition to the imperfections listed in (ii) of this subparagraph, also contain imperfections appreciably limiting the utility of the product, such as blisters, laminations, perforations, dirty surfaces, bad edges, wrinkles, or other mars, and which require further processing by the purchaser, such as shearing, pickling, or scrubbing, in order to remove or minimize such injurious defects.

(v) The maximum prices which may be charged for tin plate "waste waste" shall be $2.80 per hundred pounds, and for manufacturer's terne plate "waste waste" shall be $2.25 per hundred pounds.

(vi) To the maximum prices established in (ii), (iii), (iv), and (v) above may be added the actual cost of transportation from the immediate point of shipment to the point of delivery.

(2) The maximum delivered prices for "semi-finished rejects" shall be not in excess of the aggregate of 85% of the applicable basing point base price at the basing point nearest freightwise to the point of shipment for an identical quantity of the iron and steel products of a rerolling grade plus such extra for cross-sectional area as may be applicable and plus the actual cost of transportation from the immediate point of shipment to the point of delivery. "Semi-finished rejects" for the purposes of this subparagraph, are partly finished iron or steel products, such as blooms, billets, tube rounds and slabs, which have been rejected because of poor surface condition, lack of internal soundness, or other defects which render the steel unsuitable for sale or use by the mill as a prime product.

(3) The maximum delivered price for any secondary or off-grade iron or steel product for which a maximum price is not established in subparagraphs (1) and (2) above shall be an amount not in excess of the maximum delivered prices established by this Revised Price Schedule No. 6 for an identical quantity of the same iron and steel of prime quality.

§ 1306.9a *Effective dates of amendments.* * * *

(g) Amendment No. 7 (§ 1306.10 (f)), as amended to Revised Price Schedule No. 6 shall become effective September 17, 1942.

PART 1375—EXPORT PRICES

[Amendment 1 to Revised Maximum Export Price Regulation [1]]

MISCELLANEOUS AMENDMENTS

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Paragraph (a) (2) of § 1375.1, paragraph (a) of § 1375.2, §§ 1375.4, and 1375.5 are amended, and a new § 1375.12 is added, all as set forth below:

§ 1375.1 *Maximum export price.* • • •

(a) • • •

(2) The maximum domestic price, at the point from which the commodity is to be shipped for export, which would be applicable to a sale of the commodity by the exporter to a domestic purchaser similar to the purchaser outside the continental United States, plus the additions thereto authorized by § 1375.2 (b) less the deductions provided by § 1375.3 (a). In the event that a maximum domestic price for such a sale of the commodity by the exporter is not determinable, a price in line with the maximum undelivered price which would be applicable to such a sale by the domestic jobber or wholesaler located nearest the point from which the commodity is to be shipped for export may be substituted as the basic price and the additions authorized by § 1375.2 (b) and the deductions provided by § 1375.3 (a) made thereto: *Provided*, That on an export sale of the goods defined in § 1375.5 (a), a premium not in excess of that specified therein may be added.

• • • • •

§ 1375.2 *Additions to cost or domestic price.* (a) An amount (stated either as a percentage or a flat amount, depending upon the customary practice in the trade) not in excess of the average premium charged in the export trade for the particular services or functions performed during either the period July 1-December 31, 1940, or March 1-April 15, 1942, whichever average premium is the lower, may be added by the exporter to his cost of acquisition, maximum domestic price or other basic price, as provided in § 1375.1 of this Maximum Export Price Regulation. In determining the applicable premium, due recognition shall be given to existing differentials in the export premiums charged by different types of exporters, differences in premium resulting from variations in the size or value of exports or from variations in the volume of business done by various exporters, as well as to differentials in premium between exports to the territories and possessions of the United States, Canada, and the various foreign nations: *Provided*, That no premium may be included in a maximum export price computed under § 1375.1 (a) (2) unless otherwise provided for therein, or under § 1375.1 (c): *Provided further*, That the applicable average export premium shall not be increased by reason of the fact that more than one exporter participates in the process of exportation.

• • • • •

§ 1375.4 *Promulgation of specific maximum export premiums.* The Office of Price Administration may, from time to time promulgate figures which shall reflect the average premium charged in the export trade for particular services or functions performed during either the period July 1-December 31, 1940 or March 1-April 15, 1942, whichever average premium is lower. Where the periods July 1-December 31, 1940 or March 1-April 15, 1942 are determined by the Price Administrator to be inappropriate base periods, or where the trade or industry finds great difficulty in discovering an appropriate premium in the base periods the Office of Price Administration may publish a specific export premium for the trade or industry. In case of such promulgation, and pursuant to and subject to the terms of the promulgation, the premium therein stated shall become the maximum premium to be charged in the export trade unless the alternative of the average export premium of the trade is specifically allowed by the Administrator. Such promulgation or promulgations, shall be in the form of amendments to this Maximum Export Price Regulation, and shall be inserted as subparagraphs of § 1375.5.

§ 1375.5 *Specific maximum export premiums*—(a) *Textiles.* The maximum export premium to be charged on an export sale of textiles, whether woven or knitted, containing 75 per cent or more by weight of cotton or artificial fiber or a mixture of cotton and artificial fiber, including but not limited to finished piece goods and grey goods regardless of width, and articles which are transformed from piece goods into finished articles simply by cutting and/or hemming and/or overedging (but not including wearing apparel), and yarn, thread, twine and rope of cotton or artificial fiber, shall be either:

(1) An amount as defined in § 1375.2 (a), which may be added to the basic price as defined in § 1375.1 (a) (1) or § 1375.1 (b); or

(2) An amount not in excess of 7 per cent of the domestic maximum price which is applicable to a sale by the exporter to a domestic purchaser similar to the purchaser located outside the Continental United States, which may be added to the basic price as defined in § 1375.1 (a) (2) or § 1375.1 (b).

• • • • •

§ 1375.12 *Effective date of amendments.* (a) Amendment No. 1 (§§ 1375.1 (a) (2), 1375.2 (a), 1375.4, 1375.5, 1375.12), shall become effective September 16, 1942.

WALNUT GUNSTOCK BLANKS

In the judgment of the Price Administrator it is necessary and proper to establish in a separate regulation the maximum price for the sale of walnut gunstock blanks which, because of the special nature of the industry, cannot satisfactorily be priced on the basis of deliveries made in March 1942. The maximum prices established by this regulation are in the judgment of the Price Administrator generally fair and equision of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 217 is hereby issued.

§ 1384.101 *Maximum prices for walnut gunstock blanks.* (a) On and after September 17, 1942, regardless of any contract or other obligation, no person shall sell or deliver any walnut gunstock blanks, and no person shall buy or receive in the course of trade or business any walnut gunstock blanks at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1384.112; and no person subject to this Maximum Price Regulation No. 217 shall agree, offer, solicit or attempt to do any of the foregoing.

(b) The provisions of this Maximum Price Regulation No. 217 shall not be applicable to sales or deliveries of walnut gunstock blanks to a purchaser, if prior to September 17, 1942, such blanks had been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser: *Provided*, That the maximum prices established in this Maximum Price Regulation No. 217 shall be applicable to walnut gunstock blanks delivered to the purchaser after May 11, 1942 on an open billing basis.

(c) The maximum prices established in this Maximum Price Regulation No. 217 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for payment and shall be decreased for prompt payment to the same extent that the sale price would have been decreased on March 31, 1942.

§ 1384.102 *Less than maximum prices.* Lower prices than those established in this Maximum Price Regulation No. 217 may be charged, demanded, paid or offered.

§ 1384.103 *Adjustable pricing.* Nothing in this Maximum Price Regulation No. 217 shall be construed to prohibit the making of a contract to sell walnut gunstock blanks at a price not to exceed the maximum price at the time of delivery

*Copies may be obtained from the Office of Price Administration.

been filed which requires extended consideration, the Price Administrator may, upon application, grant permision to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1384.104 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 217 shall not be evaded, whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to walnut gunstock blanks, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) Every manufacturer of walnut gunstock blanks who sells or delivers walnut blanks for wooden gun parts, other than stocks, shall file with the Lumber Branch of the Office of Price Administration, Washington, D. C., within 30 days of entering into the contract for sale of such parts, a report stating the specifications for such blanks, the quantity sold, and the price received.

(c) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as the Price Administrator may from time to time require or permit.

§ 1384.106 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 217 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942: *Provided*, That no War Procurement Agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 217 or the Emergency Price Control Act of 1942.

(b) *Special relief.* Any person seeking special relief for which no provision is made in the foregoing paragraph (a) of this section, from a maximum price established under this Maximum Price Regulation No. 217, may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant, together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 217 to eliminate the danger of inflation.

(c) *General amendments and exceptions.* Persons seeking any general modification of this Maximum Price Regulation No. 217 or any exception not provided for therein may file petitions for amendment or exception in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1384.108 *Definitions.* (a) When used in this Maximum Price Regulation No. 217, the term:

§ 1384.110 *Export sales.* The maximum price at which a person may export walnut gunstock blanks shall be determined in accordance with the methods provided in the Maximum Export Regulation [2] issued by the Office of Price Administration. An "export sale" is any sale between a seller in the continental United States and a purchaser outside thereof in which the commodity sold is transported from the continental United States to a point outside thereof and includes any sale of a commodity outside the continental United States, by an agent of the exporter or by a corporation owned or controlled by the exporter, within a period of two years after the date of shipment of the commodity from the continental United States.

PART 1388—DEFENSE RENTAL AREAS

[Amendment 1 to Maximum Rent Regulation 39]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

The title, preamble and § 1388.5051 (a) of Maximum Rent Regulation No. 39 [2] are hereby amended to read as follows:

Maximum Rent Regulation No. 39 for Housing Accommodations Other Than Hotels and Rooming Houses in the Richmond-Vallejo Defense-Rental Area

In the judgment of the Administrator, rents for housing accommodations within the San Francisco Bay Defense-Rental Area and other defense-rental areas and a portion of a defense-rental area set out in Maximum Rent Regulation Nos. 28 and 32A (§§ 1388.1801 to 1388.1814 and §§ 1388.2001 to 1388.2014, inclusive) were not reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, within sixty days after the issuance of the said designation and rent declaration.

Accordingly, the Administrator issued Maximum Rent Regulations Nos. 28 and 32A for housing accommodations within each such defense-rental area and the said portion of a defense-rental area, judgment, that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within that portion of the San Francisco Bay Defense-Rental Area consisting of the three Counties of Contra Costa, Napa, and Solano, inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said three counties on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for housing accommodations within the said three counties inconsistent with the purposes of the Act is on or about January 1, 1941. The Administrator is accordingly issuing an amendment to the said designation and rent declaration issued on April 28, 1942, to strike out the said three counties from the San Francisco Bay Defense-Rental Area and to designate the said three counties as the Richmond-Vallejo Defense-Rental Area. The Administrator is also issuing amendments to Maximum Rent Regulations Nos. 28 and 32A to strike out the said three counties from the description of the San Francisco Bay Defense-Rental Area set out in these maximum rent regulations. The Administrator is issuing this maximum rent regulation for housing accommodations within the said Richmond-Vallejo Defense-Rental Area in the place of the maximum rent regulation effective for such housing accommodations since July 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this maximum rent regulation for housing accommodations within the said Richmond-Vallejo Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this maximum rent regulation is hereby issued.

§ 1388.5051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 39 applies to all housing accommodations within the Richmond-Vallejo Defense-Rental Area, as designated in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended (consisting of the Counties of Contra Costa, Napa, and Solano, in the State of California), except as provided in paragraph (b) of this section.

PART 1388—DEFENSE-RENTAL AREAS

[Amendment 1 to Maximum Rent Regulation 40A]

HOTELS AND ROOMING HOUSES

The title, preamble and § 1388.6001 (a) of Maximum Rent Regulation No. 40A[1] are hereby amended to read as follows:

Maximum Rent Regulation No. 40A For Hotels and Rooming Houses in the Richmond - Vallejo Defense - Rental Area

In the judgment of the Administrator, rents for housing accommodations within the San Francisco Bay Defense-Rental Area and other defense-rental areas and a portion of a defense-rental area set out in Maximum Rent Regulations Nos. 28 and 32A (§§ 1388.1801 to 1388.1814 and §§ 1388.2001 to 1388.2014 inclusive) were not reduced and stabilized by state or local regulation, or otherwise, in accordance with the recommendations set forth in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, within sixty days after the issuance of the said designation and rent declaration.

Accordingly, the Administrator issued Maximum Rent Regulations Nos. 28 and 32A for housing accommodations within each such defense-rental area and the said portion of a defense-rental area, effective July 1, 1942. Since the issuance of these maximum rent regulations, the Administrator has found, and it is his judgment, that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within that portion of the San Francisco Bay Defense-Rental Area consisting of the three Counties of Contra Costa, Napa, and Solano, inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said three counties on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for housing accommodations within the said three counties inconsistent with the purposes of the Act is on or about January 1, 1941. The Administrator is accordingly issuing an amendment to the said designation and rent declaration issued on April 28, 1942, to strike out the said three counties from the San Francisco Bay Defense-Rental Area and to designate the said three counties as the Richmond-Vallejo Defense-Rental Area. The Administrator is also issuing amendments to Maximum Rent Regulations Nos. 28 and 32A to strike out the said three counties from the description of the San Francisco Bay Defense-Rental Area set out in these maximum rent regulations. The Administrator is issuing this maximum rent regulation for housing accommodations within the said Richmond-Vallejo Defense-Rental Area in the place of the maximum rent regulation effective for such housing accommodations since July 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this maximum rent regulation for rooms in hotels and rooming houses within the said Richmond-Vallejo Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this maximum rent regulation is hereby issued.

§ 1388.6001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 40A applies to all rooms in hotels and rooming houses within the Richmond-Vallejo Defense-Rental Area, as designated in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended (consisting of the Counties of Contra Costa, Napa, and Solano, in the State of California), except as provided in paragraph (b) of this section.

§ 1388.6014a *Effective dates of amendments.* (a) Amendment No. 1 to Maximum Rent Regulation No. 40A shall become effective September 11th, 1942.

§ 1372.52 (a) * * *

(1) *Sales by persons selling only at retail.* * * *

(2) *Sales by wholesalers and manufacturers other than those selling only at retail.* (i) The seller of a commodity being priced herein shall add to the maximum price, charged to dealers, established for him by the General Maximum Price Regulation or any other Maximum Price Regulation hereafter issued, the difference between the price most frequently charged by him to ultimate consumers of the same class during the calendar month in the twelve month period ending March 31, 1942 in which he delivered the largest amount of such commodity to ultimate consumers, and the price most frequently charged by him to dealers during the same calendar month for the same commodity.

(ii) If the seller made no deliveries of the commodity being priced during such twelve month period he shall determine such difference for the commodity most nearly like the commodity being priced, and proceed to determine his maximum price therefor as above provided.

(b) Where the seller concerned cannot establish his maximum price under paragraph (a) of this section, the seller's established maximum price for the commodity being priced shall be the same as the maximum price of his most closely competitive seller, for the same commodity and class of purchaser, or in the absence thereof, such competitor's established maximum price to purchasers of the same class for a similar commodity.

Changes in the maximum price to dealers or wholesalers for the commodity sold shall correspondingly change the manufacturer's maximum price at retail, the replacement cost and the dealer's or wholesaler's maximum price at retail, as the case may be, but such change in the dealer's or wholesaler's maximum price shall only be applicable to the commodity purchased by the dealer or wholesaler, as the case may be, at changed replacement cost, unless such regulation, order, or further amendment shall provide otherwise.

* * * * *

§ 1372.61 *Definitions and explanations.* (a) This regulation, and the terms appearing therein, unless the context otherwise requires, shall be construed as follows: * * *

All attractants, spreading and wetting agents, adhesives and diluents and commodities of like character are defined to be "agricultural insecticides and fungicides" except those which are also generally sold at retail for other purposes. A separate replacement cost shall be calculated for each quantity, size of package, and for each brand or each commodity sold. A maximum selling price may not be established by calculating replacement cost in terms of quantities of purchase smaller than normal quantities of purchase and shall be calculated in the customary manner of doing business, with regular allowances, discounts, or other price differentials. Increases in transportation cost subsequent to May 11, 1942, shall not be deemed to increase the replacement cost as herein defined.

* * * * *

(22) "Wholesaler" for the purpose of this regulation, means a person other than a manufacturer who sells all or a part of the commodity being priced to a dealer.

NEW COMMERCIAL MOTOR VEHICLES; MAXIMUM PRICES AND MAINTENANCE STANDARDS

A statement of considerations involved in the issuance of this Amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

A new subparagraph (19) is added to § 1499.73 (a) and a new subparagraph (20) is added to § 1499.73 (b), as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of General Maximum Price Regulation for certain commodities, services, and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services, and transactions listed below are modified as hereinafter provided:

* * * * *

(19) *New commercial motor vehicles*—(i) *Maximum prices.* To the maximum price of any new commercial motor vehicle, determined in accordance with the provisions of § 1499.2 of the General Maximum Price Regulation, there may be added for each calendar month or greater part thereof after February 28, 1942 which elapses prior to the sale of such new commercial motor vehicle the lower of the following two amounts (*a*) 1% of the list price of such new commercial motor vehicle and of the list price of any extra, special or optional equipment built into or installed on such vehicle, or if there is no such list price, 1% of the price at which such new commercial motor vehicle or extra, special or optional equipment was last contracted to be sold between January 1, 1942 and March 20, 1942, or (*b*) $25: *Provided,* That such new commercial motor vehicle shall, on and after September 30, 1942, receive while in storage all the maintenance operations set forth in subdivision (ii), as therein required: *And provided further,* That no amount whatsoever under this subdivision (i) shall be added to such maximum price unless:

C. that such new commercial motor vehicle has, on and after September 30, 1942, continuously received all the service operations for its maintenance set forth in subdivision (ii), in the following form:

The undersigned hereby certifies that the ---------- vehicle bearing motor number ---------- and/or serial number ---------- has, on and after September 30, 1942, continuously received all the service operations for its maintenance set forth in Amendment No. 19 to Supplementary Regulation No. 14, issued by the Office of Price Administration.

Dated: ----------

(ii) *Standards for maintenance of new commercial vehicles*—(*a*) *General instructions.* (1) All vehicles must be stored indoors. Select a clean, dry building suitable for the storage of such vehicles. Cover all openings through which animals and birds may enter storage space. Prevent water leakage. Remove loose dirt and whitewash lime.

(2) Allow sufficient space between vehicles for accessibility to perform all specified maintenance operations.

(3) The operations specified under the heading "Maintenance Operations" are of two categories: "Initial" operation, which if not already performed, are to be performed, and "Repeat" operations, which must be performed at intervals of six months, or when necessary, as indicated below.

(4) Symbol (*) indicates maintenance operations applicable to new commercial motor vehicles except trailers, third axles, and dollies. Symbol (≠) indicates maintenance operations applicable to trailers, third axles, and dollies.

(*b*) *Table of maintenance operations.*

No.	When to be done	Item	Maintenance operations
(*) 1 (≠)	Initial and whenever necessary.	Vehicle	(a) Thoroughly wash vehicle; remove all foreign substances, mud, dirt, grease spots, oil, tar. (b) Check paint, touch up all exposed metal surfaces to prevent rust.
(*) 2	Initial	Windshield wiper	Remove blades; store in glove compartment.
(*) 3	Initial and every six months.	Upholstery	(a) Clean and moth-proof all upholstery, including seat cushions, seat backs, side walls, headlinings, floor mats and carpets.
	Initial		(b) After moth-proofing upholstery, protect it from direct sunlight, except when on display in customary display room, by one of the following methods: (1) Cover all openings through which light may enter storage space. (2) Cover the inside of all car windows and wind shields with paper, using masking tape. (3) Cover vehicle with a paper or cloth cover. (4) Completely cover all upholstery with paper, using masking tape.
	Initial		(c) Place floor mats in their normal position on floor, not rolled up.
(*) 4	Initial and Whenever Necessary.	Chrome Plated Surfaces.	Thoroughly wash and clean all Chrome plated surfaces with clear water; when dry, apply a coating of light oil, liquid wax, or special preparations; wipe off until no excess oil or wax appears on the surface on the Chrome.
5	Initial	Convertible Tops	With respect to convertibles, see that the tops are up and leave the shipping cover over the top, or cover it with paper, using masking tape.

Table of maintenance operations—Continued

No.	When to be done	Item	Maintenance operations
(*) 6	Initial	Engine	(a) Drain engine oil and refill crank case with at least ½ charge of rust-inhibiting oil. (b) Run engine for 5 minutes at idle speed or about 1,000 R. P. M. Leave this oil in engine.
(*) 7	Initial	Fuel System and Carburetor.	(a) Drain gasoline tank completely and replace filler cap to exclude dust. (b) Run engine until all gasoline is consumed.
(*) 8	Initial	Spark Plugs	Remove spark plugs. Inject 2 ounces of rust-inhibiting oil into each cylinder when piston is on the power stroke. Slowly turn engine over a few revolutions with starter. Replace spark plugs.
(*) 9	Initial	Valve Compartment (Overhead Valve engines).	Remove cover. Spray rust-preventive compound or S. A. E. 10-W on mechanism and inside cover, or pack with oil soaked rags. Replace cover.
(*) 10	Initial	Seal Engine	Seal the engine. This can be done in the following manner: Remove engine oil filler tube cover and crank case breather cover, if there is one, and seal the openings. Also seal the air cleaner, tail pipe, and any other openings into the engine. Tubes or pipes can be sealed satisfactorily by covering with a small piece of oil or waxed paper, gathering the edges of the paper around the tube and tying them with a cord. The air cleaner can be sealed conveniently by covering with a paper bag and tying a cord around it at the solid part on the engine side of the air intake openings. Sealing the engine to a large extent prevents air moisture from entering the engine. NOTE: Since no provision has been made for turning the engine over at regular intervals, it is absolutely essential that the recommended procedure for conserving the engine be followed carefully.
(*) 11	Initial	Battery Removal	(a) Remove the battery and store it in a cool place near recharging equipment, to facilitate servicing. Clean battery connections and wipe with light grease. (b) If dealer has portable battery charging equipment, he may elect to leave battery in car. In either case battery must be maintained as per Item 12 below.
(*) 12	Initial and as specified under "Maintenance Operations."	Battery Maintenance	(a) Check the specific gravity at regular intervals of six weeks, except in extremely hot weather when inspection periods should be cut to three weeks. (b) Check and correct water level at each inspection and recharge batteries as necessary to bring gravity reading to 1.280 or above. In no case should the specific gravity be allowed to fall below 1.220. These specific gravity readings are given for batteries at 60° F. air temperature.
(*) 13	Initial	Cooling System	Completely drain cooling system including radiator, cylinder block, pump, heater, hose and all water connections. Leave system drain. NOTE: If coolant contains antifreeze and rust-inhibiting solution, it may be left in the cooling system.
(*) 14 (≠)	Initial	Brakes	Leave all brakes in released position.
(*) 15	Initial	Clutch	Block the pedal of dry clutches in partially disengaged position. It is not necessary to disengage other type clutches.
(*) 16 (≠)	Initial and as specified under Maintenance Operations.	Tires	Jack up vehicle in storage location taking weight off the tires. Maintain the air in tires between ½ and ¾ operating pressure so that vehicles can be pushed or towed out quickly if necessary in an emergency. Tension in cords will be relieved by lowered pressure.
(*) 17 (≠)	Initial and, if necessary, every six months where applicable.	Hood Latches, Hinges, Brake Connections.	Lubricate with light oil all hood latches, hinges, and brake connections.
(*) 18 (≠)	Initial where applicable.	Doors and Windows	(a) Close all doors and windows tightly. (b) Close all venti-panes. (c) Leave cowl ventilator open (if screened).

NOTE: Materials called for in the performance of these Maintenance Operations such as oils, wax and rust-inhibitor, should be of a grade recommended by the vehicle manufacturer.

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[Service Order No. 85]

PART 95—CAR SERVICE

LENGTH OF TRAINS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 11th day of September, A. D. 1942.

The Commission having under consideration operating rules, regulations, and State laws limiting the length of railroad freight and passenger trains, the Commission is of the opinion that, due to the existing state of war, an emergency exists requiring immediate action within the meaning of section 1, paragraphs (10) to (17), inclusive, of the Interstate Commerce Act.

It appearing that certain rules, regulations practices, and laws are now in effect and are being enforced in certain states limiting the length of railroad freight trains to not more than one-half mile and limiting the number of freight cars in a railroad freight train to 70 cars, and limiting the number of cars in a railroad passenger train to 14 or 16, and that compliance by railroads subject to the Interstate Commerce Act with such rules, regulations, practices, and laws, during the present emergency, may result in congestion of tracks and terminals, wasteful use of locomotives, and interference with the free flow of traffic necessary in the present emergency; and that railroad freight trains exceeding one-half mile in length, or exceeding 70 cars in length, and railroad passenger trains exceeding 14 or 16 cars in length may be operated in accordance with safety standards now applicable, during the present emergency, in and through such states, and that such operation will facilitate the free flow of traffic necessary during the present emergency;

Therefore, it is ordered, That:

Sec.

95.2 Effective period; emergency character.

AUTHORITY: §§ 95.1 and 95.2, issued under 40 Stat. 101, 41 Stat. 476, 49 Stat. 545, 54 Stat. 901; 49 U.S.C. 1 (10)-(17).

§ 95.1 *Length of trains.* From and after September 15, 1942, carriers by railroad subject to the Interstate Commerce Act shall operate their trains, when necessary for the prompt movement of freight and the clearing or avoidance of congestion by either freight or passenger trains, without regard to any rules, regulations, practices, or laws now in effect and being enforced in the various states limiting the length of freight trains to not more than one-half mile and limiting the number of cars in a railroad freight train to 70 cars, or limiting the number of cars in a railroad passenger train to 14 or 16.

§ 95.2 *Effective period; emergency character.* This order shall remain in effect during the war in which the United States is now engaged, unless sooner terminated by subsequent order of the Commission; and that this order, being based upon conditions of war emergency, shall not constitute a precedent for peace-time operations.

It is further ordered, That this order shall be served upon each common carrier by railroad subject to the Interstate Commerce Act and upon each State railroad commission, and that notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register, The National Archives.

By the Commission, division 3.

TREASURY TAX SAVINGS NOTES

TAX SERIES A-1945

SEPTEMBER 12, 1942.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, offers for sale, to the people of the United States, at par and accrued interest, an issue of nontransferable notes of the United States, designated Treasury Notes of Tax Series A-1945, which notes, as hereinafter provided, will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes.

2. The notes will be placed on sale September 14, 1942, and the sale will continue until terminated by the Secretary of the Treasury.

3. The sale of Treasury Notes of Tax Series A-1944, pursuant to Treasury Department Circular No. 674,[1] dated December 15, 1941, will terminate at the close of business on September 12, 1942.

4. Any holder of a Treasury note, Tax Series A-1944, purchased and bearing a date of issue in September 1942, may surrender such note on or before October 31, 1942, to the agency which issued the note and receive in exchange therefor a Treasury note, Tax Series A-1945, of like face amount inscribed in the same name and bearing the same date of issue, together with a refund of the accrued interest included in the price paid for the surrendered note.

II. DESCRIPTION OF NOTES

1. *General.* The notes will be dated September 1, 1942; they will mature September 1, 1945, and may not be called by the Secretary of the Treasury for redemption before maturity. Subject to the limitations and conditions set forth in section IV of this circular, the notes will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes. If the notes are not presented in payment of taxes, they will be payable at maturity, or, at the owner's option and request, they will be

[1] 6 F.R. 6715.

redeemable before maturity, as provided in section V of this circular, but in either case payment will be made only at the price paid for the notes.

2. *Form inscription, dating.* The owner's name and address will be entered on each note at the time of its issue by an authorized issuing agent, and the date of issue will be shown by an imprint of the agent's dating stamp. The month in which payment is received and credited by a Federal Reserve Bank or Branch, or by the Treasurer of the United States, will determine the purchase price and issue date of each note. The notes may not be transferred, except, that if notes are held by a corporation owning more than 50 percent of the stock, with voting power, of another corporation, such notes may be transferred to the subsidiary upon request of the corporation and surrender of the notes to the agent that issued them. No hypothecation of the notes on any account will be recognized by the Treasury Department and they will not be accepted to secure deposits of public money.

3. *Denominations and interest.* The notes will be issued in denominations of $25, $50, $100, $500, $1,000, and $5,000, and interest thereon will accrue from September 1942, in the amount of 16 cents each month on each $100 principal amount of note. In no case, however, shall interest accrue beyond the month in which the note is presented in payment of taxes, or beyond its maturity. Exchanges of authorized denominations from higher to lower, but not from lower to higher, may be arranged at the office of the agent that issued the note.

4. *Purchase price and tax-payment value.* A table is appended to this circular showing the principal amount with accrued interest added, for notes of each denomination, for each month from September 1942 to September 1945, inclusive. The total shown for any denomination for any month while the notes remain on sale, is the purchase price, or cost, of the note during that month. Also, the total shown for any denomination for any month is the tax-payment value of the note if receivable during that month in paymant of taxes, subject to the provisions of Section IV of this circular.

5. *Taxation.* Income derived from the note shall be subject to all Federal taxes, now or hereafter imposed. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

III. PURCHASE OF NOTES

1. *Applications and payment.* Applications will be received by the Federal Reserve Banks and Branches, and by the Treasurer of the United States, Washington, D. C. Banking institutions and security dealers generally may submit applications for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Every application must be accompanied by payment in full, at par and accrued interest from September 1942 to the month in which payment in immediately available funds is received by a Federal Reserve Bank or Branch, or the Treasurer of the United States. Any form of exchange, including personal checks, will be accepted subject to collection, and should be drawn to the order of the Federal Reserve Bank or of the Treasurer of the United States, as payee, as the case may be; War Savings Stamps will be accepted at their face value in lieu of cash. The date funds are made available on collection of exchange will govern the issue price and issue date of the notes. Any depositary, qualified pursuant to the provisions of Treasury Department Circular No. 92 (revised February 23, 1932, as supplemented) will be permitted to make payment by credit for notes applied for on behalf of itself or its customers up to any amount for which it shall be qualified in excess of existing deposits.

2. *Reservations.* The Secretary of the Treasury reserves the right to reject any application in whole or in part, and to refuse to issue or permit to be issued hereunder any notes in any case or in any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final. If an application is rejected, in whole or in part, any payment received therefor will be refunded. The Secretary of the Treasury, in his discretion, may designate agencies other than those herein provided for the sale of, or for the handling of applications for, Treasury notes to be issued hereunder.

3. *Delivery of notes.* Upon acceptance of full-paid applications, notes will be duly issued and, unless delivered in person, will be delivered within the continental United States, the territories and insular possessions of the United States, and the Canal Zone. No deliveries elsewhere will be made.

4. *Form of application.* In applying for notes under this circular, care should be exercised to specify that notes of Tax Series A–1945 are desired, and there must be furnished the name and address of the individual, corporation, or other entity in which the notes are to be issued; and if address for the delivery of the notes is different, appropriate instructions should be given. The name should be in the same form as that used in the Federal tax return of the purchaser, except that in the case of joint tax returns of individuals, the notes should be inscribed individually—the notes will not be issued in the names of two or more persons jointly. The application should be accompanied by remittance to cover the purchase price—that is, par—together with accrued interest from September 1942 to the month in which the application will be received and the remittance collected by an authorized issuing agent. The use of an official application form is desirable, but not necessary. Appropriate forms may be obtained on application to any Federal Reserve Bank or Branch, or the Treasurer of the United States, Washington, D. C.; banking institutions and security dealers generally will be supplied with forms for the use of their customers.

IV. PRESENTATION IN PAYMENT OF TAXES

1. During and after the second calendar month after the month of purchase (as shown by the issuing agent's dating stamp on each note), during such time, and under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe, notes issued hereunder in the name of a taxpayer (individual, corporation, or other entity) may be presented and surrendered, to the extent hereinafter set forth, by such taxpayer, his agent, or his estate, to the Collector of Internal Revenue to whom the tax return is made, and will be receivable by the Collector at par and accrued interest from September 1942, to the month, inclusive (but no accrual beyond September 1945), in which presented in payment of any Federal income taxes (current and back personal and corporation taxes, and excess-profits taxes), or any Federal estate or gift taxes (current and back), assessed against the original purchaser or his estate. Nothwithstanding the provisions of Department Circular No. 667, as amended, and of Department Circular No. 674, the Collector will accept (a) not more than $5,000 principal amount of notes of Tax Series A–1945, or of Tax Series A–1943, or of Tax Series A–1944, or of any of them in combination, and (b) the amount of the accrued interest thereon, on account of any one taxpayer's liability for each class of taxes (income, estate or gift) for each taxable period: *Provided*, That this limitation shall apply separately to husband and wife on a joint return, and shall apply separately to an owner before death and to his estate for the balance of the same year. The notes must be forwarded to the Collector at the risk and expense of the owner, and, for the owner's protection, should be forwarded by registered mail, if not presented in person.

V. CASH REDEMPTION AT OR PRIOR TO MATURITY

1. *General.* Any Treasury Note of Tax Series A–1945, bearing a properly executed request for payment, will be redeemed for cash at the purchase price at or before maturity, without advance notice, following presentation to the agent that issued the note.

2. *Execution of request for payment.* The owner in whose name the note is inscribed must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment, establish his identity, and in the presence of such officer sign the request for payment appearing o the back of the note, adding the address to which check is to be mailed. After the request for payment has been so signed, the witnessing officers should complete and sign the certificate provided for his use.

3. *Officers authorized to witness and certify requests for payment.* All officers authorized to witness and certify re-

quests for payment of United States Savings Bonds, as set forth in Treasury Department Circular No. 530, Fifth Revision, are hereby authorized to witness and certify requests for cash redemption of Treasury notes issued under this circular. Such officers include, among others, United States postmasters, certain other post office officials, and the officers of all banks and trust companies incorporated in the United States or its organized territories, including officers at branches thereof.

4. *Presentation and surrender.* Notes bearing properly executed requests for payment must be presented and surrendered to the agent that issued the notes (as shown by the agent's dating stamp), at the expense and risk of the owner. For the owner's protection, notes should be forwarded by registered mail, if not presented in person.

5. *Disability or death.* In case of the disability or death of the owner, and the notes are not to be presented in payment of Federal income, estate or gift taxes due from him or from his estate, instructions should be obtained from the issuing agent before the request for payment is executed, or the notes presented.

6. *Partial redemption.* Partial cash redemption of notes corresponding to an authorized denomination, may be made in the same manner as for full cash redemption, appropriate changes being made in the request for payment. In case of partial redemption of a note, the remainder will be reissued in the same name and with the same date of issue as the note surrendered.

7. *Payment.* Payment of any note, either at maturity or on redemption before maturity, will be made only by the Federal Reserve Bank or Branch, or the Treasury Department, as the case may be, that issued the note, and will be made by check drawn to the order of the owner, and mailed to the address given in his request for payment. In any case, payment will be made at the purchase price of the note, that is, at par and accrued interest (if any) paid at the time of purchase.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, offers for sale, to the people of the United States, at par, an issue of notes of the United States, designated Treasury Notes of Tax Series C, which notes, as hereinafter provided, will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes.

2. The notes will be placed on sale September 14, 1942, and the sale will continue until terminated by the Secretary of the Treasury.

[1] 6 F.R. 6715.

II. DESCRIPTION OF NOTES

1. *General.* The notes of Tax Series C will, in each instance, be dated as of the first day of the month in which payment, at par, is received and credited by an agent authorized to issue the notes. They will mature 3 years from such date, and may not be called by the Secretary of the Treasury for redemption before maturity. All notes issued during any one calendar year shall constitute a separate series indicated by the letter "C", followed by the year of maturity. Subject to the provisions of section IV of this circular, the notes will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes. If not presented in payment of taxes, the notes will be payable at maturity, or, at the owner's option and request, they will be redeemable before maturity, subject to the provisions of Section V of this circular.

2. At the time of issue, the authorized issuing agent will inscribe on the face of each note the name and address of the owner, will enter the date as of which the note is issued, and will imprint his dating stamp (with current date). The notes will be issued in denominations of $1,000, $5,000, $10,000, $100,000, $500,000 and $1,000,000. Exchanges of authorized denominations from higher to lower, but not from lower to higher may be arranged at the office of the agent that issued the note.

3. The notes may not be transferred in ordinary course; they may be pledged as collateral for loans from banking institutions, but no other hypothecation will be recognized by the Treasury Department: *Provided*, If held by a corporation owning more than 50 percent of the stock, with voting power, of another corporation, the notes may be transferred to the subsidiary, upon request of the corporation and surrender of the notes to the agent that issued them: *And provided further*, If notes pledged as collateral for a loan are acquired because of the failure of a loan to be paid, the notes will be redeemed at par and accrued interest to the month in which acquired on surrender of the notes to the agent that issued them, accompanied by proof of the date of acquisition and by request of the peldgee under power of attorney given by the pledgor in whose name the notes are inscribed, and in any such cases the limitations on redemption before maturity provided in paragraph I (a) of section V of this circular shall not apply; the notes will not be transferred to the pledgee. The notes will not be acceptable to secure deposits of public money.

4. *Interest.* Interest on each $1,000 principal amount of notes of Tax Series C will accrue each month from the month of issue, on a graduated scale, as follows:

	Each month
First to sixth months, inclusive	$0.50
Seventh to twelfth months, inclusive	.80
Thirteenth to eighteenth months, inclusive	.90
Nineteenth to twenty-fourth months, inclusive	1.00
Twenty-fifth to thirty-sixth months, inclusive	1.10

5. The table appended to this circular shows for notes of each denomination, for each consecutive calendar month from month of issue to month of maturity, (a) the amount of interest accrual, (b) the principal amount of the note with accrued interest (cumulative) added, and (c) the approximate investment yields. In no case shall interest accrue beyond the month in which the note is presented in payment of taxes, or for redemption before maturity as provided in Section V of this circular, or beyond its maturity. Interest will be paid only with the principal amount.

6. *Taxation.* Income derived from the notes shall be subject to all Federal taxes, now or hereafter imposed. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

III. PURCHASE OF NOTES

1. *Applications and payment.* Applications will be received by the Federal Reserve Banks and Branches, and by the Treasurer of the United States, Washington, D. C. Banking institutions and security dealers generally may submit applications for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Every application must be accompanied by payment in full, at par. Any form of exchange, including personal checks, will be accepted subject to collection, and should be drawn to the order of the Federal Reserve Bank or of the Treasurer of the Unite States, as payee, as the case may be. The date funds are made available on collection of exchange will govern the issue date of the notes. Any depositary qualified pursuant to the provisions of Treasury Department Circular No. 92 (revised February 23, 1932, as supplemented) will be permitted to make payment by credit for notes applied for on behalf of itself or its customers up to any amount for which it shall be qualified in excess of existing deposits.

2. *Reservations.* The Secretary of the Treasury reserves the right to reject any application in whole or in part, and to refuse to issue or permit to be issued hereunder any notes in any case or in any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final. If an application is rejected, in whole or in part, any payment received therefor will be refunded. The Secretary of the Treasury, in his discretion, may designate agencies other than those herein provided for the sale of, or for the handling of applications for, Treasury notes to be issued hereunder.

3. *Delivery of notes.* Upon acceptance of full-paid applications, notes will be duly issued and, unless delivered in person, will be delivered within the Continental United States, the Territories and Insular Possessions of the United States, and the Canal Zone. No deliveries elsewhere will be made.

4. *Form of application.* In applying for notes under this circular, care should be exercised to specify that notes of Tax Series C are desired, and there must be furnished the name and address of the individual, corporation, or other entity in which the notes are to be issued; and if address for delivery of the notes is different, appropriate instructions should be given. The name should be in the same form as that used in the Federal tax return of the purchaser, except that in the case of joint tax returns of individuals, the notes should be inscribed individually—the notes will not be issued in the names of two or more persons jointly. The application should be accompanied by remittance to cover the purchase price—that is, par. The use of an official application form is desirable, but not necessary. Appropriate forms may be obtained on application to any Federal Reserve Bank or Branch, or the Treasurer of the United States, Washington, D. C.; banking institutions and security dealers generally will be supplied with forms for the use of their customers.

IV. PRESENTATION IN PAYMENT OF TAXES

1. During and after the second calendar month after the month of purchase (as shown by the issue date on each note), during such time, and under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe, notes issued hereunder in the name of a taxpayer (individual, corporation, or other entity) may be presented and surrendered by such taxpayer, his agent, or his estate, to the Collector of Internal Revenue to whom the tax return is made, and will be receivable by the Collector at par and accrued interest from the month of issue to the month, inclusive (but no accrual beyond maturity), in which presented, in payment of any Federal income taxes (current and back personal and corporation taxes, and excess-profits taxes), or any Federal estate or gift taxes (current and back), assessed against the original purchaser or his estate. The notes must be forwarded to the Collector at the risk and expense of the owner, and, for the owner's protection, should be forwarded by registered mail, if not presented in person.

V. CASH REDEMPTION AT OR PRIOR TO MATURITY

1. *General.* (a) Any Treasury note of Tax Series C not presented in payment of taxes, will be paid at maturity, or, at the option and request of the owner, will be redeemed before maturity, but the notes may be redeemed before maturity only during and after the sixth calendar month after the month of issue (as shown on the face of each note), on 30 days' advance notice. The timely surrender of a note, bearing a properly executed request for payment, will be accepted as constituting the advance notice required hereunder.

(b) Payment at maturity or on redemption before maturity will be made at par and accrued interest to the month of payment, except, if a note is inscribed in the name of a bank that accepts demand deposits, payment at maturity or on redemption before maturity will be made only at the issue price, or par, of the note. However, if a note is acquired by any such bank through forfeiture of a loan, payment will be made at the redemption value for the month in which so acquired.

2. *Execution of request for payment.* The owner in whose name the note is inscribed must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment, establish his identity, and in the presence of such officer sign the request for payment appearing on the back of the note, adding the address to which check is to be mailed. After the request for payment has been so signed, the witnessing officer should complete and sign the certificate provided for his use.

3. *Officers authorized to witness and certify requests for payment.* All officers authorized to witness and certify requests for payment of United States Savings Bonds, as set forth in Treasury Department Circular No. 530, Fifth Revision, are hereby authorized to witness and certify requests for cash redemption of Treasury notes issued under this circular. Such officers include, among others, United States postmasters, certain other post office officials, and the officers of all banks and trust companies incorporated in the United States or its organized territories, including officers at branches thereof.

4. *Presentation and surrender.* Notes bearing properly executed requests for payment must be presented and surrendered to the agent that issued the notes (as shown by the agent's dating stamp), at the expense and risk of the owner. For the owner's protection, notes should be forwarded by registered mail, if not presented in person.

5. *Disability or death.* In case of the disability or death of the owner, and the notes are not to be presented in payment of Federal income, estate or gift taxes due from him or from his estate, instructions should be obtained from the issuing agent before the request for payment is executed, or the notes presented.

6. *Partial redemption.* Partial cash redemption of a note, corresponding to an authorized denomination, may be made in the same manner as for full cash redemption, appropriate changes being made in the request for payment. In case of partial redemption of a note, the remainder will be reissued in the same name and with the same date of issue as the note surrendered.

7. *Payment.* Payment of any note, either at maturity or on redemption before maturity, will be made only by the Federal Reserve Bank or Branch, or the Treasury Department, as the case may be, that issued the note, and will be made by check drawn to the order of the owner, and mailed to the address given in his request for payment.

VI. GENERAL PROVISIONS

1. Except as provided in this circular, the notes issued hereunder will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing bonds and notes of the United States.

2. Federal Reserve Banks and their Branches, as fiscal agents of the United States, are authorized to perform such services or acts as may be appropriate and necessary under the provisions of this circular, and under any instructions given by the Secretary of the Treasury.

3. The Secretary of the Treasury may at any time or from time to time supplement or amend the terms of this circular, or of any amendments or supplements thereto, and may at any time or from time to time prescribe amendatory rules and regulations governing the offering of the notes, information as to which will promptly be furnished to the Federal Reserve Banks.

[P. & S. Docket No. 1510]

ESSEX COUNTY COOP COMPANY

ORDER EXTENDING PERIOD OF SUSPENSION AND AMENDING ORDER OF INQUIRY AND NOTICE OF HEARING

Seymour Berkowitz and Elsie Landskroner, co-partners, trading and doing business as the Essex County Coop Company, Respondents.

This proceeding is instituted pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 1940 ed. 181 et seq.), subsequently referred to as the act, and the following allegations are made:

1. Seymour Berkowitz and Elsie Landskroner, hereinafter called the respondents, are copartners, doing business under the firm name of Essex County Coop Company.

2. The city of Newark, New Jersey, was designated as a city, market, or place by order of the Acting Secretary of Agriculture, dated October 29, 1935, effective December 12, 1935. New York, New York, and Jersey City, New Jersey, were each designated as a city, market, or place by order of the Acting Secretary of Agriculture, dated October 8, 1935, and effective November 25, 1935.

3. On January 9, 1942, the respondents were duly licensed to furnish services and facilities in connection with the marketing of live poultry in interstate and foreign commerce in the cities of Newark and Jersey City, both in the State of New Jersey, and in the city of New York, State of New York.

4. Subsequent to January 9, 1942, the respondents engaged, and are engaging, in the business of furnishing services and facilities, as stated above, which are more particularly described as the "rental of poultry coops" within the areas of the three cities named herein.

5. In accordance with the requirements of the act, the respondents filed and put into effect a schedule of rates and charges for their services and facilities designated as Tariff No. 1, which was to become effective on December 30, 1941, but the effective date of which was changed to January 9, 1942.

6. On August 5, 1942, the respondents filed with the Secretary a schedule of rates and charges designated as amendment No. 1 to Tariff No. 1, effective August 15, 1942, the effect of which is to increase the rates for the rental of coops from 55 cents to 58½ cents in the cities designated as set forth above.

7. By order of August 13, 1942, the Assistant Secretary of Agriculture directed that the operation and use of the tariff designated as Amendment No. 1 to Tariff No. 1 be suspended and its use deferred until the expiration of 30 days beyond the time when such tariff would otherwise go into effect. This order of suspension was issued for the reason that the rates set forth in the proposed tariff were believed to be unjustified and unreasonable. It now appears that a hearing cannot be concluded within the period of suspension named.

8. On or about April 1, 1942, and subsequent thereto, the respondents demanded, charged, and collected for their services and facilities a greater and a different compensation than the rates and charges specified in their schedule on file on April 1, 1942, and in effect on and after that date.

9. The respondents have failed to keep such accounts, records, and memoranda as fully and correctly disclose all of the transactions involved in their business.

It is concluded that a proceeding under the act should be had for the purpose of determining the reasonableness and lawfulness of Tariff No. 1 and of Amendment No. 1 to Tariff No. 1, and of all rates and charges of the respondents and of any and all rules and regulations or practices affecting such rates and charges, and whether any licensee's service is being, or has been, rendered by the respondents without making a lawful charge therefor, and

It is therefore ordered, That Amendment No. 1 to Tariff No. 1 be, and the same is, hereby suspended and its use deferred for a further period of 30 days beyond and including September 14, 1942.

It is further ordered, That a hearing concerning the allegations made herein shall be held before an examiner at a time and place, of which the respondents will have at least 10 days' notice. At such hearing the respondents and all other interested persons will have the right and opportunity to present such evidence with respect to the matters and things herein alleged as may be relevant and material.

It is further ordered, That any and all interested persons who may wish to appear in person to present evidence relative to the issues in this proceeding shall give notice thereof by filing a statement to that effect with the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington, D. C., on or before September 25, 1942.

It is further ordered, That a copy hereof be served upon the respondents by registered mail.

It is further ordered, That this order shall be published in the FEDERAL REGISTER.

Done at Washington, D. C., this 10th day of September 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Assistant Secretary of Agriculture.

In the Matter of Louis Glasser, Individually and Trading as Paramount Yarn Company

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1512]

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

M'DONALD MINING CO.

Findings of fact, conclusions of law, memorandum opinion and order of the acting director in the matter of the petition of Bituminous Coal Producers Board for District No. 2 for a change in minimum prices established for the coals of the Verner Mine (Mine Index No. 1888) of McDonald Mining Company.

This is a proceeding instituted upon an original petition filed by the Bituminous Coal Producers Board for District No. 2 on June 19, 1942, with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests an order changing the minimum prices and price classifications for coals produced in District No. 2 at the Verner Mine (Mine Index No. 1888) of McDonald Mining Company, from the present price classifications of J, J, H, H, H, H, J, J, and J, Size Groups 1 through 9, inclusive, to price classifications of C, C, C, C, F, F, H, H, and H, in Size Groups 1 through 9, inclusive.

No petitions of intervention have been filed in this proceeding.

Pursuant to an Order of the Acting Director, and after due notice to interested persons a final hearing in this matter was held on August 12, 1942, before a duly designated Examiner in a hearing room of the Division, at Washington, D. C., at which interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Only representatives of the petitioner filed an appearance. Mr. C. C. McGregor, president of the McDonald Mining Company, was present but did not testify. The preparation and filing of a report by the Examiner were waived and the matter was thereupon submitted to the Acting Director.

According to the testimony of Thomas H. Queer, Chairman of District Board No. 2 and Chairman of the Marketing and Classifications Committee, who was the only witness at the hearing, the Verner Mine (Mine Index No. 1888) had been inactive since 1924 until reopened on April 9, 1942. The price classifications for the mine were set forth in Docket No. A-1172 by Order of the Acting Director, dated December 18, 1941, 7 F.R. 99. They were the same as those established for the coals of the Langeloth Mine of the American Zinc and Chemical Company. As the Verner Mine was not yet in operation at the time the order was issued, there was no reliable information available as to what grade of coal would be produced. When production was started, the McDonald Mining Company asked District Board No. 2 to have observations made and satisfy itself as to the proper classifications for the coal. This was done, when the mine had been running a month, by investigations made by two experienced members of the Marketing and Classification Committee, whose primary function was to make such investigations. Comparisons were made by a firm of inspecting engineers, chemists, and metallurgists of New York, Pittsburgh, and Chicago, of the analytical properties of the coals of the Langeloth Mine of the American Zinc and Chemical Company, which was classified the same as the Verner Mine and also of the Montour No. 9 Mine of the Pittsburgh Coal Company, which classification District Board No. 2 proposed, except in Size Groups 1 and 2, to give to the Verner Mine.

The results of these investigations show that the coals of the Verner Mine were not like those of the Langeloth Mine. They were, except in Size Groups 1 and 2, comparable tc the Montour No. 9 Mine, which the new workings of the Verner Mine joins, and should, therefore, bear the same classifications except in Size Groups 1 and 2.

Upon the basis of the uncontroverted evidence, I find and conclude that the relief sought herein is reasonable and necessary and that the coals of the Verner Mine (Mine Index No. 1888) are comparable except in Size Groups 1 and 2 with those of Montour No. 9 Mine of the Pittsburgh Coal Company and should be similarly classified in Size Groups 3 through 9, inclusive. I also find that since Size Groups 1 and 2 of the Verner Mine (Mine Index No. 1888) are of a softer structure than the same sizes produced at the Montour No. 9 Mine and that they should, therefore, be given the lower classification of C. This will result in the price classification for Size Groups 1 through 9 of C, C, C, C, F, F, H, H, and H.

Now, therefore, it is ordered, That commencing forthwith, § 322.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

Dated September 3, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

NOTE: The material contained in this supplement is to be read in the light of the classifications, prices, instructions, exceptions, and other provisions contained in Part 322, Minimum Price Schedule for District No. 2 and supplements thereto.

(6) *Other persons, directed by Treasury Department to file reports.* Other persons, directed by the Treasury Department to file reports on Series L, shall report such property on such date as may be required by the Department.

(c) *Amount of property.* Reports on Series L required under this Circular shall be made without any exemption whatever with respect to the amount of property involved, except as provided in subdivision (1) of Instruction (a).

(d) *Reports on previous Series of Form TFR-300*—(1) *Basic requirement of reports*—(a) *Persons reporting their own property.* Except as provided in subdivision (3) and subdivision (4) of this Instruction, every person reporting his own property on Series L must also file a report on Series A or Series B, as appropriate, of Form TFR-300 with respect to all property subject to the jurisdiction of the United States on the opening of business on either June 1, 1940, or on June 14, 1941, or both, in which the person had any interest of any nature whatsoever, direct or indirect, even though such a report previously has not been required.

(b) *Persons reporting the property of other persons.* Except as provided in subdivision (3) and subdivision (4) of this Instruction, every person reporting the property of another person on Series L must also file a report or reports on the appropriate series of Series A through Series H of Form TFR-300 with respect to all property in the custody, control, or possession of the person reporting and subject to the jurisdiction of the United States on the opening of business, on either June 1, 1940, or June 14, 1941, or both, in which the person whose property is reported on Series L had any interest of any nature whatsoever, direct or indirect, even though such a report or reports previously have not been required.

(2) *Instructions for reporting on Series A through Series H.* Reports on Series A through Series H required under this Instruction shall be prepared in accordance with the instructions in Public Circular No. 4, except as said instructions are inconsistent with the provisions of this Instruction. Questions 8 through 16 in Part E of Series B may be disregarded. At the top of the first page of each report on Series A through Series H there shall be written the phrase required to be inserted in Part A of the corresponding report on Series L by Instruction 5 (c) in Section IV of this Circular.

(3) *Exemptions.* The reports on Series A through Series H required under this Instruction shall be made without any exemptions whatever, except that if the total value of any property of any national which any one person would otherwise be required to report was on both June 1, 1940, and June 14, 1941, less than $1,000, the property need not be reported: *Provided*, That this exemption shall not apply to the lease of a safe-deposit box, to patents, trade-marks, copyrights, and franchises, to interest in partnerships and profit-sharing agreements, nor to property the value of which cannot readily be determined: *And provided further*, That in arriving at the value of $1,000, no deduction shall be made for offsets, liens, or other deductions from gross value. If a person held property of a kind which must be reported without exemption by virtue of the first proviso in the preceding sentence, he must also report all other property held, regardless of the value of such other property.

(4) *Reports previously filed on Series A through Series H.* If a report or reports on Series A through Series H have previously been filed in a case where a report or reports are otherwise required by this Instruction, no report need be filed under this Instruction provided that the report or reports previously filed are substantially identical with those required under this Instruction. In this respect, only, a difference in entries under the nationality caption shall not be regarded as substantial, but if such a difference appears it should be fully explained in the report on Series L.

(5) *Reports previously required but not filed.* The provisions of this Circular in no way excuse the filing of any report on Series A through Series H of Form TFR-300 which would be required if this Circular had not been issued, but which is not required under this Circular.

(6) *Series I, Series J, and Series K.* Nothing in this Circular requires any report on Series I, Series J, or Series K of Form TFR-300, but the requirements for reports on these Series set forth by Public Circular No. 4, Public Circular No. 4A, and Public Circular No. 4B shall remain fully effective.

(iii) Any person to the extent that such person is, or has been, since such effective date, acting or purporting to act directly or indirectly for the benefit or on behalf of any national of such foreign country, and

(iv) Any other person who there is reasonable cause to believe is a "national" as herein defined.

In any case in which by virtue of the foregoing definition a person is a national of more than one foreign country, such person shall be deemed to be a national of each such foreign country. In any case in which the combined interests of two or more foreign countries designated in this Order and/or nationals thereof are sufficient in the aggregate to constitute, within the meaning of the foregoing, control or 25 per centum or more of the stock, shares, bonds, debentures, notes, drafts, or other securities or obligations of a partnership, association, corporation or other organization, but such control or a substantial part of such stock, shares, bonds, debentures, notes, drafts, or other securities or obligations is not held by any one such foreign country and/or national thereof, such partnership, association, corporation or other organization shall be deemed to be a national of each of such foreign countries. The Secretary of the Treasury shall have full power to determine that any person is or shall be deemed to be a "national" within the meaning of this definition, and the foreign country of which such person is or shall be deemed to be a national. Without limitation of the foregoing, the term "national" shall also include any other person who is determined by the Secretary of the Treasury to be, or to have been, since such effective date, acting or purporting to act directly or indirectly for the benefit or under the direction of a foreign country designated in this Order or national thereof, as herein defined.

(2) *"United States."* With respect to reports on Series L, the term "United States" means the United States and any place subject to the jurisdiction thereof except the Philippine Islands.

(4) *"Persons whose property is blocked."* The term "person whose property is blocked" shall include a national who claimed to be licensed under General License No. 28, General License No. 42, General License No. 68, General License No. 73, or General License No. 80 but who is specifically ruled by the Treasury Department not to have been entitled to the privileges of the license involved.

(5) *"Purely transitory visit."* The term "purely transitory visit" shall not be deemed to include a visit to a country by a person who expects to remain there more than three months and who has no fixed abode elsewhere to which to return on the termination of the visit.

(f) *Separation of reports for different nationals.* A separate report shall be made with respect to each person whose property is to be reported on Series L. For example, if the person reporting owes debts to two nationals whose property is to be reported, he will make two separate reports, listing on each report all of his debts to the particular person for whom that report is made. If he owes one debt jointly to two persons whose property is to be reported, he will again make two separate reports, entering the whole debt on each. Any duplication in reporting the same property on several reports or duplication by reason of several persons reporting the same property shall not excuse anyone from rendering all reports required of him.

(g) *Time and place of filing report—*(1) *Place.* Reports on Series L, and reports on Series A through Series H required by Instruction D, must be executed and filed in *quadruplicate* with the Federal Reserve Bank of the district or the Governor of the territory or possession of the United States in which the person filing the report resides or has a principal place of business or principal office or agency, or if such person has no legal residence or place of business or principal office or agency in a Federal Reserve district or a territory or possession of the United States, then with the Federal Reserve Bank of New York or the Federal Reserve Bank of San Francisco. Persons reporting should retain a copy of each report filed by them.

(2) *Time.* (a) Reports by a national entering the United States after October 31, 1941, and prior to September 1, 1942, shall be filed on or before October 15, 1942. Reports by a national entering the United States on or after September 1, 1942, shall be filed on or before the thirtieth day succeeding the day on which the national entered the United States.

(b) Reports by an applicant for license under General License No. 42 shall be filed at the same time as the license application.

(c) Reports by a person whose property is blocked under Treasury direction shall be filed at such time as shall be required in the letter or other communication informing the person of the blocking.

(d) Reports by a person having custody, control, or possession of property of another person whose property is blocked by direction of the Treasury Department shall be filed at such time as shall be required in the letter or other communication notifying the person reporting of the blocking. A person who is not notified of the blocking shall file reports within fifteen days from the date on which he actually learns of the blocking.

(e) Reports by a person having custody, control, or possession of property of another person whose name appeared in The Proclaimed List of Certain Blocked Nationals on September 1, 1942, shall be filed on or before October 15, 1942. Reports with respect to property of a person whose name is added to the List after September 1, 1942, shall be filed within fifteen days from the date on which the addition of the person's name to the List is promulgated.

(f) Other persons directed by the Treasury Department to report shall file reports within such time as may be directed by the Department.

(h) *Penalties.* Section 5 (b) of the Act of October 6, 1917 (40 Stat. 415), as amended, applicable hereto, provides in part:

2. *Instructions applicable to entire series—(a) Reading circular.* If you have not already read carefully Sections I, II, and III of this Circular, do so before reading this Section. Persons reporting property which previously should have been reported on Series C through Series H of Form TFR-300 and not on Series A or Series B should also read Section V before attempting to prepare a report.

(b) *Answers required.* Each question on the Series must be answered, and all the specific information called for must be given. When there is nothing to report under any question or if information is lacking, state "No," "None," or "Unknown," as the case may be, with an explanation if required, except that in Part C spaces not needed for reporting should be left blank. No person is excused from furnishing any information he reasonably should have.

(c) *Number of copies required.* File each report in *quadruplicate.* You should retain for yourself an additional copy of each report.

3. *Effective date of report.* Each person reporting shall enter in this space the effective date of the report as provided by Instruction B in Section II of this Circular. Great care should be taken that the proper date is entered. Do *not* enter the date on which the report is filled out or the date on which the affidavit to the report is subscribed and sworn.

4. *Nationality—(a) General.* Enter in this space the name of each country of which the person whose property is being reported is a national, as defined in Section 5E of Executive Order No. 8389, as amended. If the person is a national of any foreign country by reason of any fact other than that such person has been a subject or citizen of the country, the facts determining the person's nationality must be stated in question 5 of Part E. In answering question 5, state *all* the facts concerning the nationality of the person, including those relating to his status as a national of the country, if any, of which he has been a subject or citizen.

(b) *Proclaimed list.* If the person whose property is being reported is listed on The Proclaimed List of Certain Blocked Nationals, insert the words "Proclaimed List" under the nationality caption, in addition to the name of each foreign country of which the person is a national. Do not insert the name of any foreign country merely because the person is listed on The Proclaimed List of Certain Blocked Nationals.

5. *Part A. (a) Name.* If the national is an individual doing business under a trade name, give that name in addition to his actual name.

(b) *Citizenship.* If the national is not an individual, enter the name of the country, State, district, territory, or possession under the laws of which it is incorporated, or, if unincorporated, in which it has its principal place of business. When the national is a subject or citizen of more than one country, state the name of each country, including the United States when that is one of the countries.

(c) *Reason for report.*

(iii) A person whose property is blocked by specific direction of the Treasury Department should make a statement in the following form: "Filed pursuant to blocking letter from Federal Reserve Bank of ----------, dated ---------- 194--," with appropriate insertions. If notice of the blocking is received from a source other than a Federal Reserve Bank, the insertion should be modified accordingly.

(iv) A person holding property of another person, whose property is blocked by specific direction of the Treasury Department should make a statement in the following form: "Filed pursuant to blocking letter from the Federal Reserve Bank of ----------, dated ---------- 1942," with appropriate insertions. If notice is received from a source other than a Federal Reserve Bank, the statement should be modified accordingly. A person reporting without having received any notice should utilize this space for the explanation required under subdivision (4) of Instruction B in Section II of this Circular.

(v) A person holding property of another person whose name appeared on

The Proclaimed List of Certain Blocked Nationals on September 1, 1942, should enter "Proclaimed List—September 1, 1942." A person holding property of a person whose name is added to the List after September 1, 1942, should make a statement in the following form: "National's name added to Proclaimed List on ----------, 1942," with the appropriate date.

(vi) Other persons, reporting by direction of the Treasury Department, shall make such statement as may be required by the Department.

6. *Part B—(a) Person reporting his own property.* A person reporting his own property need not fill out this Part further than to enter his name in the Part.

(b) *Persons reporting property of others.* A person reporting the property of another should state in Part B, as indicated in the margin thereof: (i) his name; (ii) his address; (iii) his business; (iv) the state or country of which he is a citizen or under the laws of which it is incorporated or, if unincorporated, in which it has its principal place of business; (v) if the person reporting is a national as defined in Section 5E of Executive Order No. 8389, as amended, the name of each country of which he is a national; and (vi) his relationship to the national whose property is being reported, *e. g.*, as agent, nominee, trustee, custodian, banker, etc. The information may be given by any method producing a readily legible impression.

7. *Part C. Schedule I—(a) General.* This schedule requires the valuation of all the property of the person whose property is being reported within each property type contained in the classification set out in Section III of this Circular, which must be followed strictly. Property not falling under any of the other types of the classification must be reported under type 30, but no property shall be reported under type 30 if it constitutes property reportable under any other type.

(b) *Valuation.* Enter in the column for property holdings the total value of the items of each type of property held on the effective date of the report, at the market price at the close of business on the preceding day, or, if such price is not available, at the estimated value on the effective date. In estimating value, the last sale price or bid, if reasonably close to the effective date, may be used as a basis. Concerning the effective date, see Instruction 3 in this section.

All amounts reported should be given in dollars to the nearest dollar. Do not enter fractions of a dollar on the report. However, in determining the value of a property item consisting of more than one unit, fractions of a dollar in the unit value should not be disregarded. For example, if 10 shares of a particular stock are to be reported and the value of each share was $116⅜, so that the exact total value was $1,163.75, the amount entered on the report should be $1,164.

(c) *Value expressed in foreign currency.* Property, the value of which was expressed in a foreign currency, or which was to be paid or liquidated in a foreign currency, shall be valued at the dollar value if dollar market value existed for such property itself; if not, the foreign currency value thereof shall be converted into dollars, in accordance with the instructions relating to exchange rates given in Section VI of this Circular.

(d) *Property of indeterminable value.* In reporting property of indeterminable value, enter "indeterminable" under the appropriate property type in Schedule I and describe the property in Schedule III, as required by Instruction 9 below. When property of determinable value and property of indeterminable value are to be reported under one property type in Schedule I, the determinable amount should be entered under the property type without indication of the property having indeterminable value, but descriptions of the items should be given in Schedule III in accordance with Instruction 9.

(e) *Inventories.* If in the regular course of its business, a person engaged in business prepared an inventory of merchandise, and machinery and equipment, or either, within a year of the effective date of the report, and if the information required to be furnished in Schedule I is not available from other existing records of the national, such inventory prepared nearest to the effective date and the values indicated thereon may be used in filling out Schedule I, with appropriate notation of such use, including the date of the inventory.

(f) *Orders for goods.* Orders for goods and contracts for the sale of goods need not be reported, but report must be made of long-term merchandise contracts.

(g) *Goods in transit.* Goods in transit need be reported only by nationals reporting their own property, but goods in storage must be reported by any person having custody, control, or possession of the goods, including carriers holding goods in storage.

8. *Part C. Schedule II.* This Schedule requires a statement of the indebtedness of the national payable to persons in the United States, within each indebtedness type as classified and described in the Schedule. State under each type only the total amount of indebtedness of that type being reported. Nationals reporting for themselves should enter all their indebtedness of each type. Persons reporting concerning nationals should enter only the indebtedness owed by the national to them. All amounts should be given in dollars to the nearest dollar. Do not enter fractions of a dollar. Indebtedness payable in foreign currency should be converted into dollars in accordance with the instructions relating to exchange rates given in Section VI of this Circular.

9. *Part C. Schedule III—(a) Property items to be listed.* List in this Schedule, in the order in which the property types are given in Schedule I of this Part, each item of property, concerning which report is being made, having a value of $1,000 or more on the effective date of the report: *Provided,* That persons reporting by virtue of subdivision (3) or subdivision (4) of Instruction A in Section II of this Circular shall list all items of property, without exception as to value. Property items included in Class F, *i. e.*, patents, trade-marks, copyrights, and franchises, and in Class H, *i. e.*, partnership and profit-sharing agreements, shall be listed, even though valued at less than $1,000. However, no reference whatever should be made to any invention with respect to which a secrecy order has been issued by the Commissioner of Patents pursuant to the Act of October 6, 1917 (40 Stat. 394), as amended. Also, list all items of property, the value of which is not readily determinable. Except as provided in this paragraph, property items of a value less than $1,000 should not be listed in this Schedule, although the value of each must be included in the total value of property of the appropriate type in Schedule I.

(b) *Definition of property item.* A property item is any unit of property commonly bought, sold, assigned, released, or alienated, except that the total of wholly similar units of the same kind is regarded as one item, such as a number of certificates each for shares of stock of the same issue, or a number of bonds of the same issue, or several head of cattle. The total number of units of such property shall be stated, but in other respects the property may be treated entirely as one item. Several bank accounts with the same institution, or several debts payable by the same debtor, shall be itemized separately in this Schedule if the aggregate amount thereof exceeds $1,000, even though each individual item is less than $1,000.

(c) *Method of listing.* Enter in Column (a) the number of the property type in which the item is included. Enter in Column (b) a short description or identification of the property item. In case of property, such as a patent, commonly referred to by number or other similar designation, state briefly the object or nature of the property in addition to the number or other designation. With regard to property other than debts and claims, enter in Column (c) in addition to other appropriate information, the name and address of the person, if any, with whom the property was deposited or by whom it was held, and give the number or other designation of any safe deposit box or similar receptacle, if any, in which the property was kept. Respecting deposits, debts, etc., owed to the national, state the name and address of the debtor and disregard the location of the evidence of indebtedness. If the property was held by or owned by the person reporting, it will suffice to state "Person reporting" in place of the name and address. Enter in Column (d) the value of each property item on the effective date of the report, as determined in accordance with the provision for valuation in Instruction 7, above.

(d) *Continuation sheets.* Continuation sheets identical in form with Schedule III are provided for the use of persons reporting who find the space in Schedule III insufficient.

10. *Part D. Section I.* All the information called for in the questions under this Part must be given as of the effective

date of the report for each of the property items listed in Part C, Schedule III. In the answers, each item of property shall be designated by the number of its type and by its description, or a summary of the description, in Part C, Schedule III.

11. *Part D. Section II.* The questions in this Section must be answered by every person reporting on Series L. The purpose of the Section is to obtain definite information whether a report or reports on Series A through Series H of Form TFR–300, in accordance with Instruction D in Section II of this Circular, should be filed by the person reporting on Series L. Persons who answer the applicable part of question 1 in the affirmative and who answer question 2 (a) in the negative must file a report or reports on Series A through Series H unless the property comes within the exemption provided by subdivision (3) of Instruction D in Section II.

12. *Affidavit*—(a) *Necessity and manner of execution.* The report must be signed and sworn (affirmed) to before an officer authorized to administer oaths whose seal must be affixed. Reports will not be accepted unless properly executed. The affidavit need be attested only on the original of the report but the affidavits on copies must be fully conformed except as to the notarial seal.

(b) *Who shall execute.* Affidavits on behalf of partnerships shall be executed by a partner. Affidavits on behalf of any other organization shall be executed by the president, vice-president, secretary, or some other principal officer authorized to make the report on behalf of the organization.

SEC. V. *Special instructions to persons previously reporting on Series C through Series H.* Persons holding property which they should have reported on Series C through Series H of Form TFR–300, if the reporting dates for those series had extended to the date for reporting on Series L, should prepare Part C and Part D, Section I, of Series L as nearly as possible in the same manner as they would have reported on Series C through Series H. It is intended that the reports on Series L of property which previously would have been made on Series C through Series H shall be as closely comparable as possible in data and presentation to reports on those Series. See also Instruction I in Section II of this Circular. Persons who would have reported safe-deposit boxes on Series D should utilize Part E, questions 6, 7, and 8 of Series L, instead of Part C and Part D, Section I.

The provisions of this section in no way excuse the filing of reports on Series C through Series H which are required under this Circular or under Public Circular No. 4.

SEC. VI. *Table of exchange rates.* Where the value of property expressed in terms of foreign currency is required to be converted into dollars, the rates of exchange set forth below should be used. If no rate is given for a country, the latest rate next before the effective date of the report, as generally quoted by foreign exchange dealers or other recognized sources of information, shall be used. Such rate should be clearly stated in the report.

The exchange rates given in this table are for use only in preparing reports on Form TFR–300, Series L, and are not intended to be used or relied upon in any other connection or for any other purpose whatsoever. In making reports on Series A through Series H of Form TFR–300 in accordance with Instruction D in Section II of this Circular, the instructions and table of exchange rates set forth in Section XIII of Public Circular No. 4 should be employed.

§ 903.13 *Supplementary Directive 1–K.* (a) In order to permit the efficient rationing of farm machinery and equipment, the authority delegated to the Office of Price Administration in § 903.1 (Directive No. 1) is hereby extended to include the exercise of rationing control (including but not limited to the issuance of suspension orders against any person who has acted in violation of any regulation or order issued pursuant to this Supplementary Directive No. 1–K) over the use by any person, or the sale, transfer, or other disposition by any person to any other person, of farm machinery and equipment, except the persons specified in subparagraphs (1) and (2) of paragraph (a) of said Directive No. 1. The exercise of such authority shall be subject to the terms and conditions specified in Directive No. 1. The Office of Price Administration may delegate to such persons as it may designate, including the Secretary of Agriculture, the exercise of all functions, duties, powers, authority or discretion, conferred upon it with regard to the rationing of farm machinery and equipment.

(b) As used in this supplementary directive, the term "farm machinery and equipment" means agricultural machinery, mechanical equipment and implements used for the production or care of crops, livestock, livestock products, or other produce on a farm (or elsewhere in the case of poultry), including all attachments used in conjunction with farm machinery and equipment, irrigation and drainage equipment (excluding tile), horseshoes, horseshoe nails and harness hardware; but excluding repair parts, and also excluding all of the following: automobiles, trucks, tracklaying type tractors, equipment ordered by the United States Department of Agriculture or other United States Government Agencies, buildings and repairs thereto, fencing, poultry nettings and wire, wire fencing, bale ties or straps, oil well casing and water pipe, nails (other than horseshoe nails) and sundry hardware. PART 903—DELEGATION OF AUTHORITY

[Supplementary Directive 1–L]

RATIONING IN THE PANAMA CANAL ZONE

Correction

Paragraph (a) of § 903.14 *Supplementary Directive 1–L—Further delegation of authority with respect to rationing in the Panama Canal Zone* appearing on page 7200 in the issue for Saturday, September 12, 1942, should read as follows:

PART 1134—TEA

[Amendment 3 to Order M–111 as Amended May 1, 1942]

Section 1134.1 *Conservation Order M–111*[1] is hereby amended in the following respects:

1. Paragraph (d) is amended by the addition of a new subparagraph numbered (d) (7) and reading as follows:

(7) Any packer who delivers a substantial portion of his quota of tea directly to consumers and/or to retailers may, by letter, submit to the War Production Board a plan to transfer the distribution of all or a part of that portion to wholesale receivers of the class described in paragraph (b) (4) of this order. Such a plan must contemplate a substantial conservation of automotive and related equipment and material, and, further, contain provision for equitable distribution of the transferred volume among such wholesale receivers and an equitable redistribution of that volume within the areas previously served directly by the packer. If such a plan is authorized by the Director General for Operations, the packer may deliver to wholesale receivers of the class described in paragraph (b) (4), and such wholesale receivers may accept without charge to their quotas, the volume of tea authorized for transfer, provided delivery of such tea is accompanied by a dated certification by the packer reading substantially as follows:

Pursuant to authorization issued to the undersigned by the War Production Board, you may accept the tea delivered hereunder without charge to your quota as a wholesale receiver.

Name of packer company_____

_____

By _____ Title _____

2. A new paragraph, numbered (e–1) and reading as follows, is inserted between paragraphs (e) and (f):

(e–1) *Restrictions relating to importers' and packers' inventories.* (1) Except as permitted by paragraph (e–1) (2) below or as specifically authorized by the Director General for Operations or for the purpose of filling orders under paragraph (d) (4) above, no person shall knowingly deliver tea to any importer or to any packer, and no importer and no packer shall accept delivery thereof, if his inventory of tea is, or will by virtue of such acceptance become, if he is an importer, in excess of one-twelfth of the total quantity of tea delivered by him in 1941 in original bulk import packages or, if he is a packer, in excess of one-fourth of the total quantity of tea accepted by him during 1941. For purposes of this order, an "importer" is any person, other than a government agency, engaged in the business of importing tea for resale in original bulk import packages, to the extent that he is so engaged. Any tea in the possession of an importer but set aside and held for the account of a packer shall be considered the packer's inventory.

(2) If a shipment of tea imported by or specifically for a packer arrives in the United States and, by virtue of paragraph (e–1) (1), such packer is not entitled to accept delivery of any or all of such tea but is unable to make an immediate bona fide sale to some unaffiliated person, who is entitled to accept delivery, of the excess portion of such shipment or an equivalent amount of tea from his existing inventory, such packer may take possession of such excess, pending the actions provided for below:

(i) Within 72 hours after the arrival of such tea in the United States, such packer shall offer, through established tea dealers and/or brokers, such excess, or an equivalent quantity of tea from his existing inventory, for bona fide sale to any unaffiliated person who is entitled to accept delivery;

(ii) At the same time, he shall forward a report, by letter or telegram, of such actions to the War Production Board, stating the steamer, the port of arrival, the excess quantity (by chests and chest weights), whether he intends to sell such tea or an equivalent amount from his existing inventory, a description (type, grade), the location of the tea offered for sale, and the brokers and/or dealers through whom the offer is being made.

(iii) In the event of sale, he shall forward a report, by letter or telegram, on such sale, within 24 hours thereafter, to the War Production Board, stating the name of the purchaser and the date of sale.

(iv) If, before any such offer for sale is accepted, the packer becomes entitled under paragraph (e–1) (1) above to accept delivery of a quantity of tea, the restrictions of paragraph (e–1) (2) may be considered removed as to the quantity he is so entitled to accept, provided he forwards notice thereof, by letter or telegram, to the War Production Board within 24 hours after he becomes entitled to accept delivery.

3. A new paragraph, numbered (p) and reading as follows, is added:

(p) Every importer, every packer, and every wholesale receiver shall immediately set aside, for the requirements of government agencies, his entire inventory of green tea which is not packed in containers of one-fourth of one pound or less or in tea bags or tea balls. Without regard to existing contracts, all tea set aside shall, unless and until released, be held for allocation to any government agency by the Director General for Operations. On or before September 25, 1942, every person required to set aside green tea shall report to the War Production Board, by letter, the types, quantities (by chests and chest weights), and locations of the tea required to be set aside.

(P.D. Reg. 1, as amended, 6 F.R. 6580; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Chapter XI—Office of Price Administration

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Maximum Price Regulation 220]

CERTAIN RUBBER COMMODITIES

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable, will effectuate the purposes of the Emergency Price Control Act of 1942 and are necessary to adjust the provisions of the General Maximum Price Regulation [1] to the particular circumstances of manufacturers of rubber commodities. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1 [2] issued by the Office of Price Administration, Maximum Price Regulation No. 220 is hereby issued.

AUTHORITY: §§ 1315.1551 to 1315.1566, inclusive issued under Pub. Law 421, 77th Cong.

§ 1315.1551 *Applicability of the General Maximum Price Regulation.* The provisions of §§ 1499.1 to 1499.3, inclusive, and §§ 1499.21 to 1499.23, inclusive, of the General Maximum Price Regulation shall not apply to sales or deliveries of rubber commodities (as defined in paragraph (a) (4) of § 1315.1564) by the manufacturers thereof. All other sections of the General Maximum Price Regulation, together with existing and subsequent supplementary regulations (including Supplementary Regulation No. 4 to the General Maximum Price Regulation) and amendments to such sections, shall apply to sales and deliveries by such manufacturers, and are hereby incorporated by reference into this Maximum Price Regulation No. 220.

§ 1315.1552 *Prohibition against dealing in rubber commodities above maximum prices.* (a) On and after September 19, 1942, regardless of any contract or other obligation (except as provided in paragraph (d) of this section):

(1) No manufacturer shall sell or deliver any rubber commodity at a price higher than the maximum price permitted by this Maximum Price Regulation No. 220; and

(2) No person in the course of trade or business shall buy or receive any such commodity from a manufacturer at a price higher than the maximum price permitted by this Maximum Price Regulation No. 220; *Provided,* That in the case of commodities for which a maximum price has been established under §§ 1315.1556 or 1315.1557 of this Maximum Price Regulation No. 220, if the purchaser shall receive from the seller a written affirmation that the seller has calculated the maximum price for the commodity in accordance with § 1315.1556 or § 1315.1557 and has filed a report with the Office of Price Administration and if in such case the purchaser shall have no knowledge of the maximum price and no cause to doubt the accuracy of the affirmation, and provided the price paid is not in excess of the maximum price as affirmed by the seller, the purchaser shall be deemed to have complied with this section.

(b) The provisions of paragraph (a) (2) of this section shall not be applicable to any war procurement agency or any contracting officer thereof, and any such contracting officer or any paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this Maximum Price Regulation No. 220 or by the Emergency Price Control Act of 1942.

(c) On and after September 19, 1942, no manufacturer shall sell, offer to sell, deliver or transfer any rubber commodity for which a maximum price must be determined under § 1315.1558 until he has complied with the reporting and waiting provisions thereof.

(d) Nothing in this Maximum Price Regulation No. 220 shall prevent the fulfilment of contracts entered into before September 19, 1942, for the sale of rubber commodities at prices not exceeding the maximum prices established by the General Maximum Price Regulation prior to September 19, 1942.

§ 1315.1553 *Maximum prices for rubber commodities delivered or offered for delivery during March 1942.* The maximum price for a sale by a manufacturer of any rubber commodity which is the same as a commodity which was delivered or offered for delivery in March 1942, by the manufacturer, shall be the highest price charged by the manufacturer, during March 1942 (as defined in paragraph (a) (1) of § 1315.1564) for the commodity.

§ 1315.1554 *Maximum prices for rubber commodities not delivered or offered for delivery during March 1942.* The maximum prices for a sale by a manufacturer of any rubber commodity which is not the same as a commodity which was delivered or offered for delivery by the manufacturer during March 1942, shall be the price determined by the first one of the four methods set forth in §§ 1315.1555, 1315.1556, 1315.1557 and 1315.1558 which applies to the commodity.

§ 1315.1555 *First pricing method: Minor changes.* The maximum price of any commodity differing from a commodity delivered or offered for delivery by the manufacturer during March, 1942, only by reason of minor changes in material, design, or construction which do not reduce cost of materials or prevent its offering fairly equivalent serviceability shall be the maximum price of the commodity delivered or offered for delivery during that period.

§ 1315.1556. *Second pricing method: Changes necessitated by shortages of materials or parts*—(a) *Maximum prices.* The maximum price of any commodity which cannot be priced under § 1315.1555 and which differs from a commodity delivered or offered for delivery by the manufacturer during March, 1942, only because of changes necessitated by shortages of materials or parts, shall be the maximum price of the commodity delivered or offered for delivery during that month, adjusted by adding or subtracting the increase or decrease in direct costs resulting from the changes. The seller must determine the maximum price of a commodity priced under this section before he first offers it for sale. Once the seller has determined his maximum price for a particular commodity under this section, that price is his maximum thereafter.

In calculating the direct costs for both the commodity delivered or offered for delivery during March, 1942, and the changed commodity the manufacturer shall follow the method for computation of direct costs set forth in paragraph (a) (1) of § 1315.1557.

(b) *Report of maximum prices.* Within five days after a purchaser first agrees to buy a commodity for which a maximum price must be determined under this section, or at any time prior thereto, the manufacturer shall report to the Office of Price Administration, Washington, D. C., the maximum price as computed by him. The report shall contain a description of the commodity delivered or offered for delivery during March, 1942, and of the commodity being priced under this section, a detailed explanation of the changes made (including any innovation in manufacturing process) and the reasons therefor and details of the computation of direct costs and of the maximum price. The manufacturer may not accept payment for the commodity until fifteen days have elapsed after the mailing of the report. Within this fifteen day period the price so reported shall be subject to adjustment by the Office of Price Administration. Subsequent to this fifteen day period, such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

§ 1315.1557 *Third pricing method: Other than minor changes or changes necessitated by shortages of materials or parts.* The maximum price of any commodity which cannot be priced under §§ 1315.1555 or 1315.1556 shall be the price derived by the use of the following formula: The maximum price shall be the sum total of direct costs and gross margin, determined as follows:

(a) *Maximum price for the first sale*—(1) *Computation of direct costs.* The direct costs of a commodity shall be the sum total of direct labor and direct materials costs. The direct labor costs shall be determined by multiplying the estimated number of hours of each type of labor required in the manufacture of the rubber commodity by the wage rates determined in accordance with subdivision (i) of this subparagraph (1). The direct materials costs shall be determined by multiplying the estimated quantity of each type of material required in the manufacture of the rubber commodity by the materials prices determined in accordance with subdivision (ii) of this subparagraph (1).

(i) *Wage rates.* The wage rates applicable to any commodity shall be the highest wage rates, in effect in the manufacturer's plant for any substantial portion of March, 1942, for each class of labor involved in the production of the commodity. If the manufacturer did not employ a given class of labor in March, 1942, he shall use the highest wage rate paid for any substantial portion of March, 1942, by the nearest employer operating under comparable conditions who employed that class of labor during that month.

(ii) *Materials prices.* The price of any materials used in the commodity being priced shall be the highest price charged during March, 1942, (as defined in paragraph (a) (1) of § 1315.1564) by the manufacturer's supplier; except that if the Office of Price Administration has established a lower maximum price for the sale of that material to the manufacturer by his supplier, such lower price shall govern. If the material was not delivered or offered for delivery by the manufacturer's supplier during March, 1942, the material price shall be the first price at which the manufacturer's supplier offered to sell the material to a purchaser of the same class as the manufacturer after March 31, 1942, or the maximum price for the material established by the Office of Price Administration, whichever is the lower. The manufacturer's supplier shall be (*a*) his March, 1942, supplier of the material, or (*b*) lacking a March, 1942, supplier of the material, his most recent supplier of the material. If neither of these exists; it shall be his potential supplier. For the purposes of this subdivision (ii) if the manufacturer shall receive a written affirmation from the seller that the material is being sold at a price which is not in excess of the maximum price established by the Office of Price Administration, and if the manufacturer shall have no cause to doubt the accuracy of the affirmation, and if, as of the time of his determination of the price of a commodity, the maximum price of which is established by this section, the manufacturer shall have no reason to believe that the selling price of the material is in excess of the maximum price established by the Office of Price Administration, the price as affirmed by the seller shall be deemed to be the maximum price established by the Office of Price Administration for that material.

(2) *Computation of gross margin.* The "gross margin", which means the difference, expressed in dollars and cents, between the net selling price and the total direct costs, shall include only items (such as factory overhead, depreciation, commercial expense, transportation and warehouse expense, and margin of profit) that would have been used by the manufacturer in calculating the selling price for the commodity in question to a purchaser of the same class during March, 1942. The bases and rates used in the calculation of the gross margin shall be selected from the following bases and rates as provided in subdivision (iv).

(i) The bases and predetermined rates the manufacturer used during March, 1942, for the calculation of indirect costs and profit margin for a commodity having the same use as the commodity being priced. (For example, two raincoats have the same use even if made of different materials and in different styles.)

(ii) The bases and predetermined rates the manufacturer used during March, 1942, for the calculation of indirect costs and profit margin for a commodity manufactured by the same processes as the commodity being priced. (For example, two fabrics which are coated with rubber by passing through a spreader are manufactured by the same process.)

(iii) The bases and predetermined rates the manufacturer used during March, 1942, for the calculation of indirect costs and profit margin for a commodity, the total direct costs of which are the nearest to the direct costs of the commodity being priced.

(iv) In order to determine the commodity to be used in establishing the bases and rates which the manufacturer must use in calculating the gross margin of the commodity being priced, the manufacturer shall apply subdivisions (i) through (iii) of this subparagraph as follows:

(*a*) If only one commodity meets the requirements of subdivision (i), that commodity shall be used.

(*b*) If two or more commodities meet the requirements of subdivision (i), the manufacturer shall test those commodities by subdivision (ii). If only one of those commodities meets the requirements of subdivision (ii), that commodity shall be used.

(*c*) If more than one of those commodities meet the requirements of subdivision (ii), the manufacturer shall use that one of those commodities which is shown by the application of subdivision (iii) to have total direct costs nearest to the direct costs of the commodity being priced.

(*d*) If two or more commodities meet the requirements of subdivision (i) but none of those commodities meets the requirements of subdivision (ii), the manufacturer shall use that one of those commodities which is shown by the application of subdivision (iii) to have total direct costs nearest to the direct costs of the commodity being priced.

(*e*) If no commodity meets the requirements of subdivision (i) and only one commodity meets the requirements of subdivision (ii), that commodity shall be used.

(*f*) If no commodity meets the requirements of subdivision (i) and two or more commodities meet the requirements of subdivision (ii), the manufacturer shall use that one of those commodities which is shown by the application of subdivision (iii) to have total direct costs nearest to the direct costs of the commodity being priced.

(*g*) If no commodity meets the requirements of subdivision (i) or (ii), the manufacturer shall use that commodity which is shown by the application of subdivision (iii) to have total direct costs nearest to the direct costs of the commodity being priced.

(v) When used in this subparagraph (2) "predetermined rates" means gross margin rates in effect on March 1, 1942, at the estimated volume of production for the month of March, 1942, and "indirect costs" means all costs other than direct costs.

(b) *Maximum price for the second or subsequent sale of a rubber commodity, which is not a standard list item.* If a manufacturer makes a second sale of a rubber commodity, the maximum price of which has been determined pursuant to the provisions of paragraph (a) of this section, the maximum price for the second sale of such commodity shall be determined in accordance with the provisions of paragraph (a) of this section, except that actual labor hours and actual quantity of materials used in the production of the first order of the commodity, adjusted for changes in technique and anticipated volume, shall be used in such determination. The maximum price determined for a second sale of a commodity under this paragraph shall be the maximum price for subsequent sales of that commodity.

(c) *Maximum price for standard list items.* If a rubber commodity, the maximum price of which has already been established by paragraph (a) of this section, is offered for sale as a standard list item, the maximum price shall be recomputed according to the provisions of paragraph (a) of this section, except that actual labor hours and actual quantity of materials used in the production of the first order of the commodity, adjusted for changes in technique and anticipated volume, shall be substituted for estimated labor hours and estimated quantity of materials used. This adjustment in the maximum price of the commodity shall be made within sixty days after the manufacturer begins the production of such commodity as a standard list item.

(d) *Reports of maximum prices.* Within five days after a purchaser first agrees to buy a commodity for which a maximum price must be determined under paragraph (a), (b), or (c) of this section, or at any time prior thereto, the manufacturer shall report to the Office of Price Administration, Washington, D. C., the maximum price as computed by him. The report shall contain a full description of the commodity being priced and of any innovation in manufacturing processes involved and a detailed explanation of the computation of the direct costs and the maximum

price. It shall also contain a description of the commodity which determines the bases and rates used in the calculation of the gross margin of the commodity being priced and the maximum price, direct costs and an explanation of the reasons for the selection of that commodity. The manufacturer may not accept payment for the commodity until fifteen days have elapsed after the mailing of the report. Within this fifteen day period the price so reported shall be subject to adjustment by the Office of Price Administration. Subsequent to this fifteen day period, such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

§ 1315.1558 *Fourth pricing method; Specific authorization by the Office of Price Administration* — (a) *Maximum prices.* The maximum price for any commodity which cannot be priced under §§ 1315.1555, 1315.1556 or 1315.1557 shall be the price, in line with the level of maximum prices established by this Maximum Price Regulation No. 220, specifically authorized by the Office of Price Administration.

(b) *Reports of maximum prices.* Prior to first offering the commodity for sale, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., a report applying for specific authorization of a maximum price. The report shall contain a description in detail of the commodity (including the manufacturing process), a statement of the facts which make it necessary to price the commodity under this section, and the proposed maximum price with a detailed explanation of its computation. Upon receipt of the authorization, the manufacturer may offer the commodity for sale in accordance with the terms of the authorization.

§ 1315.1559 *Price differentials.* No manufacturer shall change the allowances, discounts, or other price differentials he had in effect during March, 1942, for those types of rubber commodities which he delivered or offered for delivery during that month, unless such change results in a lower price. Every manufacturer, in computing the maximum prices for sales to different classes of purchasers, of commodities the maximum prices of which are determined under §§ 1315.1555, 1315.1556 or 1315.1557, shall adjust the amount established as the maximum price for one general class of purchaser to reflect all allowances, discounts, and other price differentials which he had in effect during March, 1942, for the commodity used as a basis for determining the maximum price of the commodity being priced.

§ 1315.1560 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 220 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, a rubber commodity, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1315.1561 *Application for adjustment, and petition for amendment*—(a) *Application for adjustment.* (1) The Office of Price Administration, or any duly authorized officer thereof, may by order adjust the maximum price established under this Maximum Price Regulation No. 220 in any case in which the seller shows:

(i) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of the same or similar commodities; and

(ii) That establishing for him a maximum price bearing a normal relation to the maximum prices established for competitive sellers of the same or similar commodities, will not cause or threaten to cause an increase in the level of retail prices.

Applications for adjustment under this subparagraph (1) shall be filed in accordance with Procedural Regulation No. 1.

(2) Any person seeking relief, for which no provision is made in the foregoing subparagraph (1) of this section, from a maximum price established under this Maximum Price Regulation No. 220 may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1 and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant together with a statement of reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 220 to eliminate the danger of inflation.

(b) *Petitions for amendment.* Any person seeking a modification of any provisions of this Maximum Price Regulation No. 220 (other than an adjustment provided by paragraph (a)) may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1315.1562 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 220 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 220 or any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest field, district, state or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1315.1563 *Effect of other price regulations.* (a) This Maximum Price Regulation No. 220 shall not apply to any sale or delivery of rubber commodities for which a maximum price is in effect at the time of such sale or delivery under the provisions of any other price regulation issued, or which may be issued, by the Office of Price Administration. The General Maximum Price Regulation shall not apply to sales or deliveries of rubber commodities (as defined in paragraph (a) (4) of § 1315.1564), except as provided in § 1315.1551 and paragraph (d) o § 1315.1552.

(b) Specifically, but not exclusively, this Maximum Price Regulation No. 220 is not applicable to sales or deliveries of commodities, the maximum prices of which are established by Revised Price Schedule No. 56 [3]—Reclaimed Rubber; Revised Price Schedule No. 63 [4]—Retail Prices for New Rubber Tires and Tubes; Revised Price Schedule No. 66 [5]—Retreaded and Recapped Rubber Tires, the Retreading and Recapping of Rubber Tires, and Basic Tire Carcasses; Revised Price Schedule No. 87, as Amended [6]—Scrap Rubber; Maximum Price Regulation No. 107 [7]—Used Tires and Tubes; Maximum Price Regulation No. 119 [8]—Original Equipment Tires and Tubes; Maximum Price Regulation No. 131 [9]—Camelback; Maximum Price Regulation No. 132 [10]—Waterproof Rubber Footwear; Maximum Price Regulation No. 143 [11]—Wholesale Prices for New Rubber Tires and Tubes; Maximum Price Regulation No. 149 [12]—Mechanical Rubber Goods; Maximum Price Regulation No. 157 [13]—Sales and Fabrication of Textiles, Apparel and Related Items for Military Purposes; Maximum Price Regulation No. 188 [14]—Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel; and Maximum Price Regulation No. 200 [15]—Rubber Heels, Attached Rubber Heels and The Attaching of Rubber Heels.

§ 1315.1564. *Definitions.* (a) When used in this Maximum Price Regulation No. 220, the term:

(1) "Highest price charged during March, 1942", means:

(i) The highest price which the seller charged to a purchaser of the same class for delivery of the commodity during March, 1942,

(ii) If the seller made no such delivery during March, 1942, such seller's highest offering price to a purchaser of the same class for delivery during that month,

(iii) If the seller made no such delivery and had no such offering price to a purchaser of the same class, the highest price charged by the seller during March, 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers.

(2) "Manufacturer" means any person engaged in the production of a rubber commodity.

(3) "Purchaser of the same class" and "class of purchaser" refer to the practice adopted by the seller in setting different prices for commodities for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(4) "Rubber commodity" means reclaimed rubber and any commodity made in whole or in part of rubber (except airplane tires and tubes, heels, soles and drug sundries) the maximum price for which would be established by the General Maximum Price Regulation in the absence of this Maximum Price Regulation No. 220.

(5) "Rubber" means all forms and types of rubber, including synthetic, reclaimed and balata rubber.

(6) "Standard list item" means an article, the maximum price of which is listed in a schedule or price list of the manufacturer or which is offered for sale by the manufacturer at the same price to any member at a particular class of purchasers.

(7) "Synthetic rubber" means rubber of the butadiene-styrene copolymer, perbunan, neoprene, and butyl types and any other rubber-like substance which is capable of being vulcanized.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1315.1565 *Geographical applicability.* The provisions of this Maximum Price Regulation No. 220 shall be applicable to the forty-eight states and the District of Columbia, but not to the territories and possessions of the United States.

§ 1315.1566 *Effective date.* This Maximum Price Regulation No. 220 (§§ 1315.1551 to 1315.1566, inclusive) shall become effective September 19, 1942, for all sales and deliveries except sales and deliveries to the United States or any agency thereof, or to the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States," or any agency of any such government. For such sales and deliveries it shall become effective October 10, 1942.

PART 1381—SOFTWOOD LUMBER

[Amendment 6 to Maximum Price Regulation 26 [1]]

DOUGLAS FIR AND OTHER WEST COAST LUMBER

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1381.62 (g) is amended to read as set forth below:

§ 1381.62 *Appendix A: Maximum prices for Douglas fir and other West Coast lumber where shipment originates at a mill.* * * *

(g) (1) The maximum price for grades and classes of lumber recognized by the West Coast Lumbermen's Association Standard Grading and Dressing rules dated April 1, 1942, and by the Export Grading Rules (commonly called N List) issued by the Pacific Lumber Inspection Bureau dated 1929, for which no maximum price is established in paragraphs (a) and (b) of this section, shall be a price computed in the following manner:

(i) For the select grades (D and better grades) the seller shall determine the difference in the price which he received for the item to be priced and the price which he received for 1 x 4 V. G. B and better R/L dry flooring during the first month prior to October 1, 1941, in which sales of both items were made, and after determining this difference, he shall add or deduct, as the case may be, this difference to or from the maximum price of the 1 x 4 V. G. B and better R/L dry flooring established in paragraph (a) of this section.

(ii) For grades other than select grades the seller shall determine the difference in the price which he received for the item to be priced and the price which he received for 2 x 4—16 No. 1 Dimension, S4S, dry, during the first month prior to October 1, 1941, in which sales of both items were made and shall add or deduct, as the case may be, this difference to or from the maximum price of 2 x 4—16 No. 1 Dimension, S4S, dry established in paragraph (a) of this section.

The tentative maximum price obtained by application of the appropriate method shall be submitted to the Lumber Branch of the Office of Price Administration in Washington, D. C., within 10 days of the use of such price together with certified copies of the invoices of the sales which were used to determine the maximum price. If within 30 days after receipt of the request for approval, the Office of Price Administration does not adjust or require further justification of such maximum price, the price shall be considered approved and shall thereafter be the maximum price for that seller. Pending such approval, the seller may deliver the lumber and receive payment therefor, subject to the condition that a refund will be made if the price is in excess of that finally approved by the Office of Price Administration.

(2) No addition may be made for workings, specifications, services, or extras not expressly provided for in § 1381.62: *Provided,* That the seller may apply to the Lumber Branch of the Office of Price Administration in Washington, D. C., for approval of additions for workings, specifications, services or other extras not provided for. In such application the seller shall describe in detail the workings, specifications, services or other extras not provided for together with a statement showing how the addition requested was determined and that the proposed addition was regularly made immediately prior to October 1, 1941, for the particular or similar working, specification, service or extra together with a certified copy of order or invoice of a representative sale on which such an addition or similar addition was made. Pending approval of such addition, the seller may quote and deliver at a price which is agreed by the parties to be subject to adjustment to the price approved by the Office of Price Administration, but the seller may not accept payment and the purchaser may not make payment until approval of such addition in writing has been received.

§ 1381.61a *Effective dates of amendments.* * * *

(f) Amendment No. 6 (§ 1381.62 (g)) to Maximum Price Regulation No. 26 shall become effective September 19, 1942.

PART 1381—SOFTWOOD LUMBER

NORTHEASTERN SOFTWOOD LUMBER

[Maximum Price Regulation 219]

In the judgment of the Price Administrator it is necessary and proper to establish specific maximum prices for the sale of Northeastern softwood lumber. The Price Administrator has ascertained and given due consideration to the prices of

these items and species prevailing between October 1 and October 15, 1941. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 219 is hereby issued.

AUTHORITY: §§ 1381.301 to 1381.317, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1381.301 *Maximum prices for Northeastern softwood lumber.* (a) On and after September 19, 1942, regardless of any contract or other obligation, no person shall sell or deliver any Northeastern softwood lumber, where shipment originates at the mill rather than at a distribution yard, and no person shall buy or receive in the course of trade or business any Northeastern softwood lumber so shipped at prices higher than the maximum prices set forth in Appendices A, B, and C hereof, incorporated herein as §§ 1381.315, 1381.316, and 1381.317, respectively; and no person subject to this Maximum Price Regulation No. 219 shall agree, offer, solicit, or attempt to do any of the foregoing.

(b) The maximum prices set forth in §§ 1381.315 and 1381.316 shall not be applicable to "direct-mill retail sales" as defined in subparagraph (9) of paragraph (a) of § 1381.308.

§ 1381.302 *Less than maximum prices.* Lower prices than those provided in this Maximum Price Regulation No. 219 may be charged, demanded, paid or offered.

§ 1381.303 *Conditional agreements.* No seller subject to this Maximum Price Regulation No. 219 shall enter into an agreement permitting the adjustment of the price of Northeastern softwood lumber to prices which may be higher than the maximum prices in effect upon the date of the agreement: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 971, 3663, 6967.

§ 1381.304 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 219 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to Northeastern softwood lumber, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Unnecessarily routing lumber through a distribution yard, whether wholesale or retail;

(2) Making charges for delivery which exceed the actual cost to the seller of such delivery except as otherwise provided in § 1381.309;

(3) Falsely or wrongly grading or invoicing lumber;

(4) Grading as a special grade lumber which can be graded as a standard grade;

(5) Selling as specified lengths a shipment of lumber which is substantially equivalent to standard or random lengths, or reselling as specified lengths a shipment purchased by the seller as standard or random lengths;

(6) Refusing to sell except on a delivered or loaded basis;

(7) Quoting a delivered price on the basis of estimated weights which exceed the weights for the appropriate species set forth in §§ 1381.315 and 1381.316;

(8) Unreasonably refusing to ship an item of lumber except in a small quantity which entitles the seller to a premium.

(c) The maximum prices established in this Maximum Price Regulation No. 219 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for payment, and shall be decreased for prompt payment to the same extent that the price would have been decreased on October 1, 1941.

§ 1381.305 *Records and reports.* (a) On and after September 19, 1942, every person who, during any calendar month, offers or agrees to sell, sells, or delivers, or offers or agrees to buy, buys or receives a total of 34,000 pounds or more of Northeastern softwood lumber in the course of trade or business, shall keep for inspection by the Office of Price Administration for a period of not less than two years, a complete and accurate record of every offer, agreement of sale, purchase, sale or delivery of Northeastern softwood lumber made by him, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity, size, grade, specifications and condition of seasoning of the lumber in each transaction.

(b) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1381.306 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 219 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 219 or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest District, State, or Regional office of the Office of Price Administration or its principal office in Washington, D. C.

(c) No war procurement agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 219 or the Emergency Price Control Act of 1942.

§ 1381.307 *Petition for adjustment or amendment.* (a) Government contracts or subcontracts. Any person who has entered into or proposes to enter into a contract with the United States or any agency thereof, or with the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States", or any agency of any such Government, or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of an item or items of Northeastern softwood lumber essential to the war program and which is or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum prices established by this Maximum Price Regulation No. 219 in accordance with Procedural Regulation No. 6,[2] issued by the Office of Price Administration.

(b) Persons seeking any modification of this Maximum Price Regulation No. 219, or any adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1381.308 *Definitions.* (a) This Maximum Price Regulation No. 219 and the terms appearing therein, unless the context otherwise requires, shall be construed as follows:

[2] 7 F.R. 5087.

(2) "Northeastern softwood lumber", means the following softwood lumber produced in the States of Maine, New Hampshire, Vermont, Connecticut, Rhode Island and Massachusetts: Northeastern white pine (Pinus Strobus), Northeastern Norway pine (Pinus Resinosa), Northeastern hemlock (Tsuga Canadensis), Northeastern red spruce (Picea Rubens), Northeastern black spruce (Picea Mariana) and Northeastern white spruce (Picea Canadensis).

(3) "Round edge lumber" means Northeastern white pine lumber which is sawn or processed by sawing two sides without sawing or otherwise processing edges.

(4) "Square edge lumber" means Northeastern white pine lumber (Pinus Strobus) which is sawn or processed square on four sides.

(5) "Mill" means any establishment:

(i) Which processes into the items of lumber covered by this Maximum Price Regulation No. 219 by sawing or planing, or ships to milling-in-transit operations for such processing by sawing, planing, or kiln drying, at least 25 percent of the volume of Northeastern softwood lumber or logs purchased or received by it or

(ii) Which resembles the following described establishment more nearly than that described under the definition of "distribution yard" in subparagraph (6) (ii) of this section: An establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock primarily Northeastern softwood lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail shipment, and which has been located at its particular site in order to be near the lumber producing area.

(6) "Distribution yard" means an establishment:

(i) Which processes into the items of lumber covered by this Maximum Price Regulation No. 219 by sawing or planing, or ships to milling-in-transit operations for such processing by sawing, planing, or kiln drying, less than 25 percent of the volume of Northeastern softwood lumber purchased or received by it; and

(ii) Which resembles the following described establishment more nearly than that described under the definition of "mill" in subparagraph (5) (ii) of this section: A wholesale or retail lumber yard which purchases or receives lumber from a mill or another distribution yard for purposes of unloading, sorting, and resale or redistribution, which regularly maintains a miscellaneous stock of lumber from different regions, which obtains its lumber primarily by rail shipment and sells primarily for truck shipment, which is equipped to make quick deliveries of many different items of lumber, and which has been located at its particular site primarily in order to be near a lumber consuming area.

(7) A shipment is deemed to "originate at a mill" when the lumber reaches the purchaser without having been stored as an integral part of the yard stock of a distribution yard as defined in subparagraph (6) of this section.

(8) A shipment is deemed to "originate at a distribution yard", whether wholesale or retail, when, and only when, the shipment is made out of a stock of lumber which was an integral part of the seller's distribution yard stock at the time the sale was made.

(9) "Direct-mill retail sale", for the purpose of determining whether the sale is exempt from the provisions of §§ 1381.315 and 1381.316 means a sale which satisfies all of the following tests:

(i) It must be a sale of not more than 2,000 feet of lumber;

(ii) It must be a sale in which the purchaser requests delivery to a point not more than 20 miles from the mill at which shipment originates;

(iii) It must be a sale of lumber to a contractor or consumer for use in construction, remodeling, repair, maintenance, fabrication, or remanufacture, and not for resale in substantially the same form.

(10) Unless otherwise specified, grade terms used herein have the meanings set forth in "Standard Grading Rules for Northern White Pine and Norway Pine" (Northeastern Type), published by the Northeastern Lumber Manufacturers Association, Inc., effective January 1, 1937.

(11) "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission, the War Shipping Administration, the Office of Scientific Research and Development and the Lend-Lease Section of the Procurement Division of the Treasury Department, or any agency of the foregoing.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to terms used but not defined herein.

§ 1381.309 *Transportation charges.* (a) A delivered price in excess of the maximum f. o. b. mill prices set forth in the appropriate Appendix to this Maximum Price Regulation No. 219 may be charged, consisting of such maximum prices plus the transportation charges permitted by this section: *Provided*, That (1) the invoice shows the point of origin of the shipment, the destination, and the applicable railroad or truck rate, or, in place of such rate, where shipment is by motor vehicle owned or controlled by the seller, the amount added for transportation; and (2) the invoice is marked "direct mill shipment".

(b) Where shipment is exclusively by motor vehicle owned or controlled by the seller, the charge may be no greater than the actual cost to the seller of delivery by motor vehicle; and in no event shall the charge exceed the railroad charge at the carload rate for the most nearly comparable haul. If the actual cost is less than such railroad charge, only the actual cost may be added to the maximum price.

(c) Where shipment is by common or contract carrier, the amount added for transportation may be no greater than the actual amount paid to the carrier, except as provided in paragraph (d) of this section: *Provided*, That where shipment is by both rail and truck (either owned or controlled by the seller or a common or contract carrier), the following shall govern:

(1) Where shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of truck delivery, provided such cost is shown separately on the invoice.

(2) Where a truck haul precedes the rail shipment, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for such truck haul (except as otherwise provided in § 1381.315 for loading on trucks): *Provided, however*, That the seller may apply to the Lumber Branch of the Office of Price Administration for an exception if the seller can demonstrate that a separate and identifiable charge for the truck haul was customarily made by the seller during the year 1941.

(d) In computing transportation costs, the following practices are not to be deemed in violation of this Maximum Price Regulation No. 219:

(1) The computation of transportation costs on the basis of the applicable freight rate and the appropriate system of estimated weights set forth in the appendices to this Maximum Price Regulation No. 219: *Provided*, That in applying the estimated weights, the seller must use estimated weights which are appropriate for lumber in the condition (including moisture content and extent of processing) in which the lumber subject to this Maximum Price Regulation No. 219 is shipped; and

(2) The charging of a sum equivalent to the one-quarter of a dollar nearest to the transportation costs per 1,000 feet of lumber computed in accordance with subparagraph (1) of paragraph (d).

§ 1381.310 *Grades, workings, specifications, services or extras for which no specific price is established.* (a) No addition may be made for grades, workings, specifications, services, or extras not expressly provided for herein: *Provided*, That the seller may apply to the Lumber Branch of the Office of Price Administration in Washington, D. C. for approval of additions for grades, workings, specifications, services or extras not provided for. In such application the seller shall describe in detail the grades, workings, specifications, services or extras not provided for together with a statement showing how the addition requested was determined and whether or not the proposed addition was regularly made immediately prior to October 1, 1941 for the particular similar grade, working, speci-

fication, service or extra. Pending approval of such charges, the seller may quote and deliver at a price to be approved by the Office of Price Administration, but the seller may not accept payment and the purchaser may not make payment until such approval has been granted.

(b) Where Northeastern softwood lumber is sold on a combination grade for which no specific maximum price has been established in this Maximum Price Regulation No. 219, the maximum price shall be the maximum price of the lowest grade in this combination: *Provided, however*, That the seller may grade and ship the lumber on the standard grades included in such combination grades if he invoices the footage in each of the standard grades at a price not to exceed the maximum price established in this Maximum Price Regulation No. 219 for the respective standard grades.

§ 1381.311 *Applicability of General Maximum Price Regulation.* The provisions of the General Maximum Price Regulation [1] shall not apply to sales and deliveries of Northeastern softwood lumber subject to this Maximum Price Regulation No. 219 except as provided in § 1381.316.

§ 1381.312 *Licensing.* The provisions of Supplementary Order No. 18 (§ 1305.22) licensing persons selling lumber, lumber products or building materials, are applicable to every person (except mills, manufacturers or producers) making sales of Redwood lumber or millwork for which maximum prices are established by this Maximum Price Regulation No. 219.

§ 1381.313 *Export sales.* (a) The maximum price at which a person may export Northeastern softwood lumber shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation,[2] issued by the Office of Price Administration.

(b) On F. A. S. sales to Lend-Lease Administration, British Purchasing Commission, British Air Commission, and other government agencies or their contractors, an addition of $3.50 per M feet may be made for marking, bundling, assembling, switching, unloading, tallying, dock insurance and other services necessary to the proper dispatch of off-shore cargo of lumber.

FIKE COAL CO. MINE

ORDER DISMISSING ORIGINAL PETITION

In the matter of the petition of Loe P. Fike, Code Member producer in District No. 1, for additional shipping point for Fike Coal Company Mine (Mine Index No. 606), pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

On April 1, 1942, Loe P. Fike, a code member in District No. 1, filed an original petition with the Bituminous Coal Division requesting an additional shipping point for his Fike Coal Company Mine (Mine Index No. 606), which was assigned Docket No. A-1391.

This petition failed to comply with Part 301 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

By letter dated May 11, 1942, the petitioner was advised that his petition was not in proper form to be considered as a 4 II (d) petition and that no action would be taken regarding it until certain specified deficiencies were corrected.

No amended petition has been filed with the Division by petitioner and no communication has been received by the Division in response to the letter of May 11, 1942.

It therefore appears that a reasonable time for the filing of an amended petition has elapsed and that petitioner has no further interest in this proceeding.

Now, therefore, it is ordered, That the original petition in this matter be dismissed without prejudice to the right of the petitioner to file another petition with the Division in regard to the same matter pursuant to the Rules and Regulations of the Division established in connection with section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: September 12, 1942.

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or the Presiding Officer as are deemed appropriate:

(1) The hearings shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York, New York.

(2) In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. SECURITIES AND EXCHANGE COMMISSION.

SUPERIOR INVESTMENT CO.

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 11th day of September, A. D. 1942.

In the matter of Superior Investment Co., 9 South Kedzie Avenue, Chicago, Illinois.

1. Superior Investment Company, an Illinois Corporation hereinafter called registrant, is registered with this Commission as a broker and dealer under section 15 (b) of the Securities Exchange Act of 1934.

2. On June 25, 1942, we instituted proceedings under section 15 (b) of said Act to determine whether registrant's registration as a broker and dealer should be suspended or revoked. The order for proceedings stated that information had been reported to the Commission by its staff, which, if true, tended to show that registrant had wilfully violated the antifraud provisions of section 17 (a) of the Securities Act of 1933, and sections 8 (b), 15 (c) (1) and 17 (a) of the Securities Exchange Act of 1934, and the Commission's Rules X-15C1-2 (a) and (b) and X-17A-3 promulgated pursuant thereto. The information reported to the Commission was to the effect that:

a. During the period from about June 1, 1935 to date, registrant had been engaged in business as a broker and dealer and since February 29, 1940, or thereabout had transacted a business in securities through the medium of a member of a national securities exchange and otherwise.

b. On November 5, 1941, and prior thereto, registrant had no net capital employed in its business and at the same time, in the ordinary course of its business as a broker, owed substantial sums to various customers and banks.

c. During the period from approximately July 1, 1941 to approximately May 1, 1942, registrant, while engaged in effecting transactions of purchase and sale of securities for or with customers, failed to disclose to such customers that, in order to secure registration as a dealer in securities in the State of Illinois, it submitted to the Secretary of State of that state on or about July 1, 1941 a balance sheet as of May 31, 1941, purporting to reflect registrant's financial condition, which balance sheet was materially false and misleading.

d. During the period from approximately January 1, 1941 to approximately

December 20, 1941, registrant did not make or keep current certain books and records, including, among others:

(1) Blotters or other records of original entry containing itemized daily records of purchases and sales of securities and receipts and deliveries of securities;

(2) Ledgers or other records reflecting all assests and liabilities, income and expense and capital accounts;

(3) Ledger accounts or other records itemizing separately as to each cash and margin account of every customer all purchases, sales, receipts and deliveries of securities for such account and all other debits and credits to such account;

(4) A securities record or ledger reflecting separately for each security as of the clearance dates all "long" or "short" positions (including securities in safekeeping) carried by registrant for its account or for the account of its customers and showing the location of all securities long and the offsetting position to all securities short and in all cases the name or designation of the account in which each position is carried.

e. Registrant used the mails and the instruments of interstate commerce in affecting certain of the transactions described above.

3. On August 12, 1942, registrant submitted to the trial examiner an "answer and consent" to revocation, in which it acknowledges receipt and service of adequate notice of this proceeding and waives opportunity for hearing.

In said "answer and consent" registrant further admits and acknowledges, for the purpose of this proceeding, and for that purpose only, the existence of the facts set forth in the Commission's order for proceedings. Registrant also consents to the entry or an order, revoking its registration as an over-the-counter broker and dealer.

4. We find that the facts set forth in the order for proceedings, as noted above, are true and that registrant has wilfully violated section 17 (a) of the Securities Act of 1933 and sections 8 (b), 15 (c) (1) and 17 (a) of the Securities Exchange Act of 1934 and Rules X-15C1-2 (a) and (b) and X-17A-3 of the rules and regulations thereunder and that the public interest requires revocation of its registration.

Accordingly, it is ordered, pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of the Superior Investment Company be, and it hereby is, revoked.

[SEAL] ORVAL L. DUBOIS,
Secretary.

WAR MANPOWER COMMISSION.

[Directive No. X]

DIRECTIVE WITH RESPECT TO TRANSFER AND RELEASE OF GOVERNMENT EMPLOYEES

To all departments and agencies of the executive branch of the Federal Government, concerning transfer and release of Federal employees.

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139 establishing the War Manpower Commission,[1] and by Executive Order No. 9243,[2] and having found, after consultation with the members of the War Manpower Commission, that the measures hereinafter set forth will facilitate the filling of the Federal Government's requirements for manpower in the civilian service, and promote the proper allocation and the effective mobilization and utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. Whenever the Civil Service Commission shall find that a civilian employee of any department or agency of the executive branch of the Federal Government can make a more effective contribution to the war effort in a position in some other such department or agency, the Commission, with or without the consent of the employee or of the department or agency in which he is employed or to which he is transferred, shall direct the transfer of such employee to such position.

II. Whenever the Civil Service Commission shall find that a civilian employee of any department or agency of the executive branch of the Federal Government is qualified to perform work in a critical war occupation (as defined in the Essential Activities and Essential Occupations Directive) and can make a more effective contribution to the war effort in an essential activity carried on by a private enterprise, the Commission, with the consent of the employee, but with or without the consent of the department or agency in which he is employed, shall, upon request of such private enterprise, authorize the release of such employee to such private enterprise for work in such critical war occupation in such essential activity. An employee whose release has been authorized pursuant to this paragraph shall be carried on a leave-without-pay basis from his Federal position for the period of such employment with a private enterprise, except that such leave-without-pay status shall not continue beyond six months after the end of the war.

III. The Civil Service Commission shall base its findings, pursuant to paragraphs I and II of this directive, upon:

(a) The extent to which the skills, abilities, training, and experience of the employee are required and will be utilized by the departments, agencies, activities or private enterprise concerned; and

(b) The relative importance to the war program of the government activities in which the employee has been employed and to which he will be transferred, as indicated by, among other considerations, priority classifications established by the Director of the Bureau of the Budget pursuant to Executive Order No. 9243; and

(c) The relative importance to the war program of the government activity in which the employee has been employed and of the private enterprise to which he will be transferred; as indicated by priority classifications established by the Director of the Bureau of the Budget pursuant to Executive Order No. 9243 and by such policies and directives as the Chairman of the War Manpower Commission may prescribe.

IV. Any employee of a department or agency of the executive branch of the Federal Government (other than an employee holding a temporary position) who has been transferred pursuant to paragraph I of this directive shall be entitled to thirty days' notice from the department or agency to which he has been transferred, prior to the termination of his services with such department or agency, unless such termination is for cause. Upon the termination, without prejudice, of the services of an employee (other than an employee transferred or released from a temporary position) in the position to which his transfer or release has been authorized or directed pursuant to paragraphs I or II of this directive (or in a position which, for the purposes of this directive, is substantially similar thereto) such employee shall be entitled to the reemployment benefits hereinbelow set forth, provided he makes application for reinstatement therein within forty days after the termination of his services with a department or agency of the Federal Government and, with respect to an employee released to a private enterprise, within forty days after the termination of his services with such an enterprise but in no event later than six months after the end of the war:

(a) Reinstatement, within thirty days of his application, in the same department or agency and to the maximum extent practicable, in the same locality, in his former position, or in a position of like seniority, status, and pay, in such manner, to the maximum extent consistent with law, that he does not lose any of the rights or benefits to which he would have been entitled had he not been transferred or released;

(b) If such a position, or if the agency or activity in which he was employed, is no longer in existence, and such person therefore cannot be reinstated, the placement of his name on the Reemployment List established pursuant to Executive Order No. 6924 of September 20, 1932, to be considered for certification to positions for which he is qualified elsewhere in the Government service. Certifications from such list shall be made by the Civil Service Commission prior to certifications from all other lists maintained by that Commission.

V. Any department or agency in which is employed an employee whose transfer or release is to be directed or authorized pursuant to this directive without the consent of such department or agency, shall be afforded, prior to such transfer or release, a fair opportunity to present to the Civil Service Commission evidence as to the extent to which such agency's or department's execution of its responsibilities will be jeopardized by the loss of such employee and as to the extent to which the employee's skills, abilities, training, and experience are being

[1] 7 F.R. 2919.
[2] 7 F.R. 7213.

and will be utilized in such department or agency.

VI. Any employee whose transfer is to be directed pursuant to this directive without the consent of such employee shall be afforded, prior to such transfer, a fair opportunity to present to the Civil Service Commission evidence that the proposed transfer is inequitable or will impose upon him an undue hardship. No employee shall, without his consent, be transferred to a position at a lower salary than he received at the time such transfer is directed, nor shall any employee, without his consent be transferred to a position beyond reasonable commuting distance from his home unless the department or agency concerned shall reimburse the employee for the cost of transporting himself, his immediate family, and his household goods, in accordance with Government regulations.

VII. Whenever the filling of any positions by promotion from within for an indefinite period is being considered by any department or agency, employees who have been transferred or released pursuant to this directive and are entitled to reemployment in such department or agency under this directive shall be given the same consideration they would have received had they not been transferred or released, and such employees may be selected for such promotion. In the event of such selection, if such employee is not authorized to return to the position to which promotion was made, the position in question shall be filled only for the duration of such employee's reemployment rights under paragraph IV of this directive and such reemployment rights shall be applicable to the position to which promotion was made.

VIII. No request for the transfer or release of any civilian employee in any department or agency of the executive branch of the Federal Government shall be made by another such department or agency except through the Civil Service Commission, and no civilian employee of any such department or agency shall be released for transfer to another such department or agency except upon request of the Civil Service Commission. The Commission shall not request or authorize the transfer of any such employee who can make a more effective contribution to the war effort in the position in which he is currently employed or whose transfer would be contrary to the most effective methods of filling the Federal Government's requirements for manpower in the civilian service or would conflict with policies or directives of the War Manpower Commission.

IX. The Civil Service Commission is authorized and directed to adopt such measures and take such action as may be necessary or appropriate to carry out the provisions of this directive and to insure that the reemployment provisions set forth in paragraph IV of this directive are given full force and effect.

X. This Directive shall become effective on and after September 27, 1942.

XI. This Directive may be cited as the "Directive with Respect to the Transfer and Release of Government employees."

PAUL V. MCNUTT,
Chairman.

ADMINISTRATION AND PERSONNEL

§ 2.2 *Personnel.* The farm machinery and equipment rationing program established in these regulations will be administered by the county rationing committees, the State boards, the Special War Board Assistant, and the Secretary of Agriculture.

§ 2.3 *Duties.* The county rationing committees, the State boards, and the Special War Board Assistant shall have the duties and responsibilities prescribed in these regulations and such further duties and responsibilities as the Secretary of Agriculture may assign.

COUNTY RATIONING COMMITTEE

§ 2.4 *Appointment and qualifications.* The county rationing committee shall consist of three regular members and two alternate members. One of the regular members shall be the chairman of the county agricultural conservation committee, who shall be chairman of the county rationing committee. The other two regular members and the two alternate members of the county rationing committee, who shall be farmers resident in the county, shall be appointed by the county U.S.D.A. war board, and none of such members shall be members of the county agricultural conservation committee. None of the members of the county rationing committee shall be dealers. If the chairman of the county agricultural conservation committee is a dealer, the county U.S.D.A. war board shall select, as a member and chairman of the county rationing committee, a regular or alternate member of the county agricultural conservation committee who is not a dealer.

§ 2.5 *Functioning of alternate members.* An alternate member of the county rationing committee shall serve in case of illness or other indisposition of a regular member. No member of a county rationing committee shall take part in any committee action on the application of himself, any member of his immediate family, or other near relative, or his landlord, tenant, or business associate. An alternate member of the committee, not so disqualified, shall serve in such cases only if the disinterested members of the committee do not agree on the action to be taken on the application.

EXEMPTIONS AND RESTRICTIONS

§ 2.6 *Exemptions.* The new farm machinery or equipment listed in Schedule II attached hereto and made a part hereof is exempt from the provisions of these regulations and the transfer of such new farm machinery and equipment is not restricted herein.

§ 2.7 *Restriction of transfers.* Regardless of the terms of any contract of sale or purchase, or other commitment, whenever made, no person shall transfer or accept a transfer of any new farm machinery and equipment, except as provided in these regulations.

(a) The word "transfer" is broadly defined by these regulations. For example, the term includes not only transfer by sale, lease, or trade of new farm machinery and equipment, but also by gift from one person to another. Placing new farm machinery and equipment in a garage or warehouse or letting a repairman take such farm machinery and equipment to his shop is not a transfer within the meaning of these regulations.

(b) There are certain specific exemptions from the broad definition of transfer: a delivery to a railroad or other carrier for shipment and delivery by such carrier to a consignee are not included. In this situation the transfer takes place between the consignor and the consignee.

(c) The term "transfer" does not include a technical transfer of title for security purposes without an accompanying transfer of use. Thus conditional sale contracts, bailments, leases, or chattel mortgages, for security purposes and without a transfer of use do not involve transfers.

§ 2.8 *Persons who have ordered new farm machinery and equipment prior to the effective date of these regulations.* Any person who has ordered new farm machinery and equipment included in Group A, prior to the effective date of this Temporary Rationing Order No. A, shall be entitled to receive a purchase certificate covering such machinery and equipment (without complying with the requirements of §§ 2.12 and 2.13), provided that such person submits to the county rationing committee evidence sufficient to satisfy the committee that such person ordered such new farm machinery and equipment prior to the effective date of this Temporary Rationing Order No. A. Any person who has ordered new farm machinery and equipment included in Group B, prior to the effective date of this Temporary Rationing Order No. A, may receive such machinery and equipment upon making the certification required by § 2.11 hereof. No transfer of new farm machinery and equipment made pursuant to this § 2.8 shall be valid unless delivery thereof is made to the purchaser before November 1, 1942.

PERSONS AUTHORIZED BY THE WAR PRODUCTION BOARD TO ACQUIRE NEW FARM MACHINERY AND EQUIPMENT

§ 2.9 *Military forces and certain Government agencies; exports.* The following persons are eligible to acquire new farm machinery and equipment without certification or purchase certificates:

(a) The Army, Navy, or Marine Corps of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, or the Office of Scientific Research and Developments.

(b) Any person who acquires new farm machinery and equipment for export to and consumption or use in any foreign country.

(c) The Department of Agriculture or any other Federal agency.

TRANSFERS WITHOUT CERTIFICATION OF PURCHASE CERTIFICATES

§ 2.10 *Persons eligible to acquire only for purposes of resale.* The following persons are eligible to acquire new farm machinery and equipment by transfer without certification or purchase certificates only for purposes of resale: dealers, distributors, or manufacturers, or their legal successors in interest (including but not limited to heirs, devisees, successors, assigns, trustees in bankruptcy, receivers, persons distraining, levying by execution, attachment, or similar forms of judicial process, or persons repossessing or taking by default).

PERSONS ELIGIBLE TO ACQUIRE NEW FARM MACHINERY AND EQUIPMENT BY TRANSFERS OF NEW FARM MACHINERY AND EQUIPMENT IN GROUP B

§ 2.11 *Acquisition of Group B new farm machinery and equipment.* Any farmer may acquire new farm machinery and equipment in Group B by certifying with the person from whom he purchases such new farm machinery and equipment that it is necessary to use such farm machinery and equipment during the remainder of the calendar year 1942. Such certification shall be in the form listed in Schedule III attached hereto, which form shall be filed with and retained by the dealer. No transfer on such a certification shall be valid if delivery is not made to the purchaser before November 1, 1942.

PERSONS ELIGIBLE TO ACQUIRE NEW FARM MACHINERY AND EQUIPMENT IN GROUP A

§ 2.12 *Proof of necessity.* (a) Only a farmer may obtain a purchase certificate for new farm machinery and equipment in Group A and only if he can establish all of the following facts:

(1) That the applicant's farm machinery and equipment, at the date of his application, are not adequate to handle his production, including increased or new production planned and needed as a contribution to the current agricultural need.

(2) That the applicant cannot meet his farm machinery and equipment needs by repairing his old machinery and equipment, by purchasing or renting used machinery and equipment, by custom work, by exchange of work or machinery and equipment, or by any other means;

(3) That the failure to approve the application would result in a substantial reduction in the production of crops or commodities essential in the war effort; and

(4) That the applicant, in his own farming operations, has such a need for the new farm machinery and equipment as to justify his acquisition of it and that it will be so used as to perform more than the average service for similar machinery and equipment in the community.

(b) The county rationing committee shall not issue a certificate under this section if one or more of the following conditions exist:

(1) The applicant is able to have repaired and made serviceable the machinery and equipment which he proposes to replace;

(2) The applicant refuses to turn in the machinery and equipment which he proposes to replace;

(3) The applicant has not named in his application a dealer from whom he can purchase the new farm machinery and equipment;

(4) The applicant wants to change from horsepower or mule-power to motor power and has not given a satisfactory reason for the change;

(5) The applicant wants to change from hand labor to machinery and has not given a satisfactory reason for the change; or

(6) The applicant refuses to agree to rent or let others use said new machinery and equipment on such terms and conditions as the county rationing committee may deem necessary to effect the purposes of these regulations.

APPLICATIONS BY PERSONS FOR NEW FARM MACHINERY AND EQUIPMENT IN GROUP A

§ 2.13 *Applications for certificates to purchase new farm machinery and equipment in Group A.* Any farmer who believes that he is entitled under these regulations to new farm machinery and equipment in Group A may file with the county rationing committee an application for a certificate to purchase such new farm machinery and equipment. Such application shall be filed on Form MR–1.

§ 2.14 *Preparation of application—*(a) *Forms.* Copies of Form MR–1 may be obtained from the county rationing committee or from any dealer who has acquired a supply from such committee.

(b) *Contents—*(1) *Name of applicant.* (i) An individual shall state in full his given name, middle name if any and surname. In all cases where an individual is doing business under a trade name, he shall state, in addition to his name, the trade name under which he is doing business; for example, John James Doe, doing business as the Doe Dairy Company. (ii) A partnership shall state the trade name regularly used by such partnership and the fact that it is a partnership; for example, Doe and Roe Dairy Company, a partnership. (iii) A corporation shall give its full name as it appears on its corporate charter and the State of incorporation; for example, Doe Dairy Company, an Ohio corporation. (iv) A State or any political subdivision thereof shall give its name; for example, State of Ohio or Village of Plainfield, Wisconsin. (v) A fiduciary shall state his own name, his official capacity, and the name of his principal; for example, John Doe, Trustee for Richard Roe.

(2) *Addresses and farm serial numbers.* (i) Any applicant shall state the

mailing address of his residence or principal place of business or office and the telephone number thereof, if any. (ii) Any applicant shall state the farm serial number (if any) then assigned to his farm under the Agricultural conservation program. (iii) If the new farm machinery and equipment applied for is to be operated on more than one farm, such farm serial numbers (if any) of all the farms upon which the new farm machinery and equipment is to be operated shall be listed.

(3) *Separate applications.* A separate application shall be filed for each type of new farm machinery and equipment.

(4) *Execution by applicant.* The applicant shall certify the facts stated in the application in the manner and form provided therefor. In executing the application (i) an individual shall sign his full name; (ii) a partnership shall set forth the full name of the partnership, followed by the legend "a partnership," following which a duly authorized member or agent of the partnership shall sign his name, giving his position; (iii) a corporation shall set forth the full name of the corporation as it appears on the charter, followed by the legend "a corporation," following which a duly authorized officer or agent of the corporation shall sign his name, giving his position, preceded by the word "by"; (iv) a State or political subdivision thereof shall set forth its name, followed by the signature of a duly authorized official or other representative, giving his position, preceded by the word "by"; and (v) a fiduciary shall sign his full name followed by his official capacity.

§ 2.15 *Action by the county rationing committee on applications.* Before granting an application for a certificate of purchase of new farm machinery and equipment in Group A, the county rationing committee shall satisfy itself that the applicant has properly executed his application, that all the facts stated in the application are true, and that the applicant has satisfied all the pertinent requirements and conditions specified by these regulations. If an application is for new farm machinery and equipment contained in Group B, the county rationing committee shall return such application to the applicant advising him that he may purchase such new farm machinery and equipment from a dealer by making a certification in accordance with § 2.11 hereof.

§ 2.16 *Basis for county rationing committee determination.* The county rationing committee shall at all times serve the objective sought by the new farm machinery and equipment rationing program and allocate new farm machinery and equipment only to uses essential to the war effort and then in the order that such uses are most vital. The determination of facts in each case shall be made by the county rationing committee upon the basis of the application and all other information which comes to its knowledge. In acting upon applications, it shall observe all pertinent provisions of these regulations as originally issued and subsequently amended. The county rationing committee may in its discretion request the applicant, or his authorized representative, to appear in person at a designated time and place to answer pertinent questions. If an applicant shall refuse to permit the county rationing committee or its authorized representative to make such inspection of his farm and farm machinery and equipment as it deems necessary, his application shall be denied forthwith.

§ 2.17 *Notation of action.* When the county rationing committee determines that an application shall be granted, at least two members thereof shall place their initials in the box after the word "Approved" on Form MR–1. When it determines that an application shall be denied, at least two members shall place their initials after the word "Disapproved" in the box on Form MR–1.

CERTIFICATES FOR PURCHASE OF NEW FARM MACHINERY AND EQUIPMENT IN GROUP A

§ 2.18 *Notification.* After acting upon an application, the county rationing committee shall notify the applicant of its decision. If the application is denied, the reasons therefor shall be set forth on Form MR–2. The original thereof shall be given or mailed to the applicant, and a copy shall be attached to the denied application, which shall be filed in alphabetical order in the office of the county rationing committee. In cases where the county rationing committee authorizes an applicant to purchase new farm machinery and equipment in Group A, it shall immediately issue to the applicant a non-transferable certificate for the purchase of such new farm machinery and equipment. The certificate shall be issued on Form MR–3.

§ 2.19 *Form of certificate.* The non-transferable certificate for the purchase of new farm machinery and equipment shall be prepared in triplicate. Such certificates shall be numbered serially and all numbers shall be accounted for and the serial number of the certificate placed upon the application. The original and one copy of the certificate shall be given or mailed to the applicant and the remaining copy shall be attached to the application.

§ 2.20 *Execution by issuing county rationing committee.* It shall be the responsibility of the county rationing committee, prior to the issuing of a purchase certificate, to insert on the original and each copy thereof the information designated thereon to be filled in by the county rationing committee. No certificate will be valid unless signed by at least one member of the county rationing committee.

§ 2.21 *Action by purchaser.* (a) Upon receiving the purchase certificate so executed, the applicant may purchase the new farm machinery and equipment specified therein, at a price not in excess of the maximum price established by the Office of Price Administration.

(b) The applicant shall at the time of purchase present to the dealer the original purchase certificate and copy thereof in the form in which they were given to him by the county rationing committee.

§ 2.22 *Expiration of certificates of purchase.* No purchase shall be made pursuant to such a purchase certificate after October 31, 1942, and such purchase certificate shall not be valid to the extent that the new farm machinery and equipment described therein is not delivered to the applicant before November 1, 1942. If delivery is not made before November 1, 1942, the dealer shall return to the purchaser any consideration already received by him for the machinery and equipment not delivered.

§ 2.23 *Action by dealer.* Immediately upon delivering new farm machinery and equipment pursuant to a purchase certificate and copy thereof surrendered to him, the dealer shall sign the certificate and copy thereof in the space provided and mail the copy to the issuing county rationing committee.

APPEALS

§ 2.24 *Application for reconsideration by the county rationing committee.* Any applicant whose application for new farm machinery and equipment has been denied by the county rationing committee may, within fifteen calendar days after written notice of such action is mailed or given to him, request such committee, in writing, to reconsider its action on his application. It shall mail or give to such person written notice of its decision within fifteen calendar days after receipt of such written request for reconsideration.

§ 2.25 *Appeal to State board.* (a) Any applicant for new farm machinery and equipment who has good reason to believe that the decision of the county rationing committee on his request for reconsideration is not in accordance with the provisions of these regulations may, within fifteen calendar days after written notice of such decision is mailed or given to him, file with the State board a written appeal from such action.

(b) The applicant shall include in such appeal a statement in writing, setting forth the specific reasons why he believes the action taken by the county rationing committee was not in accordance with these regulations, stating the portion or portions of these regulations upon which he relies, and stating in full the facts upon which his appeal is based.

§ 2.26 *Action by the State board.* (a) The State board may require the county rationing committee or the applicant to furnish pertinent information in addition to that furnished before the county rationing committee with respect to the appeal pending before such board. The State board may affirm the decision of the county rationing committee, or may reverse or modify such decision. The action of the State board shall in all respects be in accordance with the provisions of these regulations.

(b) The State board's decision shall be made as soon as is reasonably possible (in any event not later than thirty calendar days after its receipt of the appeal), shall be in writing, and shall be communicated immediately in writing to the applicant and to the county rationing committee. If the State board reverses or modifies the decision, it shall immediately mail a copy of its ruling to the Special War Board Assistant to the Secretary of Agriculture, Room 3095, South Building, Department of Agriculture, Washington, D. C.

§ 2.27 *Review of State board action.* If an applicant has good reason to believe that the ruling of the State board on his appeal is not in accordance with the provisions of these regulations, he may, within fifteen calendar days after notice of such ruling is mailed or given to him, file a written petition for review with the Special War Board Assistant to the Secretary of Agriculture at the address set forth in § 2.26 (b) hereof. Such written petition shall be dated and signed by the applicant, shall be under oath, and shall set forth the specific reasons why he believes the ruling of the State board is not in accordance with the provisions of these regulations and the portion or portions of these regulations upon which he relies. The Special War Board Assistant may require the furnishing of additional pertinent information by the applicant, the county rationing committee, or the State board. He may affirm the ruling of the State board or he may reverse or modify such ruling and remand the matter to the county rationing committee for action not inconsistent with his ruling. Such ruling shall be in writing and shall be communicated to the applicant, to the county rationing committee, and to the State board.

RECORDS

§ 2.28 *Records to be kept by the county rationing committee.* (a) All applications for new farm machinery and equipment, and papers relating thereto, received by the county rationing committee shall be systematically filed in its office. Records shall be kept by the committee of such pertinent and material data as may be necessary to carry out these regulations or as may be required by the Special War Board Assistant or the Secretary of Agriculture. Copies of purchase certificates received from dealers shall be attached to the respective applications.

(b) Lists containing the names and addresses of applicants who have been granted purchase certificates and the new farm machinery and equipment covered by each respective certificate shall be kept freely available for public inspection in the office of the county rationing committee and shall be made available for publication in local newspapers.

§ 2.29 *Records to be kept by dealers.* (a) Each dealer shall file with the State board on or before November 10, 1942, a list of all new farm machinery and equipment which he had in his possession at the close of business on October 31, 1942.

(b) Each dealer shall, upon delivery of the new farm machinery and equipment called for in a purchase certificate accepted by him, sign the original and copy thereof and mail such copy to the county rationing committee.

(c) Each dealer shall maintain a file containing the originals of all purchase certificates which have been accepted by him from applicants. However, on or before November 10, 1942, each dealer shall transmit to the issuing county rationing committee the originals and copies of all purchase certificates accepted by him with respect to which delivery of the new farm machinery and equipment desired thereon had not been completed before November 1, 1942.

(d) Each dealer shall keep all certifications accepted by him pursuant to § 2.11 hereof until called for by the county rationing committee.

(e) Each dealer shall make such reports and furnish such information as may be required from time to time by the Secretary of Agriculture, or other persons or agencies designated herein to assist in the administering of the regulations.

ENFORCEMENT

§ 2.30 *Unlawful use or possession.* It shall be unlawful for any person who has accepted a transfer of farm machinery and equipment in violation of Temporary Rationing Order No. A, or any amendment thereof, to use or have in his possession or under his control such farm machinery and equipment.

PART 8—COMPETITION WITH CIVILIAN BANDS

INSTRUCTIONS GOVERNING USE OF BANDS OR INDIVIDUAL MUSICIANS

Section 8.2 is hereby added as follows:

§ 8.2 *Instructions governing use of bands or individual musicians.* The following instructions pertaining to the use of bands or individual musicians which conform to sec. 35, Act June 3, 1916 (39 Stat. 188; 10 U.S.C. 609) quoted in § 8.1, will govern:

(a) Bands or individual musicians may be furnished on the following occasions:

(1) All military uses and occasions, that is, whenever and wherever a service band functions as part of the nation's military forces.

(2) All uses upon military and naval reservations, military and naval vessels, and other places or circumstances where a band is on duty with service forces.

(3) Official occasions attended by the superior officers of the Government and of the Army, Navy, and Marine Corps in their official capacities and in the performance of official duties, but such occasions do not include social occasions and entertainments, such as dinners, luncheons, etc., given by civilians or civic associations with such officers as guests.

(4) The occasions under subparagraphs (1) and (3) of this paragraph may include ceremonies in which music is an appropriate part. In such cases the music may be broadcast with the other features of the official program for the occasion.

(5) Broadcasts from a military reservation of concerts by Army bands and music furnished by an Army band as part of an entertainment program when such program conforms to subparagraph (2) above.

(6) Broadcasts off a military reservation of concerts by Army bands or any part thereof for purely recruiting drives when not a part of and not connected in any way with a commercial enterprise.

(7) Musical programs at any United States hospital for the entertainment of its inmates.

(8) Concerts in the Capitol grounds, Capitol building, and public parks of the City of Washington only.

(9) At free social and entertainment activities conducted *exclusively* for the benefit of enlisted men and their guests in service clubs and social centers maintained for the use of enlisted men in the vicinity of military reservations. Since it is contemplated that such service will not be furnished when it would interfere with the normal military duties of bandsmen, furnishing of musicians on such occasions is discretionary with the commanding officer having jurisdiction in the matter.

(10) For parades and ceremonies incident to national gatherings of officers of the Army of the United States, veterans and patriotic organizations. These occasions do not include dinners, dances, or luncheons.

(11) At public rallies and parades held exclusively for the sale of War Bonds and Stamps. If admission is charged the entire proceeds must be used for the purchase of stamps or bonds. The Commanding Officer having jurisdiction may determine the extent of participation with due consideration being given to interference with training. The cost of transporting the band for such activities may be charged against appropriated funds.

(12) At public rallies and parades to stimulate munitions production. This applies particularly to such celebrations held at manufacturing plants in connection with plant awards.

(13) The Army Relief, the Army Emergency Relief, and the National Red Cross, when the entire proceeds are donated to these agencies. Local charities and community chests are not included.

(b) Bands or individual musicians will not be furnished on the following occasions:

(1) For civic parades, ceremonies, expositions, etc., except as provided under paragraph (a) (11) and (12) above, regattas, contests, festivals, local baseball or football games, activities or celebrations, and the like.

(2) For the furtherance, directly or indirectly, of any public or private enterprise, functions by chambers of commerce, boards of trade and commercial clubs or associations.

(3) For any occasion that is partisan or sectarian in character or purpose.

(4) For civilian clubs, societies, civic or fraternal organizations.

(5) For so-called charitable purposes of a local, sectarian, or partisan character or any so-called charity that is not of a national character.

(6) For broadcasts off a military reservation, except as stated in paragraph (a) (6) of this section.

(7) Any occasion where there will in fact be competition with civilians. (Sec. 35, 39 Stat. 188; 10 U. S. C. 609) [Cir. 291, W. D., August 29, 1942.]

(3) "Supplier" means any person with whom a contract or purchase order has been placed for delivery of material to the operator or to another supplier.

(4) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including but not limited to natural gas.

(5) "Material" means any commodity, equipment, accessories, parts, assemblies, or products of any kind.

(iv) The processing, refining or compounding of finished or unfinished petroleum products (refining);

(v) The distribution or dispensing of petroleum products (other than natural gas) and the storing of petroleum products incident thereto (marketing).

(b) *Scope of order.* (1) No operator may apply any preference rating assigned by this order to obtain delivery of material (i) unless such material is to be used for maintenance or repair purposes or as operating supplies; or (ii) unless such rating is applied to obtain delivery of material to be used in any operation directly incident to the discovery, development or depletion of petroleum pools.

(2) The Director General for Operations may from time to time issue supplementary orders or specific directions with respect to the application of preference ratings or the use of material obtained under this order.

(c) *Assignment of preference ratings.* (1) Subject to the terms of this order, a preference rating of A-2 or A-1-a is hereby assigned to deliveries of material to an operator for use in the petroleum industry.

(d) *Restrictions on the application of preference ratings by an operator.* (1) No operator may apply any preference rating assigned by this order to obtain delivery of material unless the material cannot otherwise be obtained on the date when such material is required, and no operator may apply the A-1-a preference rating assigned by this order in any case where the A-2 preference rating assigned by this order will enable such operator to secure the material on the date when such material is required.

(2) No operator may apply a rating assigned by this order to obtain material the use of which may be eliminated by substitution of less scarce material or by change of design without serious loss of efficiency.

(3) No operator may apply a rating assigned by this order to obtain material in excess of a 90 day supply thereof: *Provided,* That the Director General for Operations may determine and direct that any operator or class of operators is exempt, in whole or in part, from the restrictions contained in this paragraph.

(4) No operator as defined in paragraph (a) (2) (i) may apply a rating assigned by this order to obtain material for any use which is restricted, prohibited or in any way limited by any order or regulation issued by the War Production Board, other than material to be used in conformity with the provisions of such order or regulation.

(e) *Method of application of preference ratings.* In order to apply a preference rating assigned by this order:

(1) The operator must endorse on, or attach to, each contract or purchase order placed by him which includes such a preference rating, a certification in the following form, signed manually or as provided in Priorities Regulation No. 7 (§ 944.27)[1] by an official duly authorized for such purpose:

(2) If there has been an actual breakdown or a suspension of operations and if the preference ratings assigned by this order or the method specified in paragraph (e) for applying these ratings will not permit an operator to obtain material on the date when such material is required, the operator in order to obtain material for this emergency may communicate by letter or telegram with the Office of Petroleum Coordinator for War, Washington, D. PART 1259—METAL DOORS, METAL DOOR FRAMES AND METAL SHUTTERS

[Limitation Order L-142]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel and other metals for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national war effort:

§ 1259.1 *General Limitation Order L-142*—(a) *Definitions.* For the purposes of this order:

(1) "Door" means a movable closure or barrier in an opening designed to be used as a means of passage or access in the side, floor, ceiling or partition of a building, shaft or tower.

(2) "Metal door" means any door which, exclusive of essential hardware, is made in whole or in part of metal.

(3) "Metal door frame" means any framework, jamb, buck or trim which, exclusive of essential hardware, is made in whole or in part of metal and is designed to be used for bounding a door opening or providing a means of support for a door.

(4) "Metal shutter" means a cover (other than a window or a window shutter) which, exclusive of essential hardware, is made in whole or in part of metal, and is designed to be used as a means of closure in or over an opening constructed in the side, floor, ceiling or partition of a building, shaft or tower for the admission of light and air.

(5) "Essential hardware" means hangers, tracks, screws, nails, rivets, bolts, wire, locks, knobs, handles and other types of metal items normally used in the manufacture, joining or installation of a wooden door, buck, trim, jamb or shutter.

(b) *Restrictions.* (1) Notwithstanding any contract or agreement, no person shall manufacture, fabricate or otherwise make a metal door, metal door frame or a metal shutter except:

(i) To be used in an airplane hangar when such metal door, metal door frame or metal shutter is designed and constructed for such use;

(ii) To be used for fire protection purposes pursuant to an order or contract bearing a preference rating and then only if constructed of ferrous metal which metal shall not exceed Number 24, U. S. standard gauge, provided that the total weight of metal in such metal door, metal door frame or metal shutter shall not exceed by more than ten (10) percent the minimum total weight of metal called for by the specifications of the National Board of Fire Underwriters for fire protection purposes in the construction and installation of the lightest weight metal door, metal door frame or metal shutter permitted by such requirements in the site within the building, shaft or tower of such door, door frame or shutter;

(iii) Pursuant to an order or contract received on or before the date of issuance of this order, provided that:

(a) The order or contract identified the building or building project in which such metal door, metal door frame or metal shutter will be installed, and

(b) The contract for the construction of such building or building project has been executed prior to the date of issuance of this order, and

(c) Such building or building project has been assigned a preference rating, regardless of whether or not such preference rating has been extended to the order or contract for the purchase of such metal door, metal door frame or metal shutter, and

(d) Such metal door, metal door frame or metal shutter is completed within forty-five (45) days after the date of issuance of this order;

(iv) To be used for repair and maintenance purposes when a preference rating of A-10 or better has been assigned to the order or contract calling for such metal door, metal door frame or metal shutter.

(c) *Applicability of other orders.* Insofar as any other order issued by the Director General for Operations, or to be issued by him hereafter, limits the use of any material to a greater extent than the limits imposed by this order, the restrictions of such other order shall govern, unless otherwise specified therein, but nothing in this order shall supersede the directive for War Time Construction, dated May 20, 1942, issued by the Chairman of the War Production Board, the Secretary of War, and the Secretary of the Navy or the "List of Prohibited Items for Construction Work", dated June 29, 1942, issued by the Army and Navy Munitions Board, as amended from time to time.

(d) *Records.* All persons affected by this order shall keep and preserve for not less than two (2) years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each person to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(j) *Routing of correspondence.* Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Building Materials Branch, Washington, D. C., Ref: L-142.

§ 1364.51 *Prohibition against selling beef or veal carcasses, wholesale cuts or slaughtering services at prices above the maximum.* On and after July 13, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver any beef or veal carcass or wholesale cut, or sell any slaughtering service, and no person in the course of trade or business shall buy or receive any beef or veal carcass or wholesale cut or slaughtering service at a price higher than the maximum price permitted by § 1364.52. The provisions of this section shall not be applicable to sales or deliveries of beef or veal carcasses or wholesale cuts to a purchaser if, prior to July 13, 1942, such carcasses or wholesale cuts have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1364.52 *Maximum prices for beef and veal carcasses and wholesale cuts.* Except as provided by paragraphs (d), (f), (g), (h), and (l) of this section, each seller's maximum prices for beef and veal carcasses and wholesale cuts which are shipped otherwise than via car route or by carload shall be computed as provided by paragraph (a) of this section; his maximum prices for such carcasses or cuts shipped via car route shall be computed as provided by paragraph (b) of this section; and his maximum prices for such carcasses or cuts shipped by carload shall be computed as provided by paragraph (c) of this section. Maximum prices for slaughtering services are limited by paragraph (e). (e) *Maximum prices for slaughtering services.* Any person who slaughters cattle or calves as a service for the purchaser of such cattle or calves shall remit to such purchaser an amount sufficient to make the cost of the dressed carcass, or of the wholesale cuts derived therefrom, to such purchaser equal to or less than the costs which would be incurred by the purchaser if he purchased the carcass or cuts from the slaughterer at the slaughterer's maximum prices therefor: *Provided*, That this requirement shall not apply in cases where the purchaser does not acquire the carcasses or cuts for resale in any form; nor until December 15, 1942, in cases where the cattle or calves slaughtered are certified to be club cattle or calves within the meaning of this Maximum Price Regulation No. 169 by the sworn certificate of the supervisor, club agent, agricultural county agent, or vocational agricultural project teacher, as the case may be, and where the carcasses derived therefrom have been graded and grade marked in accordance with the grade specifications and grade marking requirements contained in this Maximum Price Regulation No. 169 by an official grader of the United States Department of Agriculture. The original of such certificate shall be retained by the purchaser and a copy shall be retained by the official grader. If the slaughterer sold no carcass or cut of the relevant grade during the base period March 16 to March 28, 1942, his maximum prices, within the meaning of this paragraph, for a carcass or wholesale cuts of such grade shall be the maximum prices of the most nearly competitive seller who sold a carcass or wholesale cuts of such grade during the base period. To enable the slaughterer to determine the amount to be remitted to the purchaser, it shall be the duty of such purchaser to advise the slaughterer of the amount paid for the cattle or calves slaughtered.

(f) *Adjustment of maximum prices for products sold to certain governmental agencies to include certain special charges* * * *

(g) *Maximum prices for federally inspected products of choice grade.* The maximum price of each beef or veal carcass or wholesale cut which has been graded choice by an official grader of the United States Department of Agriculture and which bears the appropriate official grade mark and identification of such official grader at the time of sale or delivery shall be ¼ cent per pound higher than the maximum price computed for such grade of beef or veal carcass or wholesale cut pursuant to paragraphs (a), (b), (c), or (d) of this section, except that this paragraph shall not apply in any instance where a maximum price is derived under paragraph (i) from the most nearly competitive seller who has computed maximum prices in accordance with this paragraph.

(h) *Adjustment of maximum prices.* In the event that any maximum price computed pursuant to paragraphs (a), (b), or (c) of this section results in a price containing a fraction of a cent which fraction is indivisible exactly into eighths, the seller shall adjust such maximum price to the nearest eighth of a cent.

(i) *Maximum prices which cannot be priced under the foregoing paragraphs.* Except as provided in paragraph (l) of this section, if the maximum price for any grade of any beef or veal carcass or wholesale cut cannot be determined under paragraphs (a), (b), or (c) of this section, the maximum price for such carcass or cut shall be the maximum price of the most nearly competitive seller.

Authorization to establish a maximum price for such carcass or wholesale cut will be accompanied by instructions as to the method for determining the maximum price. Within 10 days after such price has been determined, the seller shall report the price to the Office of Price Administration, Washington, D. C., under oath or affirmation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(k) *Maximum prices for products which cannot be priced under paragraphs* (c) *or* (i). Except as provided in paragraph (l) of this section, if the maximum price for any grade of any beef or veal carcass or wholesale cut shipped by carload cannot be determined under paragraph (i) of this section, the maximum price, f. o. b. the seller's shipping point for each grade of each beef or veal carcass sold for carload delivery shall be determined by substracting ½ cent per pound from the seller's maximum price for such grade of carcass or wholesale cut as determined pursuant to paragraph (a) of this section, or as determined pursuant to paragraph (i) or (j) in lieu of paragraph (a) if such maximum price cannot be determined pursuant to paragraph (a).

One copy shall be filed in the office of the official grader and one copy forwarded to the Chief of Bureau. Copies will be furnished to other financially interested parties as outlined in regulation 7, section 1, paragraph 6.

Section 16. *Advance information.* Upon request of an applicant, all or any part of the contents of the certificate may be telegraphed, telephoned, or radioed to him, or to any person designated by him, at his expense.

REGULATION 5. APPEAL GRADING

Section 1. *When appeal may be taken.* An application for appeal grading may be made whenever any financially interested party is dissatisfied with the determination stated in the original certificate.

Section 2. *How to obtain.* Appeal grading may be obtained by the applicant or other person financially interested in the product by filing a request for such appeal grading (a) with the official in charge of the meat grading service at nearest designated market, or (b) with the grader who did the original grading, or (c) with the Chief of the Bureau. The application for appeal shall state the reasons therefor, and may be accompanied by a copy of any previous grading certificate or report, or any other information which the applicant shall have received regarding the product at the time of the original grading. Such application may be made in writing or orally, by telegraph, telephone, or otherwise. If made orally, the person receiving the application may require that it be confirmed in writing.

Section 3. *Record of filing time.* A record showing the date and time of filing such application shall be immediately made by the receiver thereof.

Section 4. *When appeal may be refused.* If it shall appear that the reasons stated in an application for appeal grading are frivolous or unsubstantial, or that the quality or condition of the products has undergone a material change since the original grading, or that the products cannot be made accessible for thorough grading, or that the identity has been lost, or that these regulations have not been complied with, the application may be denied.

Section 5. *When appeal may be withdrawn.* An application for appeal grading may be withdrawn by the applicant at any time before the appeal grading has been performed upon payment of any expenses incurred in connection therewith.

Section 6. *When second grading is not an appeal.* Gradings requested to determine factors of quality or condition which may have undergone material change since the original grading shall not be considered appeal gradings within the meaning of this regulation. Second grading, requested for the purpose of securing an up-to-date certificate and not involving any question as to the correctness of the original certificate covering the lot in question, shall not be considered appeal grading within the meaning of this regulation.

Section 7. *Order in which made.* Appeal gradings shall be performed as far as practicable at time requested by applicant and in the order in which applications are received. They shall take precedence over all other pending applications.

Section 8. *Who shall pass upon appeals.* Appeal grading shall be passed upon by official graders designated therefor by the Chief of Bureau, and such grading shall be conducted jointly by two official graders when practicable. No appeal grader shall pass upon an application involving the correctness of a certificate issued by him.

Section 9. *Appeal findings.* Immediately after an appeal grading has been made a certificate designated as "appeal grading certificate" shall be signed and issued referring specifically to the original certificate and stating the quality and condition of the product as shown by the appeal grading. In all other respects the provisions of regulation 4 shall apply to such appeal grading certificates except that if the applicant for appeal grading be not the original applicant, a copy of the appeal grading certificate shall be mailed to the original applicant.

Section 10. *Superseded certificates.* When a grading certificate shall have been superseded under these regulations by an appeal grading certificate such grading certificate shall become null and void and shall not thereafter represent the class, quality, or condition of the product described therein. If the original and all copies of the superseded certificate are not delivered to the person with whom the application for appeal grading is filed, the officer or officers issuing the appeal grading certificate shall forward notice of such issuance and of the cancelation of the original certificate to such persons as he considers necessary to prevent fraudulent use of the canceled certificate.

FARM MARKETING QUOTAS

§724.426 *Amount of farm marketing quota.* The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with Part I of the "Marketing Quota Regulations—Burley Tobacco, 1942–43 Marketing Year" (Tobacco 603 Part I). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1942 times the farm acreage allotment. The excess tobacco on any farm shall be that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1942 times the number of acres harvested in excess of the farm acreage allotment.

§ 724.427 *Issuance of marketing card.* A marketing card shall be issued for every farm having tobacco available for marketing. The card shall be issued after information required for its prep-

aration (including measurements of the harvested acreage of tobacco and an estimate of the actual production of tobacco) has been furnished to or obtained by the county office. If the farm operator refuses to furnish or prevents the county office from obtaining such information the card shall show that all of the tobacco available for marketing from the farm is subject to penalty.

(a) *Within Quota Marketing Card (MQ–655 Burley).* A "Within Quota Marketing Card" authorizing the marketing without penalty of the actual production of tobacco on the farm in the 1942 calendar year and any tobacco carried over from a prior marketing year shall be issued for a farm unless an excess marketing card is required to be issued for the farm in accordance with paragraph (b) of this section.

(b) *Excess Marketing Card (MQ–657 Burley).* An "Excess Marketing Card" showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1942 is in excess of the farm acreage allotment and such excess tobacco is not disposed of in accordance with § 724.428 hereof, or if the operator of the farm also operates another farm on which the harvested acreage of tobacco in 1942 exceeds the farm acreage allotment and such excess is not disposed of in accordance with § 724.428 hereof.

(2) If a within quota marketing card could be issued for the farm but the county committee determines that a zero percent excess marketing card is necessary to protect the interest of the government and to insure proper identification of and accounting for the disposition of tobacco produced on the farm and the proper use of the marketing card issued for the farm.

(3) If there is tobacco available for marketing from the farm but no tobacco acreage allotment was established and such tobacco is not disposed of as provided in § 724.428 hereof.

(4) If information required for preparation of the marketing card is not furnished or the county office is prevented from obtaining the necessary information.

(5) If there is tobacco available for marketing from the farm carried over from a prior marketing year and the harvested acreage in 1942 is not less than the 1942 acreage allotment by an amount equivalent to the acreage of carry-over excess determined as provided in § 724.427, c, hereof.

(6) If a farm operated by a publicly owned experiment station produces tobacco for other than experimental purposes and such tobacco is not disposed of as provided in § 724.428 hereof.

(c) *Extent to which marketings from a farm are subject to penalty.* The extent to which marketings of tobacco from any farm having no carry-over tobacco are subject to penalty shall be that percentage of the tobacco available for marketing from the farm which the acreage of tobacco harvested in excess of the farm acreage allotment for the farm and not disposed of as provided in § 724.428 of these regulations, is of the acreage of tobacco harvested from the farm. Each marketing card showing a percentage excess of zero also shall show the maximum number of pounds of tobacco which may be marketed therefrom, which shall be the quantity of tobacco estimated by the county committee to be available for marketing from the 1942 crop produced on the farm. For any excess marketing card which shows a percentage of excess of more than zero, the county committee, if it has reason to believe it to be necessary in order to prevent marketing thereunder of tobacco produced on another farm, also shall have shown on the card the maximum number of pounds which may be marketed thereunder, such number of pounds to be determined in the same manner as for a card showing zero percent excess. The maximum number of pounds shown on any excess marketing card shall be increased by the county committee if the committee determines that the quantity of tobacco available for marketing from the 1942 crop produced on the farm is greater than the number of pounds previously estimated by the committee to be available for marketing.

The extent to which marketings of tobacco from any farm having tobacco available for marketing which has been carried over from a prior marketing year are subject to penalty shall be the percentage determined as follows:

(1) Determine the number of "carry-over acres" by dividing the number of pounds of tobacco carried over from the prior year by the normal yield for the farm for that year.

(2) Determine the number of "within quota carry-over acres" by multiplying the "carry-over acres" ((1) above) by the "percent within quota" (i. e., 100 percent minus the percent excess) for the year in which the carry-over tobacco was produced.

(3) Determine the "total acres" of tobacco by adding the "carry-over acres" ((1) above) and the acreage of tobacco harvested in the current year.

(4) Determine the excess acreage by subtracting from the "total acres" ((3) above) the sum of the 1942 allotment and the "within quota carry-over acres" ((2) above).

(5) Determine the percent excess to be shown on the marketing card by dividing the "total acres" into the excess acreage ((4) above).

(d) *Number of marketing cards and entries and signatures thereon.* One or more marketing cards may be issued for any farm as approved by the county committee. All entries on each marketing card shall be made in accordance with the instructions for issuing the marketing card and the operator's agreement on each marketing card shall be signed by the farm operator or on his behalf by his authorized representative.

§ 724.428 *Disposition of excess tobacco.* The farm operator may elect to give satisfactory proof of disposition of excess tobacco prior to the marketing of any tobacco from the farm by any of the following methods:

(a) By executing a "Tobacco Carry-over Agreement", (Tobacco 628) and delivering, either to the county committee prior to the issuance of the marketing card or to a field assistant at the auction warehouse out of the first proceeds from the marketing of tobacco from the farm, a certified check, cashier's check or post office money order, or by a check drawn by the warehouseman, payable to Commodity Credit Corporation in an amount equal to the estimated actual yield of tobacco from the excess acreage times 85 percent of the parity price of Burley tobacco as of the beginning of the 1942–43 marketing year.

(b) By storage of the excess tobacco, the tobacco so stored to be representative of the entire 1942 crop produced on the farm, and posting of a bond or making of other arrangements approved by the county committee and the chief of the Marketing Quota Section which will guarantee payment of the amount of penalty which will become due upon the marketing of excess tobacco.

(c) By rendering the excess tobacco unmerchantable, the tobacco so rendered unmerchantable to be representative of the entire crop of tobacco produced on the farm in 1942 and the act of rendering the tobacco unmerchantable to be performed only by the farm operator (or his representative) under the supervision of the county committee (or a person designated by the committee).

(d) By payment to the county office by certified check, cashier's check, or money order drawn payable to the Treasurer of the United States of an amount equal to 10 cents per pound times the estimated actual production of the excess acreage of tobacco harvested from the farm. Any additional amount of penalty due after the actual yield for the farm has been determined shall be paid by the operator not later than 20 days after receipt of notice of such additional penalty from the county office. This subsection (d) shall apply only in the event that the acreage harvested in excess of the allotment does not exceed the larger of two-tenths acre or 10 percent of the farm acreage allotment.

§ 724.429 *Report on marketing card.* The operator of each farm on which tobacco is produced in 1942 shall return to the county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than thirty days after the close of the tobacco auction markets for the area in which the farm is located. Failure to return the marketing card to the county office within the time specified (after formal notification) shall constitute failure to give proof of disposition of tobacco marketed from the farm in the event that satisfactory proof of such disposition is not furnished otherwise.

§ 724.430 *Additional reports by producers and identification of tobacco.* In addition to any other reports which may be required under these regulations, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment and even though no allotment was established for the farm) shall, upon written request by the chairman of the State Committee and within ten days after the deposit of such request in the United States mails addressed to such person at his last known address, furnish the Secretary of Agriculture, by sending the same to the Chairman of the State Committee, a written report showing, as to the farm at the time of filing said report (a) the number of acres of tobacco harvested, (b) the total production of tobacco, (c) the amount of tobacco on hand and its location, and (d) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price, and the date of marketing.

§ 724.431 *Rights of producers in marketing card.* Each producer having a share in the tobacco available for marketing from the farm shall be entitled to the use of the marketing card for marketing his proportionate share of the total amount of tobacco available for marketing from the farm: *Provided,* That the burden of any penalty with respect to carry-over tobacco shall be borne by those persons having an interest in such tobacco.

§ 724.432 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from the farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 724.433 *Person authorized to issue cards.* The county committee shall designate one person to sign marketing cards for farms in the county as issuing officer. No marketing card shall be signed by the issuing officer until all other entries required to be made thereon have been made, except that the Operator's Agreement therein may be signed after the issuing officer has signed the card, but prior to the issuance of a memorandum of sale from the card. Only one person shall be designated as issuing officer but such person may, subject to the approval of the county committee, designate not more than three persons to sign his name in issuing marketing cards; provided that each such person shall place his initials immediately beneath the name of the issuing officer as written by him or the card.

§ 724.434 *Invalid cards.* A marketing card shall be invalid under any of the following conditions:

(a) If it is not issued or delivered in the form and manner prescribed;

(b) If entries are not made thereon as required;

(c) If it is lost, destroyed, stolen, or becomes illegible;

(d) If any erasure has been made;

(e) If any alteration has been made and not properly initialed; or

(f) If the amount due Commodity Credit Corporation with respect to a "Tobacco Carry-over Agreement" is not paid prior to the issuance of any memorandum of sale.

In the event any marketing card becomes invalid (other than by loss, destruction, theft, omission, alteration, or incorrect entry which can be corrected by a field assistant) the farm operator (or the person having the card in his possession) shall return it to the county office at which it was issued.

If any marketing card is lost, destroyed, stolen, or altered, the person having knowledge of such loss, destruction, theft, or alteration shall notify the county office to that effect, and the county office shall immediately notify the Marketing Quota Section.

If any marketing card which was reported as lost, destroyed, stolen, or altered is later received by the county office, the county office shall immediately notify the Marketing Quota Section of the receipt of such card.

After receipt of notice of loss, destruction or theft of any marketing card the county office may issue a duplicate marketing card to replace the lost, destroyed, or stolen card in accordance with instructions issued pursuant to these regulations.

In the event any marketing card was improperly issued, has been altered, or becomes illegible, upon the return of the card to the county office a new marketing card shall be issued immediately, or as soon thereafter as the necessary information is available.

If any entry is not made on a marketing card as required (either through omission or incorrect entry) and the proper entry is made by a field assistant then such card shall become valid. If the field assistant is unable to make the proper entry, he shall return the card to the county office where it shall be retained until such entry is made, or a new marketing card is issued, as provided above.

§ 724.435 *Additional cards and disposition of used cards.* Upon the return to the county office of the marketing card after all the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. Any marketing card issued to replace another card shall have entered thereon the total sales as shown on the marketing card which is replaced.

§ 724.436 *Report of probable misuse of marketing card.* Any information which causes any field assistant, a member of any local committee, or an employee of the county office to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the State office and the Marketing Quota Section.

§ 724.437 *No transfers.* There shall be no transfer of marketing quotas (except as provided in Part I of these regulations) and the tobacco marketed under the marketing card issued for a farm shall consist only of tobacco produced on the farm.

MARKETING OF TOBACCO AND PENALTIES

§ 724.438 *Memorandum of sale to identify every marketing.* Each marketing of tobacco from a farm shall be identified by a memorandum of sale issued from the marketing card (MQ-656 Burley or MQ-657 Burley) for the farm but if a memorandum of sale cannot be obtained within four weeks after the date of the marketing of any tobacco at a warehouse sale, such marketing of tobacco shall be subject to penalty and the amount of penalty shall be shown on the memorandum of sale cleared without marketing card (Tobacco 618). The memorandum of sale shall be issued only by a field assistant, with the following exceptions:

(a) A warehouseman, or his authorized representative, who has been authorized on form Tobacco 625, may issue a within quota memorandum of sale to identify a warehouse sale, if a field assistant is not available at the warehouse when the card is presented by the farmer and if no payment to Commodity Credit Corporation under a "Tobacco Carry-over Agreement" is due with respect to the tobacco to be covered by the memorandum. Each memorandum of sale issued by a warehouseman shall be presented promptly by him to the field assistant for verification with the warehouse records.

(b) A representative of the county office may issue memoranda of sale covering sales of tobacco by the producer in small lots by mail order or directly to various individuals other than dealers.

The authorization to issue within quota memoranda of sale under paragraph (a) above may be withdrawn from any warehouseman or dealer upon written notice by the Chief of the Marketing Quota Section.

Each excess memorandum of sale, after issuance by a field assistant, shall be checked by the warehouseman or dealer (or his representative) to determine whether the amount of penalty shown to be due has been correctly computed, and the warehouseman or dealer shall be responsible for the correctness of such computations.

If the quantity of tobacco previously identified by memoranda of sale issued from any within quota marketing card is in excess of the number of pounds assigned to the card, the person issuing the memorandum shall require the farm operator to sign the "Operator's Certificate" on the back of the memorandum and if he is satisfied that such signature is the same as the signature of the farm operator on the marketing card, he may issue the memorandum. If any person other than the operator presents the marketing card, the memorandum of sale shall not be issued unless the "Authorization" on the back of such memorandum has been properly executed and signed by the operator. The person who presents the marketing card may sign on behalf of the farm operator, provided that such person

places his address immediately beneath his signature. Any person authorized to issue a memorandum of sale under either of the above described circumstances who has reason to believe that the tobacco to be covered by the memorandum was not produced on the farm for which the marketing card containing the memorandum was issued, may or may not issue the memorandum as he considers advisable, but in either event he shall immediately make a written report of the circumstances in the case to the Marketing Quota Section.

§ 724.439 *Bill of nonwarehouse sale.* Each marketing of farm tobacco, except a warehouse sale, shall be identified by a Bill of Nonwarehouse Sale (Tobacco 614) completely executed by the buyer and the farm operator, except for the entry of the serial number of the memorandum of sale. The post card copy (Tobacco 614a) shall be mailed by the farm operator not later than the day following the day on which executed. The original of each Bill of Nonwarehouse Sale covering any marketing of tobacco shall be presented to a field assistant for issuance of a memorandum of sale (or a memorandum of sale cleared without marketing card) and for recording in the Dealer's Record Book in case of a purchase by a dealer other than a warehouseman. The original of each such Bill of Nonwarehouse Sale shall be forwarded with the applicable Dealer's Record (Tobacco 615).

§ 724.440 *Marketings free of penalty.* Any tobacco marketed from a farm which is identified by a valid memorandum of sale from the marketing card issued for the farm shall be free of penalty to the extent shown by the memorandum of sale.

§ 724.441 *Marketings subject to penalty and collection of penalties*—(a) *Farm tobacco.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that proportion of each lot of tobacco which the tobacco available for marketing in excess of the farm quota (at the time of issuance of the marketing card) is of the total amount of tobacco available for marketing from the farm. The memorandum of sale issued to identify such marketing of tobacco shall show that portion of such marketing which is subject to penalty, and any portion of such marketing of tobacco which is not shown by the memorandum as being subject to penalty shall be free of penalty.

(b) *Dealer's tobacco.* Any marketing of tobacco by a dealer which such dealer represents to be a resale, but all or any part of which, when added to prior resales by such dealer as shown on the Dealer's Record, is in excess of the total amount of purchases as shown on such Dealer's Record shall be a marketing of tobacco subject to penalty unless and until the dealer furnishes proof acceptable to the Secretary showing that such tobacco is not subject to penalty. Any marketing of tobacco by a dealer which such dealer represents to be a resale of tobacco previously purchased by him but which, because of the difference in the price at which such tobacco is resold as compared with the price at which he had purchased the tobacco, cannot reasonably be regarded as tobacco previously purchased by him shall be taken to be a marketing of tobacco subject to penalty.

(c) *Tobacco not identified by a valid memorandum.* Any marketing of tobacco which is not identified by a valid memorandum of sale shall be subject to penalty.

(d) *Liability in case of error on memorandum.* The person liable for the payment of the penalty upon any marketing of tobacco shall not be relieved of such liability because of any error which may occur on the memorandum of sale.

§ 724.442 *Persons to pay penalty.* The person to pay the penalty due on any marketing of excess tobacco shall be one of the following as applicable:

(a) *Warehouseman.* If the tobacco is marketed by the producer through a warehouseman the penalty shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Dealer.* If the tobacco is acquired from the producer by a dealer, the penalty shall be paid by the dealer who may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Agent.* If the tobacco is marketed by the producer through an agent who is not a warehouseman, the penalty shall be paid by the agent who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Producer on behalf of buyer in case of mail order or direct sales in small lots.* If the tobacco is marketed in small lots by the producer by mail order sales or directly to various individuals other than dealers, the penalty may be paid by the producer of such tobacco on behalf of the various buyers. In such case the buyer of such tobacco shall be relieved of the penalty to the extent that it is paid by the producer.

(e) *Warehouseman and dealer on dealer's tobacco.* Any penalty due upon tobacco subject to penalty under paragraph (b) of § 724.441 shall be paid by the warehouseman, who may deduct an amount equivalent to the penalty from the price paid to the dealer, but the dealer shall not be relieved of responsibility for payment of such penalty.

(f) *Producer marketing outside United States.* If the tobacco is marketed by the producer directly to any person outside the United States, the penalty shall be paid by the producer.

§ 724.443 *Rate of penalty.* The penalty shall be ten cents per pound upon the marketing of any tobacco in excess of the marketing quota for the farm on which the tobacco is produced and on the marketing of any other tobacco not identified under these regulations as being free of penalty.

§ 724.444 *Penalty for false identification or failure to account for disposition of tobacco.* If any producer falsely identifies or fails to account for disposition of any tobacco, an amount of tobacco equal to the normal yield of the number of acres harvested in 1942 in excess of the farm acreage allotment shall be deemed to have been marketed in excess of the marketing quota for the farm and the penalty in respect thereof shall be paid and remitted by the producer.

§ 724.445 *Payment of penalty.* Penalties upon the marketing of tobacco shall become due at the time of the marketing and shall be paid by remitting the amount thereof to the applicable field office as shown in the Marketing Quota Instructions, Tobacco 622, not later than the end of the calendar week following the week in which the memorandum of sale was issued, or, in the event a memorandum is not issued, not later than four weeks after the date upon which the tobacco was sold. A draft, money order, or check, payable to the order of the Treasurer of the United States may be used to pay any penalty, but any such draft, or check shall be received subject to payment at par.

§ 724.446 *Application for return of penalty.* Any producer of tobacco and any other person who bore the burden of the payment of any penalty collected may file an application for return of the amount of such penalty which is in excess of that amount equal to ten cents per pound upon the number of pounds marketed in excess of the farm marketing quota. Any application for return of any penalty shall be filed on form Tobacco 624, "Application for Return of Penalty."

An application for the return of penalty filed by any producer of tobacco on a farm on which the tobacco available for marketing is in excess of the farm marketing quota shall not be approved unless (1) the marketing of tobacco from the farm has been completed and (2) disposition of all unmarketed excess tobacco has been made under the supervision of the county committee (or its representative) and has been approved by the county committee.

Return of penalty collected upon marketings of tobacco from any farm on which the tobacco available for marketing is in excess of the farm marketing quota shall be made only upon the basis of tobacco produced on the farm and, if the county committee has good cause to believe that any of the unmarketed excess tobacco as reported for the farm by the farm operator was not actually produced thereon, the application for such farm shall not be approved with respect to that tobacco which the committee has good cause to believe was not produced on the farm. The county committee shall approve an Application for Return of Penalty only for that number of pounds of unmarketed excess tobacco which the committee determines is representative of the entire amount of tobacco available for marketing from the farm in the 1942–43 marketing year, taking into account the value of the unmarketed excess tobacco (which is disposed of) as appraised by the county committee (or its representative) and the value of tobacco marketed from the farm.

RECORDS AND REPORTS

§ 724.447 *Warehouseman's records and reports*—(a) *Record of marketings.* Each warehouseman shall keep such records as will enable him to furnish to the Secretary of Agriculture a report of the following information with respect to each sale or resale of tobacco made at his warehouse:

(1) The name of the seller (and, in the case of a sale for a producer, the name of the operator of the farm on which the tobacco was produced);

(2) The name of the purchaser;

(3) The date of sale;

(4) The number of pounds sold;

(5) The sale price; and

(6) The amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer (or a dealer).

All purchases and resales for the warehouse leaf account shall be so identified in the records and a separate account shall be maintained with respect to the amount of floor sweepings picked up and the disposition of such floor sweepings. The quantity of floor sweepings, including bundles, leaves and scrap, picked up by the warehouse after each sale shall be reported in the space provided on the Auction Warehouse Report (Tobacco 616). Any warehouseman who grades tobacco for farmers shall maintain a separate account showing the approximate amount of grading house scrap obtained from the tobacco graded from each farm. In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse records so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each marketing of tobacco from the farm or the number of the warehouse bill(s) covering each such marketing shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(e) *Warehouse entries on dealers' records.* Each warehouseman shall enter on such Dealer's Record (Tobacco 615) the total of purchases and resales made by such dealer during each sale day at the warehouse. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1942 the entry on the Dealer's Record shall clearly show such fact.

(f) *Daily report of warehouse business and report of penalties.* Each warehouseman shall make reports on form Tobacco 616, Auction Warehouse Report, and on form Tobacco 617, Report of Penalties, showing the information required on the respective reports. Form Tobacco 616 shall be prepared for each sale day and all reports for the sale days occurring during any week shall be forwarded to the Marketing Quota Section not later than the end of the next following calendar week. (c) *Report of penalties.* Each dealer shall make a report on form Tobacco 617 showing the information with respect to all purchases subject to penalty made by him during each calendar week. The penalties listed on each such report shall be remitted with the report.

(d) *Memorandum of sale record and bill of nonwarehouse sale record.* For each lot of tobacco purchased from a farmer each dealer shall obtain a record in the form of a valid memorandum of sale issued by a field assistant. No memorandum of sale shall be issued unless:

(1) The farm operator or his authorized agent has signed the "Authorization" on the back of the memorandum; and

(2) Unless a properly executed Bill of Nonwarehouse Sale (Tobacco 614) is presented covering such sale.

(e) *Additional records.* Each dealer shall keep such records, in addition to the foregoing, as may be necessary to enable him to furnish the following information with respect to each lot of tobacco purchased or sold by him.

Each such person shall make such reports to the Secretary of Agriculture as the Chief of the Marketing Quota Section may

find necessary to enforce these regulations.

§ 724.451 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, processor, or as a person engaged in the business of redrying, prizing, or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged, to the same extent for each such business as if he were engaged in no other business, except that a warehouseman shall not be required to keep a record and make reports on form Tobacco 615, "Dealer's Record", if the transactions which would be recorded and reported on such forms are recorded on the records kept by the warehouse in its regular course of business and reported as required on form Tobacco 616.

§ 724.452 *Failure to keep record or make report.* Any warehouseman, processor, or common carrier of tobacco, or person engaged in the business of purchasing tobacco from producers, or person engaged in the business of redrying, prizing or stemming tobacco for producers, who fails to make any report or keep any record as required under these regulations, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under these regulations within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him, or both. Notice of any violation by a tobacco warehouseman or dealer shall be given by the Chief of the Marketing Quota Section.

§ 724.453 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report, but not so furnished, any warehouseman, dealer, processor, common carrier or person engaged in the business of redrying, prizing or stemming tobacco for producers shall make available for examination, upon written request by the Chief of the Marketing Quota Section such books, papers, records, accounts correspondence, contracts, documents and memoranda as he has reason to believe are relevant and are within the control of such person.

§ 724.454 *Length of time records and reports to be kept.* Records required to be kept and copies of the reports required to be made by any person under these regulations for the 1942–43 marketing year shall be kept by him until September 30, 1944, and for such longer period of time as may be requested in writing by the Chief of the Marketing Quota Section.

PART 721—CORN

MARKETING QUOTAS—1942

By the Secretary of Agriculture of the United States of America a Proclamation.

Whereas the Agricultural Adjustment Act of 1938, as amended, provides:

Sec. 322. (a) Whenever in any calendar year the Secretary determines from available statistics of the Department, including the August production estimate officially published by the Division of Crop and Livestock Estimates of the Bureau of Agricultural Economics of the Department, that the total supply of corn as of October 1 will exceed the normal supply thereof by more than 10 per centum, marketing quotas shall be in effect in the commercial corn-producing area for the crop of corn grown in such area in such calendar year, and shall remain in effect until terminated in accordance with the provisions of this title.

(b) The Secretary shall determine, on the basis of the estimated average yield of corn in such area for such crop, the acreage in such area which the Secretary determines would make available for the marketing year beginning October 1 a supply of corn (together with the estimated production of corn in the United States outside such area) equal to the normal supply. The percentage which the number of acres of the acreage allotment under Section 328 shall be proclaimed by the Secretary. Such percentage is referred to herein as the "marketing percentage."

(c) The Secretary shall proclaim his determinations of facts under subsection (a) and his determination of the marketing percentage under subsection (b) not later than August 15. (52 Stat. 49, 7 U.S.C. 1322);

And whereas Public Resolution No. 34 (H. J. Res. 342, 76th Congress, First Session), approved July 26, 1939, provides:

• • • that notwithstanding the provisions of section 322 of the Agricultural Adjustment Act of 1938, as amended, the determinations under subsection (c) may be proclaimed at any time prior to September 15, • • •. (53 Stat. 1125, 7 U.S.C. Supp. V, 1322a);

And whereas the Agricultural Adjustment Act of 1938, as amended, contains in section 301 (b) thereof, the following definitions of terms here pertinent:

"Marketing year" means, in the case of the following commodities, the period beginning on the first and ending with the second date specified below:

Corn, October 1—September 30

• • • • • •

"Total supply" of corn • • • for any marketing year shall be the carry-over of the commodity for such marketing year plus the estimated production of the commodity in the United States during the calendar year in which such marketing year begins.

"Normal supply," in the case of corn • • • shall be a normal year's domestic consumption and exports of the commodity, plus 7 percentum in the case of corn, • • • of a normal year's domestic consumption and exports, as an allowance for a normal carry-over.

"Reserve supply level," in the case of corn, shall be a normal year's domestic consumption and exports of corn, plus 10 percentum of a normal year's domestic consumption and exports, to insure a supply adequate to meet domestic consumption and export needs in years of drought, flood, or other adverse conditions, as well as in years of plenty. (52 Stat. 38, 7 U.S.C. 1301);

And whereas said act further provides:

Sec. 304. The powers conferred under this Act shall not be used to discourage the production of supplies of foods and fibers sufficient to maintain normal domestic human consumption as determined by the Secretary from the records of domestic human consumption in the years 1920 to 1929, inclusive, taking into consideration increased population, quantities of any commodity that were forced into domestic consumption by decline in exports during such period, current trends in domestic consumption and exports of particular commodities, and the quantities of substitutes available for domestic consumption within any general class of food commodities. In carrying out the purposes of this Act it shall be the duty of the Secretary to give due regard to the maintenance of a continuous and stable supply of agricultural commodities from domestic production adequate to meet consumer demand at prices fair to both producers and consumers. (52 Stat. 45, 7 U.S.C. 1304);

And whereas said Act provides in section 301 (c), that the latest available statistics of the Federal Government shall be used by the Secretary of Agriculture in making the determinations required to be made by the Secretary under said Act (52 Stat. 38, 7 U.S.C. 1301);

And whereas said Act further provides:

Sec. 371(b). If the Secretary has reason to believe that, because of a national emergency or because of a material increase in export demand, any national marketing quota for corn, wheat, cotton, rice or tobacco should be increased or terminated, he shall cause an immediate investigation to be made to determine whether the increase or termination is necessary in order to effectuate the declared policy of this Act or to meet such emergency or increase in export demand. If, on the basis of such investigation, the Secretary finds that such increase or termination is necessary, he shall immediately proclaim such finding (and if he finds an increase is necessary, the amount of the increase found by him to be necessary) and thereupon such quota shall be increased, or shall terminate, as the case may be.

And whereas, by proclamation, dated September 18, 1941, issued by Claude R. Wickard, Secretary of Agriculture, pursuant to section 327 of said Act, the commercial corn-producing area for the calendar year 1942 was ascertained and proclaimed;

And whereas, by proclamation, dated March 3, 1942 issued by Claude R. Wickard, Secretary of Agriculture, pursuant to section 322 of said Act, the acreage allotment of corn for the commercial corn-producing area for the calendar year 1942 was ascertained and proclaimed to be 41,338,000 acres.

Now, therefore, be it known that I, Claude R. Wickard, Secretary of Agriculture of the United States of America, acting under and pursuant to, and by virtue of, the authority vested in me by the Act of Congress, known as the Agricultural Adjustment Act of 1938, as amended, upon the basis of the latest available statistics of the Federal Government, do hereby determine and proclaim, under section 322 of said Act, as amended by said Public Resolution No. 34, approved July 26, 1939;

§ 721.305 *Determinations relating to corn marketing quotas for 1942.* (a) That the total supply of corn for the marketing year commencing October 1, 1942 is 3,516,000,000 bushels.

(b) That the normal supply of corn for the marketing year commencing October 1, 1942, is 3,149,000,000 bushels.

(c) That the reserve supply level of corn for the marketing year commencing October 1, 1942, is 3,237,000,000 bushels.

(d) That the marketing quota level of corn for the marketing year commencing October 1, 1942, is 3,464,000,000 bushels.

(e) That the total supply of corn, as of October 1, 1942, will exceed the normal supply thereof by more than 10 per centum. However, in view of the existing national emergency and the provisions of section 371 (b) of said Act, marketing quotas will not be in effect with respect to the 1942 crop of corn.

Done at Washington, D. C. this 16th day of September 1942.

Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1308]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING RELIEF, ETC.

Memorandum opinion and order granting further relief in the matter of the petition of District Board No. 8, for the provisions in the schedule of effective minimum prices for District No. 8 For All Shipments Except Truck, permitting the absorption of the C. & O. Railroad switching charge applicable on shipments from Freight Origin Group No. 63 to the C. C. & O. Railroad for off-line railroad locomotive fuel.

This proceeding was originally instituted upon a petition filed with the Bituminous Coal Division by the Bituminous Coal Producers Board for District No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, in behalf of Caudill-Ward Coal Company, a code member producer in District No. 8. Petitioner proposed, sought, and, on May 8, 1942, 7 F.R. 3469, was granted an addition to the special prices established by the Schedule of Effective Minimum Prices for District No. 8 (High Volatile section IV), for All Shipments Except Truck, in § 328.13 (c) (2) (iii) (b) as follows:

Mines in Freight Origin Group No. 63 (C. & O. only), may deduct $6.93 per car switching charge on coal sold for off-line railroad locomotive fuel to the CC&O Railroad.

On August 31, 1942, District Board No. 8 filed a motion for further consideration and for further relief requesting that the Acting Director issue an order effecting a modification of his order of May 8, 1942, to the effect that the provisions added by such Order to High Volatile section IV, § 328.13 (c) (2) (iii) (b) in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck to read as follows:

Mines in Freight Origin Group No. 63 (C&O only) may deduct $7.35 per car switching charge on coal sold for off-line railroad locomotive fuel to the CC&O Railroad.

At the time the original petition was filed in Docket No. A-1308 tariff schedules as of that date required the payment by mines in Freight Origin Group No. 63 (C&O only), and particularly Federal Mine (Mine Index No. 202) of Caudill-Ward Coal Company, of a switching charge of $6.93 per car on shipments of off-line railway locomotive fuel produced at such mines from the C&O Railway tracks to the CC&O Railroad tracks at Elkhorn City, Kentucky, for use by the CC&O Railroad. The Acting Director, by an Order of May 8, 1942, 7 F.R. 3469, found that mines in Freight Origin Group No. 63 (C&O only), should be permitted to deduct such switching charge on coals sold for off-line railroad locomotive fuel to the CC&O Railroad under the standards of the Bituminous Coal Act in order to preserve fair competition with other producers shipping coals for locomotive fuel use to that railroad.

Shortly before the hearing of March 17, 1942, Agent W. S. Curlett published a tariff designated as I. C. C. No. A-742 (Tariff of Increased Rates and Charges No. X-148), and Supplement No. 10 thereto, which, in effect, increased the switching rate of $6.93 per car of coals shipped from mines in Freight Origin Group No. 63 (C&O only), for off-line railroad locomotive fuel to the CC&O Railroad, to $7.35 per car. Such increase in the switching charges, of which petitioner had no knowledge until recently, became effective March 18, 1942, and is still in effect.

Since March 18, 1942, mines in Freight Origin Group No. 63 (C&O only), and particularly Federal Mine of Caudill-Ward Coal Company, have been permitted to adjust the minimum f. o. b. mine prices upon shipments of off-line railroad locomotive fuel to the CC&O Railroad by deducting only $6.93 per car therefrom, whereas the actual deduction required to place the producer of such coals upon a fair competitive basis with the producers of comparable coals delivered to the CC&O Railroad from mines located on the tracks of that railroad in the vicinity of Elkhorn City, Kentucky, has been and is now $7.35.

On the basis of the foregoing, it is apparent that the relief should be granted in order to effectuate the purposes of section 4 II (a) and 4 II (b) of the Act and to comply in all respects with the standards thereof.

Now, therefore, it is ordered, That effective fifteen (15) days from the date

of this Order the amendment effected in § 328.13 (c) (2) (iii) (*b*) (*Special prices—Railway locomotive fuel—For off-line railways—Adjustments to off-line railway locomotive fuel prices*) in the Schedule of Effective Minimum Prices for District No. 8, High Volatile section IV, for All Shipments Except Truck by the Order of May 8, 1942, herein, be and the same hereby is deleted and in lieu thereof the following amendment to the said Schedule is adopted:

Mines in Freight Origin Group No. 63 (C&O only) may deduct $7.35 per car switching charge on coals sold for off-line railroad locomotive fuel to the CC&O Railroad.

Dated: September 16, 1942.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER CORRECTING TYPOGRAPHICAL ERRORS

Order correcting typographical errors in order of July 31, 1942 in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

An Order Granting Temporary Relief and Conditionally Providing for Final Relief was issued in the above-entitled matter on July 31, 1942, 7 F.R. 6245.

Although the original order was correct, in the process of duplication the price classifications of "B" and "C" in Size Groups 24 and 25 for the coals of the Garco No. 2 Mine (Mine Index No. 5649) of Garmeada Coal Company for shipment to destinations other than Great Lakes were inadvertently changed to "D" and "B", respectively, in Supplement R–I annexed to and made part of the order. The correct classifications are "B" and "C".

Accordingly, § 328.11 (*Alphabetical list of code members*) is corrected by inserting in Supplement R–I set forth and made a part of Order issued in the above-entitled matter on July 31, 1942, price classifications "B" and "C", respectively, in Size Groups 24 and 25 for the coals of the Garco No. 2 Mine (Mine Index No. 5649) of Garmeada Coal Company for shipment to destinations other than Great Lakes.

Dated: September 16, 1942.

(2) "Fluorescent lamp" means any hermetically-sealed electric discharge lamp or tube (other than a cold-cathode tube) in which the radiant energy from the electric discharge is converted by suitable phosphor coatings into visible wave lengths.

(3) "Glow discharge lamp" means any hermetically-sealed electric discharge lamp or tube (other than a fluorescent lamp) containing gases or vapors and designed to operate at impressed voltages of less than one thousand volts to produce visible light.

(4) "Manufacturer" means any person who produces or assembles any incandescent, fluorescent or glow discharge lamp or part therefor, or who coats, etches or otherwise marks any such lamps for use by any other person.

SCHEDULE A TO LIMITATION ORDER L–28–a

General explanations

Except to fill orders expressly excepted by Limitation Order L–28–a, a manufacturer, on and after November 1, 1942, may produce only those incandescent, fluorescent, and glow discharge lamps listed on this schedule. Manufacturers under this schedule are permitted to produce any of the lamps listed on this schedule subject to the specific instructions below.

The terms and abbreviations used in this schedule are those standard manufacturers' terms on file with the United States Department of Commerce, National Bureau of Standards, except as otherwise mentioned herein.

Specific instructions

No manufacturer may produce lamps described on a single line of this schedule which differ in respect to the following specifications:

(a) Design life.
(b) Light center length.
(c) Over-all length.
(d) Filament construction.

The following comments refer to the headings of the columns in this schedule:

Volts: When more than one figure appears in this column, separated by commas, as "115, 120, 125", a manufacturer may produce lamps capable of use on each of the voltages listed. When a range of volts appear, such as "3–125", only one type of lamp may be produced by a manufacturer, and it must be capable of satisfactory operation within the whole range of voltages specified. When more than one figure appears in this column, separated by a diagonal, thus "1.88/2", the lamp must contain at least two filaments, each of which will operate at one of the specified voltages.

Watts: When the letter "A" appears as a suffix in this column, it refers to ampere ratings rather than to watts. When the letters "C. P." appear in this column, the rating given is in candle power rather than in watts. When more than one figure appears in this column, separated by one or more diagonals, thus "30/6", the lamp must contain two or more filaments which, separately or together, will operate at all the specified wattages, candle powers or amperes.

Base: A manufacturer may produce incandescent lamps for export having any of the following special bases, provided that such lamps conform in all other respects to this Schedule:

Single contact medium bayonet (No. 1202)
Double contact medium bayonet (No. 810)
Export medium screw (No. 1844), and
Export mogul screw (No. 1823).

In all other cases a manufacturer may use only one type of base for lamps appearing on a single line of this Schedule,

[1] 6 F.R. 6643.
[2] 7 F.R. 7237.
[3] 7 F.R. 7310.

except that when a bayonet candelabra base is specified, a manufacturer may use single contact or double contact bases or both.

Description: A manufacturer may produce lamps described on a single line of this Schedule with each of the finishes specified in this column. A manufacturer may not use more than one kind of any finish specified for lamps described on a single line of this Schedule, except that where "diffusing" is listed, he may use a clear glass bulb also. Where no finish is specified, a clear glass bulb must be used.

"Diffusing" means having a translucent bulb which is substantially white when illuminated.

"Blackout Lamp" means a lamp having a lumen output of less than 1 Lumen per Watt, with an opaque coating of more than 50% of the external or internal glass surface.

The following is an explanation of some of the abbreviations which appear in this column:

DY—Clear Daylight and Diffusing Daylight,
DF—Diffusing - Side Reflector and Clear-Side Reflector,
NS—Clear Silvered Neck and Diffusing Silvered Neck,
SB—Clear Silvered Bowl and Diffusing Silvered Bowl,
WP—Clear White Bowl.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

DISTRICT BOARD 15

ORDER GRANTING RELIEF, ETC.

In the matter of the petition of District Board No. 15 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 15. In the matter of the petition of District Board No. 15 for the establishment of price classifications and minimum prices for the coals of the Moss & Hill No. 2 Mine and the Floyd Mine.

Memorandum Opinion and Order severing Docket No. A-1559 Part II from Docket No. A-1559 and granting temporary relief in Docket No. A-1559 Part II.

The original petition in the above-entitled matter filed with this Division on July 28, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, prays for the establishment of temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 15.

As indicated in a separate order entered in Docket No. A-1559, a reasonable showing of necessity has been made for the granting of the relief prayed for by the petitioner, except with respect to the establishment of permanent price classifications and minimum prices for the coals of the Moss & Hill No. 2 Mine (Mine Index No. 1627) of code member Moss & Hill (E. M. Moss) and the Floyd Mine (Mine Index No. 1623) of code member Floyd Rouse in Production Group 3 in District No. 15.

It appears that the coals of the Moss & Hill #2 Mine, located in Putnam County, Missouri, and the Floyd Mine, located in Adair County, Missouri, possess marketing factors and qualities similar to those of other coals heretofore classified and priced and presently being produced in those respective counties and that the minimum prices for the coals of the above-named mines, in the respective size groups, should correspond with those in effect for other coals produced in the same county for shipment by truck into all market areas. The coals produced in Adair County, Missouri, and presently subject to the temporary minimum prices set forth in the Order entered October 29, 1940, granting temporary relief in Docket No. A-58. An analysis of the Moss & Hill #2 Mine and the Floyd Mine and that their permanent classification and prices should await final determination of the related issues raised in Docket Nos. A-58, A-179 and A-492.

Now, therefore, it is ordered, That the portion of Docket No. A-1559 relating to the coals of the Moss & Hill #2 Mine (Mine Index No. 1627) of code member Moss & Hill and the Floyd Mine (Mine Index No. 1623) of code member Floyd Rouse be, and it hereby is, severed from the remainder of that docket and designated as Docket No. A-1559, Part II.

It is further ordered, That pending final disposition of Docket No. A-1559, Part II, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 15 For Truck Shipments is supplemented to include the price classifications and minimum prices set forth below for the coals of the Moss & Hill #2 Mine (Mine Index No. 1627) operated by code member Moss & Hill and the Floyd Mine (Mine Index No. 1623) operated by code member Floyd Rouse for shipment by truck to all market areas:

5. Nothing herein shall be construed to limit the powers conferred upon the Price Administrator by the "Emergency Price Control Act of 1942."

6. Any provision of any Executive Order conflicting with this order is superseded to the extent of such conflict.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. 499, Supp. No. 7]

PART 301—DOMESTIC QUARANTINE NOTICES

JAPANESE BEETLE ADMINISTRATIVE INSTRUCTIONS MODIFIED

Introductory note. Experiments with methyl bromide dissolved in water and applied to specified soil areas have resulted in the development of new methods for treating the soil of areas free from plants and of individual items of nursery stock in field rows. The application of this treatment in meeting the requirements of the Japanese beetle quarantine must be conducted under the supervision of an inspector of the Division of Japanese Beetle Control, 266 Glenwood Avenue, Bloomfield, N. J., and in accordance with detailed instructions furnished by him.

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by §§ 301.48-6 and 301.48-7, Chapter III, Title 7, Code of Federal Regulations [regulations 6 and 7 of the rules and regulations supplemental to Notice of Quarantine No. 48], paragraphs (k) and (m) of § 301.48b [circular B. E. P. Q. 499, issued June 9, 1939], as amended, are hereby further amended effective September 18, 1942, by the addition of the following subparagraphs:

§ 301.48b *Administrative instructions to inspectors on the treatment of nursery products, fruits, vegetables, and soil, for the Japanese beetle.* * * *

TREATMENT OF SOIL IN ABSENCE OF PLANTS

* * * * *

(k) *Soil in and around coldframes, plunging beds, and heeling-in areas.* * * *

(6) *Methyl bromide solution*—(i) *Season.* The treatment can be applied at any time when conditions are suitable between October 1 and May 15.

(ii) *Equipment.* Equipment includes a gastight drum, complete with spigot and hose, methyl bromide applicator, collars when necessary, and measuring cans. Such equipment must be inspected, tested, and approved by an inspector of the Department before use.

(iii) *Preparation of solution.* The solution must be prepared in accordance with the directions of the inspector.

(iv) *Condition and type of soil.* Soil of any type may be treated provided the surface can be pulverized sufficiently to absorb the solution. To prepare a well pulverized surface, areas to be treated must be leveled and thereafter cultivated to loosen the soil to a depth of at least 1 inch. The treatment must not be applied during rain. The surface of wet soil should be tilled, allowed to dry for at least 24 hours, and then pulverized preparatory to treatment.

(v) *Dosage and application.* The dosage shall be at the rate of 3 gallons of solution per 1 square yard. The strength of the solution shall be based on the minimum soil temperature within the top 6 inches as follows:

Minimum soil temperature in top 6 inches (°F.):	*Percentage concentration by volume of methyl bromide*
47 to 56, inclusive	0.150
57 to 67, inclusive	0.100
68, and over	0.050

The surface must be divided by strings or marks in the soil into units of approximately 1 square yard. The solution is to be applied uniformly in a crisscross pattern to the soil surface from the spout of a sprinkling can or other vessel with a similar spout, held no more than 6 inches above the soil surface.

(vi) *Safety zone.* In addition to the area desired to be certified, a strip 3 feet wide must be treated around the entire coldframe, plunging bed, or heeling-in ground. No plants will be certified from this strip. In the case of coldframes, etc. extending into the ground to a depth of 12 inches or more, no safety zone is required.

(vii) *Marking.* In the case of coldframes, etc. having fixed boundaries, proper designations will be made on them by the inspector. In all other cases the nurserymen shall furnish suitable stakes, at least 4 inches square and 30 inches long, to be placed at the boundaries of the certified plots and marked by the inspector.

(viii) *Period of treatment.* The area must remain undisturbed for a period of 48 hours after treatment.

(ix) *Alternative treatment.* If 1-square-yard collars are used in treating frames, plunging beds, and heeling-in areas, the dosages and methods of procedure listed below for treatment of soil about the roots of plants may be used.

* * * * * *

TREATMENT OF SOIL ABOUT THE ROOTS OF PLANTS

* * * * * *

(m) *Treatment of plants before digging.* * * *

(3) *Methyl bromide solution, collar treatment*—(i) *Season.* The treatment can be applied at any time when conditions are suitable between October 1 and May 15.

(ii) *Equipment.* The equipment required is the same as that under "Treatment of Soil in Absence of Plants" (subparagraph (6) of paragraph (k)) except that collars are necessary.

(iii) *Preparation of solution.* The required solution must be prepared in accordance with the directions of the inspector.

(iv) *Dosage, solution, concentration, and soil temperatures.* The dosage is at the constant rate of 3 gallons per square yard. The percentage concentration of methyl bromide in solution, by volume, is dependent upon the minimum soil temperature within the top 6 inches, as follows:

Minimum soil temperature in top 6 inches (°F.):	*Percentage concentration of methyl bromide*
47 to 51, inclusive	0.100
52 to 56, inclusive	0.075
57 to 62, inclusive	0.050
63 to 67, inclusive	0.040
68 to 72, inclusive	0.025
73 and over	0.015

(v) *Condition and type of soil.* There are no limitations so long as there is no standing water on the area to be treated and all of the solution enters the soil within 30 minutes after application.

(vi) *Preparation of collar areas.* The area must be free from weeds and debris and must be practically level. Leveling can be expedited by filling in and subsequent tamping to produce a uniformly packed subsurface for the application. The entire surface of the collar about the plant treated must be loosened to a depth of 1 inch. The collar should be set so that the solution will not break out beneath or through it.

(vii) *Safety area.* The collar must be of sufficient size so that a safety margin of soil of at least 2 inches all around remains when the treated nursery stock unit is dug for balling.

(viii) *Withdrawal and application of solution.* The solution is to be withdrawn from the preparation-drum through a hose extending to the bottom of the dosage-measuring vessel. It must be poured from the open top of the vessel onto the collar area quickly and without unnecessary splashing. Immediately thereafter the soil within the collar must be smoothed off without splashing so that the entire surface is uniformly submerged.

(ix) *Use period.* If the drum is tightly sealed between dosage withdrawals, the solution may be used at any time within 24 hours after preparation. While in storage between treatments within this period the drum must be shaded.

(x) *Treatment period.* The plants must be dug not less than 20 hours or more than 48 hours after treatment.

(xi) *Plant reactions.* The Department's records on plant reactions to the treatment are limited. Such information as is available will be supplied on request to the Division of Japanese Beetle Control. All interested nurserymen are advised to run test lots of their own stock for observation. So far as possible, the Department will cooperate in this testing on written request to the Division of Japanese Beetle Control, 266 Glenwood Avenue, Bloomfield, N. J.

(xii) *Precautions.* Directions as to precautions may be obtained from the above Division and should be observed.

[B. E. P. Q. 499—Supp. No. 1, Sixth Revision]

PART 301—DOMESTIC QUARANTINE NOTICES

JAPANESE BEETLE ADMINISTRATIVE INSTRUCTIONS MODIFIED

Introductory note. Two new schedules for methyl bromide fumigation of potted or bare-rooted plants are provided in this revision of supplement No. 1. These two treating schedules, at lower temperatures than have heretofore been

authorized, are Nos. 8 and 9 in the table under subdivision (i). The instructions as to fumigation of packaged plants are carried forward in this revision of the supplement.

§ 301.48b *Administrative instructions to inspectors on the treatment of nursery products, fruits, vegetables, and soil, for the Japanese beetle; treatment authorized.* Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by § 301.48–6, Chapter III, Title 7, Code of Federal Regulations [regulation 6 of the rules and regulations supplemental to Notice of Quarantine No. 48], paragraph (i) (5) of § 301.48b [on page 13 of the mimeographed edition of circular B.E.P.Q. 499, issued June 9, 1939] is hereby further modified effective September 18, 1942, to read as follows:

TREATMENT OF SOIL ABOUT THE ROOTS OF PLANTS

* * * * *

(i) *Treatment of plants after digging.* * * *

(5) *Methyl bromide fumigation—Equipment.* An approved fumigation chamber equipped with vaporizing, air-circulating, and ventilating systems must be provided.

Application. After the chamber is loaded, the methyl bromide must be vaporized within it. The air within the chamber must be kept in circulation during the period of fumigation. At the completion of the treatment, the chamber must be well ventilated before it is entered and the plants removed. The ventilating system should also be in continuous operation during the entire period of removal of the fumigated articles.

(i) *Fumigation of plants, with or without soil—(a) Temperatures, periods of treatment, and dosages.* The temperature of the soil (with bare root stock, the root spaces) and of the air for each type of treatment must remain throughout the entire period of treatment at the minimum specified in the following table, or higher:

Temperature at least	Period of treatment	Dosage (methyl bromide per 1,000 cubic feet)
	Hours	*Pounds*
1. 73° F.	2½	1½
2. 67° F.	2½	2
3. 63° F.	2½	2½
4. 60° F.	3	2½
5. 57° F.	3½	2½
6. 54° F.	4	2½
7. 50° F.	4½	2½
8. 46° F.	4	3
9. 43° F.	4½	3

The dosage shall be for each 1,000 cubic feet including the space occupied by the load.

(b) *Preparation of plants.* The treatment is to be applied to plants with bare roots or in 14-inch pots or smaller, or in soil balls not larger than 14 inches in diameter nor thicker than 14 inches when not spherical. The soil should not be puddled or saturated and must be in a condition which in the judgment of the inspector is suitable for fumigation. The plants should be stacked on racks or separated so that the gas can have access to both top and bottom surfaces of pots or soil balls. While not essential that the balls be completely separated from each other they should not be jammed tightly together.

(c) *Packaged plants.* Boxed or wrapped plants in packages not more than 14 inches in diameter may be fumigated at any one of the above nine temperatures, periods of treatment, and schedules. In order that the fumigant may have access to the roots and soil masses about the roots, the wrapping shall not be tightly closed.

(d) *Varieties of plants.* The list of plants, including greenhouse, perennial, and nursery-stock types treated experimentally, is subject to continual expansion and, moreover, is too great to include in these instructions.

The schedule for the fumigation of strawberry plants as specified in subparagraph (5) (ii) of paragraph (i) of § 301.48b [page 14 of the mimeographed edition of circular B. E. P. Q. 499] remains the same as heretofore.

(Sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 161.)

This supplement supersedes Supplement No. 1—revised effective April 23, 1942.

Done at Washington, D. C., this 16th day of September 1942.

[Docket No. A–1481, Part II]

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

J. A. GARRETT—SUPREME BLACK CREEK COAL CO.

Findings of fact, conclusions of law, and memorandum opinion and order in the matter of the petition of District Board No. 13 for the revision of price classifications and minimum prices for the coals of the Happy Hollow Mine (Mine Index No. 326) of J. A. Garrett and for the establishment of price classifications and minimum prices for coals of the Cross Roads Mine (Mine Index No. 171) of Supreme Black Creek Coal Company, Inc., for all shipments except truck.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on June 1, 1942, by District Board No. 13, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the establishment of price classifications and minimum prices of the coals produced at Mine Index No. 171 and a revision of the classification and minimum prices of the coals produced at Mine Index No. 326.

On July 6, 1942, 7 F. R. 5697, the Acting Director issued an order separating from Docket No. A–1481 and designating as Docket No. A–1481 Part II, that portion of the docket relating to Mine Index Nos. 326 and 171. Temporary price classifications and minimum prices were established for Mine Index No. 171 by Order of the Acting Director under date of July 6, 1942, 7 F. R. 5697. Pursuant to an order and after due notice to interested parties, a hearing in this matter was held on August 4, 1942, before Edward J. Hayes, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. Interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner, District Board No. 13, appeared. Preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

1. *The Happy Hollow Mine.* The petitioner requests the reduction in minimum prices for the Happy Hollow Mine (Mine Index No. 326). This mine was included in the original truck price schedule as Happy Hollow Coal Company, A. C. Higginbotham, Mary Lee Seam, and priced accordingly. It was later taken over by the partnership of Garrett and Whitten and application was made for rail prices. An analysis submitted showed 7 per cent ash content and B. t. u. content of about 14,200. It was on the basis of this analysis that prices were established in Docket No. A–894, 6 F. R. 3472, for the coals of this mine.

In April 1942, the producer, claiming that he was unable successfully to market his coals at the established prices, furnished a more complete analysis of the mine run coal produced at the mine. This showed an ash content of some 15 to 20 per cent. N. E. Cross, Secretary of District Board No. 13, testified that coal with such high ash content is similar to the Mary Lee Seam coals, the poorest quality coal in the district, and price should be correlated with Mine Index Nos. 46 and 47 producing similar coal in this area. Based on the uncontroverted evidence of record I find that a reduction of the prices previously established for the coals of the Happy Hollow Mine is proper in order to reflect the market value of this coal and its relationship to other coals in the district.

2. *Cross Roads Mine.* When rail prices were first considered for the Cross Roads Mine, Mine Index No. 171, L. B. Baird, the producer, requested shipping points at Natural Bridge, Alabama, and Eldridge, Alabama, 6 and 8½ miles, respectively, from the mine, and these shipping points were assigned in Docket No. A–1049, Part II by an order issued March 17, 1942, 7 F.R. 2343. The present owner, the Supreme Black Creek Coal Company, Inc., now requests one shipping point, Natural Bridge, Alabama, on the Southern Railroad and asks that price classifications and minimum prices for Size Groups Nos. 7, 19, 20, 21, 22 and 26 for all shipments except truck from Natural Bridge, Alabama, be established, that those size group classifications and prices previously granted be applicable only when shipped from Natural Bridge, Alabama, and that Eldridge, Alabama, no longer be a shipping point for the Cross Roads Mine. N. E. Cross, Secretary of District Board No. 13, testified that the present owner has never used the Eldridge shipping point and recommended that it no longer apply to this mine. Since the producer and district board agree that this mine have assigned only one shipping point, there is no objection to deleting from the schedule Eldridge as a permissible shipping point for this mine.

On the basis of the uncontroverted evidence I find that the establishment of effective price classifications and minimum prices requested are proper and will effectuate the purposes of section 4 II (a) and (b) of the Act and will comply with all the standards thereof.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date of this order, § 333.6 (*General prices*) is amended by adding thereto Supplement R which supplement is hereinafter set forth and hereby made a part hereof.

Dated: September 11, 1942.

[SEAL] DAN H. WHEELER, *Acting Director.*

NOTE: The material contained in this Supplement R is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 333, Minimum Price Schedule for District No. 13 and supplements thereto.

(1) *"Model"* as used in the following Tables 1, 2, 3, 4, 5, 6, 7, 9, and 10 shall designate one combination of saw details. Such details as are not specified may be selected by the manufacturer, provided that the different combinations of details for a given kind and grade of saw do not exceed the number of models to which such saw is limited.

(2) *"Gages"* as referred to in the following Tables are Birmingham or Stubs' wire gages, and are subject to commercial tolerances.

(3) *"Length & Width of Blades"* as referred to in the following Tables 1, 2, 3, 4, 5, 6, 7a, 8, 9, and 10 are subject to commercial tolerances, except where minima and maxima are specified.

(4) *Elimination of all Alloy Steel.* No producer shall use any alloy steels in the manufacture of any manually operated wood or special purpose saw except (a) upon approval of the Director General for Operations of a written application for the use of such alloy steel, or (b) such alloy steels as may be in the possession of a producer on the 18th day of September 1942.

[2] For the purposes of this schedule grades are defined as shown in the section immediately following entitled *grades of handsaws.*

GRADES OF HANDSAWS

A-Grade. Blades shall be of best quality selected saw steel, free from dirt, segregation, and inclusions. The steel shall be cross rolled and show a fine fracture grain. The carbon content shall be not less than 0.80, or more than 0.95 percent; phosphorus and sulphur not more than 0.035 percent, and silicon not less than 0.15 percent. The blade shall be tempered to a Rockwell hardness of not less than C48 or more than C52.

The blade shall be true and full taper ground, i. e., uniform in thickness along the entire length of the cutting edge, tapered in thickness from the tooth edge to the back and along the back from the handle to the point. This taper is to be uniform and not less than 4 gages. The thickness of the cutting edge shall be not less than 0.032 in. or more than 0.042 in., and the thickness of the back at the handle not less than the cutting edge.

The teeth of cross cut saws shall be bevel filed, and the teeth of rip saws, filed straight through. The teeth shall be set, but the set shall not extend more than one-half the depth of the tooth.

Handles shall be of suitable hardwood, properly seasoned, and free from cracks, checks, and other defects, and shall be given a protective coating to aid in preventing warping, swelling, or shrinkage. Handles shall be fastened to blades with not more than 5 steel screws.

The blade of each saw shall be permanently branded to permit its identification.

B-Grade. Blades shall be of standard quality steel free from dirt and inclusions, and shall show a fine fracture grain. The carbon content shall be not less than 0.70, or more than 0.95 percent, phosphorus and sulphur not more than 0.040 percent, and silicon not less than 0.15 percent. The blade shall be tempered to a Rockwell hardness of not less than C46, or more than C48.

The blade shall be taper ground, uniform in thickness along the entire length of the cutting edge, tapered in thickness from the tooth edge to the back and along the back from the handle to the point. This taper is to be uniform and not less than 2 or more than 3 gages. The back at the handle shall not be thinner than the cutting edge.

The teeth of both cross-cut and rip saws to be filed and set, but the set shall not extend more than one-half the depth of the tooth.

The handle shall be of seasoned hardwood, free from cracks, checks, or other defects, shall be given a protective coating to aid in preventing warping, swelling, and shrinkage, and shall be fastened to the blade with not more than 4 steel screws.

The blade of each saw shall be permanently branded to permit its identification.

C-Grade. Blades shall be of suitable quality steel, with carbon content of not less than 0.70 percent, and free from injurious surface imperfections. The blade shall be tempered to a Rockwell hardness of not less than C42 or more than C46.

The blade shall be flat ground to the same gage throughout.

The teeth shall be filed and set, but the set shall not extend more than one-half the depth of the tooth.

The handle shall be of any suitable, seasoned hardwood, protected by a coat of varnish or other suitable material, and shall be fastened to the blade with not more than 4 steel screws or tubular rivets.

The blade of each saw shall be permanently branded to permit its identification.

Private brands. The blades of all handsaws manufactured for distribution under private brands shall have the qualities speci-

fied above, and shall be permanently branded to permit their identification. The handles of such saws may vary in design from the manufacturers' standard, provided that no manufacturer shall make, for any saw distributed under private brands, more than 3 different designs of handles in addition to his standard handles.

[1] The figures in this column designate the maximum different combinations of characteristics in which a given class and length of saw may be made by a single manufacturer, subject to the qualifications given below. The characteristics referred to are (1) grade, (2) type of teeth, (3) amount of taper (including flat ground as zero taper), (4) gage of cutting edge, (5) width, and (6) breast.
In other words, any variation in any one of the above characteristics as between two saws of the same class and length would make them different saws. They might, of course, differ in all those characteristics.
Saws of classes 2, 5, and 7 are permitted to be made in two types of teeth, and saws of class 6, in three types of teeth. If a manufacturer elects to make them in only one type of teeth, he shall not make more than two different saws in each length in these classes. Thus, no saw shall be made in more than two different grades.
Saws of the same class and length and type of tooth, but of different grade or gage, may vary slightly in width, provided the total different saws of a given class and length does not exceed the figure given in column 6.

PART 2021—CRYOLITE

[General Preference Order M–198]

The fulfillment of requirements for the defense of the United States and the need for adequate reserves occasioned by the uncertainty of future shipments from abroad, have created a shortage in the supply of cryolite for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense, *It is hereby ordered*, That:

§ 2021.1 *General Preference Order M–198*—(a) *Definitions.* For the purposes of this order:

(1) "Cryolite" means the natural ore of sodium aluminum fluoride, any product refined from this ore, and also all forms of synthetic cryolite.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(3) "Producer" means a refiner of natural cryolite or a producer of synthetic cryolite.

(4) "Director" means the Director General for Operations of the War Production Board.

(b) *Limitation on receipt and use of cryolite.* After the effective date of this order, no person shall receive any cryolite, except for use as insecticide, or use any cryolite, except as insecticide, unless such receipt or use, or both, is specifically authorized by the Director.

(c) *Limitation on delivery of cryolite.* After the effective date of this order, no producer shall deliver any cryolite to any person unless such delivery shall have been authorized by the Director. After the effective date of this order, no person, other than a producer, shall deliver any cryolite to any person unless such delivery shall have been authorized by the Director or unless the cryolite is to be used as insecticide.

(d) *Application for authorization to receive, use, or deliver cryolite, except as insecticide.* Any person who wishes to be authorized to receive cryolite, except for use as insecticide, or to use cryolite, except as insecticide, shall request such authorization by filing Form PD–592 in quadruplicate, or such other form as may be required, with the Aluminum and Magnesium Branch, War Production Board. Two copies of the form will be forwarded by the War Production Board to the supplier if authorization to receive and use cryolite is granted, and receipt of this form by the supplier will constitute authorization to make the indicated deliveries, and authorization to the applicant to use cryolite as indicated on the form. The supplier upon completing delivery of the material covered by the authorization, shall return one copy thereof to the Aluminum and Magnesium Branch, War Production Board, indicating deliveries made. If authorization is granted to the applicant solely to use cryolite, a copy of the form will be returned to the applicant and receipt of the copy will constitute authorization to use the cryolite as indicated on the form. Applications for authorization to use stocks on hand should be made separately from applications for authorization to both receive and use cryolite.

(e) *Application by a producer for authorization to deliver cryolite to be used as insecticide.* A producer seeking authorization to deliver any cryolite for use as insecticide shall apply for written authorization to do so by letter addressed to the War Production Board, Aluminum and Magnesium Branch, Washington, D. C., Ref: M–198, stating the quantity and grade of cryolite he proposes to deliver.

(f) *Special reports.* Any person applying for authorization to receive or use cryolite, except as insecticide, for the first time shall file with the Aluminum and Magnesium Branch of the War Production Board, within 15 days of such application, duplicate copies of Form PD–632 (except that any person who has already filed Form WPB–1183 with the Aluminum and Magnesium Branch need fill in on Form PD–632 only Line (A) calling for stocks of cryolite as of June 30, 1942) and any person applying for authorization to receive or use cryolite under paragraph (d) above shall file with the Aluminum and Magnesium Branch of the War Production Board, such information as may be requested from time to time by the Director. No person will be authorized to receive or use cryolite, except as insecticide, if he is in default in furnishing the information required by this paragraph.

(g) *Violations.* Any person who willfully violates any provision of this order or who willfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be deprived of priorities assistance by the Director.

(h) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of Priorities Regulations of the War Production Board, as amended from time to time.

(i) *Communications with War Production Board.* All reports and certifications required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Aluminum and Magnesium Branch, Washington, D. C. Ref: M–198.

(j) *Effective date.* The effective date of this order is October 1, 1942.

PART 3017—BLACKOUT AND DIMOUT LIGHTING FIXTURES

[General Limitation Order L–168]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of copper, iron and steel and other materials for private account, for export and for military needs, and there are blackout and dimout lighting fixtures being manufactured and used which consume large amounts of such metals and other materials and which fixtures do not properly perform the functions of an approved blackout and dimout lighting fixture; therefore, the following order is deemed necessary and appropriate in the public interest and to promote the national war effort.

§ 3017.1 *General Limitation Order L–168*—(a) *Definitions.* For the purposes of this order:

(1) "Lighting fixture" means any equipment or device (whether portable or not) employing any artificial light source, including but not limited to the following:

(i) Street and highway luminaire;
(ii) Traffic signal;
(iii) Flashlight;
(iv) Lantern;
(v) Fluorescent lighting fixture; and
(vi) Incandescent lighting fixture.

(2) "Blackout and dimout lighting fixture" means (i) any lighting fixture held out or intended to be used during a blackout and dimout period, the light from such fixture being controlled by voltage and/or electric current variation and/or by reflection, refraction, shading, shielding, masking, diffusing or hooding; or (ii) any accessory for a lighting fixture such as a switch, transformer, reflector or refractor, shade, shield, mask, diffuser or hood, which accessory is held out or intended to be for use during a blackout or dimout period and which accessory is designed to reduce or control the light from an artificial source.

"Blackout and dimout lighting fixture" does not include any fluorescent tube, incandescent bulb or any other light source, or obscuration materials, nor does it include any device used solely to extinguish light.

(3) "Approved blackout and dimout lighting fixture" means any blackout and/or dimout lighting fixture which has been certified by the Engineer Board of the War Department of the United States to have been manufactured in accordance with specifications prepared and approved by the War Department.

(4) "Obscuration Materials" means any object or material other than a blackout and dimout lighting fixture used to prevent emission or escape of light from a building, a structure or vehicle, or any part of a building, structure or vehicle during a blackout and dimout period.

(5) "Blackout period" means the length of time during which length of time, by order of the proper authorities, all sources of light are extinguished, reduced or controlled in accordance with the commands or regulations of the proper military authority, for the purpose of preventing the detection of any object or locality from the air.

Chapter XI—Office of Price Administration

PART 1346—BUILDING MATERIALS

[Maximum Price Regulation 224]

CEMENT

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purpose of the Emergency Price Control Act of 1942 to replace the general Maximum Price Regulation with a separate regulation establishing as the maximum prices for cement the prices prevailing with respect thereto during the period March 1 to 15, 1942.

The maximum prices established by this regulation are, in the judgment of the Price Administrator, generally fair and equitable and in conformity with the general level of prices prevailing during the period March 1 to 15, 1942. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 224 is hereby issued.

§ 1346.101 *General Maximum Price Regulation and Maximum Price Regulation No. 188 superseded.* The provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188 are superseded by this Maximum Price Regulation No. 224 with respect to sales or deliveries of cement which are subject to this Maximum Price Regulation No. 224: *Provided*, That the provisions of §§ 1499.2 and 1499.3 of the General Maximum Price Regulation shall be applicable in the manner indicated in § 1346.105 of this Maximum Price Regulation No. 224.

An "export sale" is any sale between a seller in the continental United States and a purchaser outside thereof in which the commodity sold is transported from the continental United States to a point outside thereof and includes any sale of a commodity outside the continental United States by an agent of the exporter or by a corporation owned or controlled by the exporter within a period of two years after the date of shipment of the commodity from the continental United States.

§ 1346.103 *Prohibition against sales of cement at higher than maximum prices.* (a) On and after September 23d, 1942, regardless of any contract, lease, or other obligation:

(1) No person shall sell or deliver any cement at a price higher than the maximum price permitted by this Maximum Price Regulation No. 224;

(2) No person in the course of trade or business shall buy or receive any cement at a price higher than that permitted by this Maximum Price Regulation No. 224: *Provided*, That if upon the purchase of any cement, the purchaser shall receive from the seller or supplier a written affirmation that to the best of his knowledge, information, and belief, the prices charged do not exceed the maximum price established by this Maximum Price Regulation No. 224; and if in such case the purchaser shall have no knowledge of the maximum price and no cause to doubt the accuracy of the affirmation, the purchaser shall be deemed to have complied with this section;

(3) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited in subparagraphs (1) and (2) of this paragraph (a).

(b) No war procurement agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 224 or the Emergency Price Control Act of 1942.

§ 1346.104 *Maximum prices for sales and deliveries of cement by manufacturers*—(a) *Maximum prices for cement sold by a manufacturer and shipped within its normal market area.* The maximum price for American Society for Testing Materials Types 1 and 2 Portland cement sold by a manufacturer and shipped within its normal market area, whether the shipment is made f. o. b. mill or on a delivered price basis, shall be such that the cost to the purchaser at the destination for like quantities and classifications of cement similarly packaged is not in excess of what it was or would have been to such purchaser for a delivery to such purchaser completed between March 1 to 15, 1942. Such price shall be calculated upon the basis of the prices, pricing practices, freight practices, trade discounts, charges (including package charges), allowances, and deposits (other than deposits on cloth bags which may be required in a reasonable amount so long as the refund equals the deposit) most favorable to purchasers in effect, published, listed, or quoted by the seller during the period March 1 to 15, 1942, but upon the basis of the freight rates in effect at the time of any shipment made subsequent to September 23d, 1942.

(1) The differentials from the price of American Society for Testing Materials Types 1 and 2 Portland cement which prevailed on March 15, 1942, with respect to American Society for Testing Materials Type 3 Portland cement (high early strength cement), white cement, oil-well cements, masonry cement, and other cement, shall be added to or subtracted from, as the case may be, the maximum selling prices established under this paragraph for American Society for Testing Materials Types 1 and 2 Portland cement, to determine the maximum prices for such other cements.

(2) The maximum prices established under paragraph (a) of this section shall be subject to cash discounts under conditions as favorable as were offered by the seller during the period March 1 to 15, 1942: *Provided*, That during the period of the war emergency a reasonable period of grace sufficient to permit routine handling shall be allowed to any war procurement agency within which to avail itself of the cash discount.

(b) *Maximum prices for cement sold by a manufacturer and shipped outside its normal market area.* (1) The maximum prices for American Society for Testing Materials Types 1 and 2 Portland cement sold by a manufacturer and shipped outside its normal market area shall be, except as provided in subparagraph (2) below, the higher of the following two prices:

(i) A price at the destination not in excess of the maximum price established under paragraph (a) of this section for a sale at such destination by a mill whose normal market area includes such destination.

(ii) A price f. o. b. mill in bulk not in excess of the price listed below in the Bureau of Mines District in which the mill is located.

District No.:	Price per barrel
1 (Eastern Pa., N. J., Md., Dels.)	$1.33
2 (N. Y., Conn., R. I., Mass., N. H., Vt., Maine)	1.36
3 (Western Pa., West Va.)	1.27
4 (Michigan	1.28
5 (Ind., Ill., Wis., Ky.)	1.42
6 (Ga., Ala., Tenn., La., Miss., N. C., S. C., Va., Fla.)	1.44
7 (Eastern Mo., Iowa, Minn., N. D., S. D.)	1.54
8 (Neb., Kans., Okla., West Mo., Ark.)	1.43
9 (Texas)	1.58
10 (Colo., Utah, Mont., Wyoming, N. M.)	1.73
11 (California)	1.43
12 (Oregon, Washington)	1.81

A delivered price may be charged under this provision equal to the f. o. b. mill price plus the freight charges incurred by the manufacturer in making delivery to the point of destination.

(2) A manufacturer may use the alternative pricing method set forth in paragraph (b) above only if (i) the manufacturer indicates on the billing that the price has been determined in accordance with § 1346.104 (b) (2) of this Maximum Price Regulation No. 224; and (ii) the cement is to be sold to a person who will not resell it in the course of trade to a person other than a war procurement agency or a contractor or subcontractor with any war procurement agency for use on a project controlled by any such agency: *Provided*, That the obligations of a manufacturer under this provision will be met if he secures an affidavit from the purchaser that the cement to be purchased will not be resold in the normal course of trade to a person other than a war procurement agency or a contractor or subcontractor with any war procurement agency for use on a project controlled by any such agency, and the manufacturer retains such affidavit in his possession for a period of two years and makes it available for inspection by the Office of Price Administration.

(3) The maximum prices established under this paragraph (b) are subject to the trade discounts, quantity differentials, charges (including package charges), allowances, and deposits (other than deposits on cloth bags which may be required in a reasonable amount so long as the refund equals the deposit) most favorable to purchasers which the manufacturer had in effect, published, listed, or quoted, during the period March 1 to 15, 1942.

(4) The maximum prices under this paragraph (b) may be increased to the extent that a cash discount is offered to purchasers under conditions as favorable as were offered by the seller during the period March 1 to 15, 1942: *Provided*, That during the period of the war emergency a reasonable period of grace sufficient to permit routine handling shall be allowed to any war procurement agency within which to avail itself of the cash discount.

(5) The differentials from the price of American Society for Testing Materials Types 1 and 2 Portland cement which prevailed on March 15, 1942, with respect to American Society for Testing Materials Type 3 Portland cement (high early strength cement), white cement, oil-well cements, masonry cement, and other cement, shall be added to or subtracted from, as the case may be, the maximum selling prices established under this paragraph for American Society for Testing Materials types 1 and 2 Portland cement, to determine the maximum prices for such other cements.

§ 1346.105 *Maximum prices for sales and deliveries of cement by dealers.* The maximum prices for sales and deliveries of cement by dealers shall be prices established in accordance with the provisions of §§ 1499.2 and 1499.3 of the General Maximum Price Regulation, except that:

(a) The maximum price for the sale by a dealer of cement purchased from a manufacturer who established maximum prices in accordance with the provisions of § 1346.104 (b) (2) of this regulation for the cement which the dealer is reselling shall be a price not in excess of the cost of such cement to the dealer plus a dollar margin not higher than the dollar margin which the dealer customarily received in a similar transaction involving like quantities and types of cement between October 1, 1941, and March 31, 1942.

(b) If by reason of freight rate increases occurring after March 17, 1942, the delivered cost to the dealer of the cement he is reselling is in excess of the delivered cost of the cement which he delivered or offered for delivery to establish his maximum price under this paragraph, the dealer may add to his price a sum not in excess of the amount by which such freight rate increase resulted in an increased delivered cost to him: *Provided*, That any dealer who raised his price during the period March 17 to 31, 1942, by an amount sufficient to compensate for any increase in freight rates during such period shall not be entitled to raise his price pursuant to this paragraph.

(c) The maximum prices established under this section shall be reduced to the extent that delivery services or other services furnished by the seller during the period March 1 to 31, 1942, are reduced or eliminated, and shall be subject to cash discounts under conditions as favorable as were offered by the seller during the period March 1 to 15, 1942: *Provided*, That during the period of the war emergency a reasonable period of grace sufficient to permit routine handling shall be allowed to any war procurement agency within which to avail itself of the cash discount.

§ 1346.106 *Less than maximum prices.* Lower prices than those set forth in §§ 1346.104 and 1346.105 may be charged, demanded, paid, or offered.

§ 1346.107 *Federal and state taxes.* Any tax upon, or incident to, the sale of any cement imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for cement and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during the base period.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price in the "base period" the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 224.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum prices under Maximum Price Regulation No. 224.

(b) *As to a tax or increase in a tax which becomes effective after the base period.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1346.108 *Conditional agreements.* No manufacturer of cement shall enter into an agreement permitting the adjustment of the price to prices which may be higher than the maximum prices provided by § 1346.104 or § 1346.105 in the event that this Maximum Price Regulation No. 224 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment or application for adjustment has been duly filed, and such petition or application requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment or application for adjustment. Requests for such an exception may be included in the aforesaid petition for amendment or application for adjustment.

§ 1346.109 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 224 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, or delivery of or relating to cement, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by delivering to a purchaser at a destination other than the ultimate destination, or otherwise.

§ 1346.110 *Records and reports.* (a) Every manufacturer and every dealer making sales or purchases subject to this Maximum Price Regulation No. 224 of cement of the value of $100 or more in any month after September 23d, 1942, shall keep for inspection by the Office of Price Administration for a period of two years, complete and accurate records of every purchase and each sale totaling $50 or more, showing the date thereof, the name and address of the seller or purchaser, the point of shipment and the point of delivery, the price paid or received, together with a statement as to whether it is a price f. o. b. point of shipment or f. o. b. destination, and the quantity, type of package, and classification of cement sold or purchased.

(b) Every manufacturer shall make a report to the Office of Price Administration, Washington, D. C., on or before the fifteenth day of each month, beginning October 15, 1942, setting forth a list of all sales which resulted in cement being shipped to points outside its normal market area during the preceding calendar month, showing the name and address of the purchaser, the point of shipment and the point of delivery, the quantity, type of package, and classification of cement sold, the price charged, and the method of computing such price.

(c) Every dealer shall make a report to the Office of Price Administration, Washington, D. C., on or before the fifteenth day of each month, beginning October 15, 1942, setting forth a list of all sales of cement which were priced under the provisions of § 1346.105 (a) during the preceding calendar month, showing the name and address of the purchaser, the point of shipment and the point of delivery, the quantity, type of package, the classification of cement sold, the cost to the dealer, and the price charged.

(d) On or before October 15, 1942, every manufacturer of cement shall file with the Office of Price Administration, Washington, D. C., a map of the United States (which will be furnished by the Office of Price Administration) setting forth the information required by the instructions accompanying such map.

(e) Persons affected by this Maximum Price Regulation No. 224 shall submit such other reports to the Office of Price Administration as it may from time to time require.

§ 1346.111 *Licensing.* The provisions of Supplementary Order No. 18 (§ 1305.22) Licensing Persons Selling Lumber, Lumber Products or Building Materials, are applicable to every person (except mills, manufacturers, or producers) making sales of cement for which maximum prices are established by this regulation. The term "producers" when used in this section shall have the meaning given to such term by Supplementary Order No. 224.

§ 1346.112 *Petition for amendment or adjustment*—(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a contract with any war procurement agency or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of cement which is essential to the war program and which is or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum prices established by this Maximum Price Regulation No. 224 in accordance with Procedural Regulation No. 6,[1] issued by the Office of Price Administration.

(b) *Adjustment of abnormally low* Administration, or any duly authorized officer thereof, may by order adjust the maximum price established under this Maximum Price Regulation No. 224 for any seller of cement in any case in which such seller shows:

(1) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of cement; and

(i) That establishing for him a maximum price bearing a normal relation to the maximum prices established for competitive sellers of cement will not cause or threaten to cause an increase in the level of retail prices.

(ii) Applications for adjustment under this paragraph (b) shall be filed in accordance with Procedural Regulation No. 1 issued by the Office of Price Administration.

(c) *Special relief.* Any person seeking relief, for which no provision is made in the foregoing paragraphs (a) and (b) of this section, from a maximum price established under this Maximum Price Regulation No. 224 may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant together with a statement of reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 224 to eliminate the danger of inflation.

(d) *General amendments and adjustments.* Persons seeking any general modification of this Maximum Price Regulation No. 224 or any exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1346.113 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 224 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 224 or any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest state, district, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1346.114 *Definitions.* (a) When used in this Maximum Price Regulation No. 224, the term:

* * * * *

(22) *Footwear*—(i) *Method of determining maximum prices.* (a) The maximum price for sales and deliveries of footwear by manufacturers or wholesalers thereof shall be the maximum price determined in accordance with § 1499.2, General Provisions, of the General Maximum Price Regulation, except that the maximum price for each style in a line of footwear shall be the highest price charged by such seller during March 1942, for any style in the line: *Provided,* That such seller in actual practice, (*1*) priced each style in the line at the same price. (*2*) offered the entire line at that one price giving the purchaser the option to choose without restriction any reasonable quantity of any style or styles. (*3*) would not change the price of any style in the line without changing the price of all styles, and (*4*) offered each style in the line only as part of the line and not as an individual item: *Provided further,* That the maximum price so determined may not be used for new styles added to the line unless all standards of quality of such new styles are at least equal to the standards of quality of the other footwear in the line with respect to workmanship and materials.

(*b*) For the purpose of determining the highest price charged by manufacturers or wholesalers during March 1942, deliveries of sample footwear shall be deemed a delivery during March 1942: *Provided,* That such samples (*1*) were delivered in March 1942 as an advance delivery pursuant to a firm contract previously made for volume shipment, (*2*) were the same footwear called for by such contract, (*3*) were delivered at the contract price, and (*4*) were not delivered by the seller to promote his own sales.

(*c*) The maximum price for sales of footwear at retail shall be the seller's maximum price determined in accordance with § 1499.2, General Provisions, of the General Maximum Price Regulation, except that the maximum price for each style in a line of footwear shall be the highest price charged by the seller during March 1942, for any style in the line: *Provided,* That such seller in actual practice (*1*) priced each style in the line at the same price and (*2*) would not change the price of any style in the line without changing the price of all styles: *Provided further,* That the maximum price so determined may not be used for new styles added to the line unless all standards of quality of such new styles are at least equal to the standards of quality of the other footwear in the line with respect to workmanship and materials.

(*d*) A seller at retail who maintained in March 1942, the practice of pricing at more than one resale price a manufacturer's or wholesaler's line of footwear, all styles of which were purchased by such seller at the same price shall continue to price at the lower price level or levels at least the same proportion of footwear in such line as was in effect during March 1942.

(ii) *Definitions.* (*a*) When used in Supplementary Regulation No. 14, the term:

(*1*) "Footwear" means any type of outside covering for the human foot, but does not include hosiery, footwear made entirely of wood or footwear in which vulcanization is used in the process of manufacture.

(*2*) A "line of footwear" means an integrated group of styles of footwear offered by a seller at the same price for each style in the group.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the applicable rules of practice and procedure thereunder (7 CFR 900.1-900.17; 6 F.R. 6570, 7 F.R. 3350), notice is hereby given of a hearing to be held in the Auditorium, Municipal Building, Church Street, Burlington, Vermont, beginning at 10 a. m., e. w. t., September 24, 1942, and in the Gardiner Auditorium, State House, Boston, Massachusetts, at 10 a. m., e. w. t., September 28, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Boston, Massachusetts, marketing area. These amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to the economic or marketing conditions which relate to the amendments or any modification thereof, which are hereinafter set forth. Such evidence may also include economic or marketing data relative to the provisions of the said tentatively approved marketing agreement and order which will be affected by approval of the proposed amendments or any modification thereof. The amendments which have been proposed are set forth below, and the name of the agency, association, or company by which each was submitted is indicated as follows:

PROPOSED AMENDMENTS

Definitions

1. Revise § 904.1 (a) (7) to remove the requirement that a producer-handler must produce at least 25 percent of his milk on the farm where his milk is processed and packaged.[1]

2. Revised in § 904.1 (a) (2) the meaning of the term "Secretary" to include any person who may be authorized to exercise the powers and perform the duties of the Secretary.[2]

Market Administrator

3. Under paragraph (d) (Duties) add a new subparagraph as follows:

No. 8. Prepare and disseminate for the benefit of producers, consumers, and handlers such statistics and information concerning the operation of this order as do not reveal confidential information.[2]

[1] Proposed by E. W. Dwyer, a producer-handler of Weymouth, Massachusetts.

[2] Proposed by the Dairy and Poultry Branch, Agricultural Marketing Administration.

Classification of milk

4. Revise § 904.3 (a) to permit a cooperative association to purchase Class II milk, including skim milk from Boston handlers, and sell such milk for Class II uses to persons manufacturing milk products.[3]

5. Amend § 904.3 (b) (2) (i) by deleting the words "buttermilk or cultured skim milk."[4] This will change these products from Class I to Class II.

6. *Shrinkage.* (a) Amend § 904.3 (b) (2) (ii) to read:

• • • and have actual plant shrinkage not to exceed 2 percent of all milk classified pursuant to § 904.3."[4]

This will change shrinkage associated with the handling of Class I milk from Class I to Class II.

(b) Add the following words to § 904.3 (b) (2):

• • • *And provided further,* That if for any delivery period the quantity of shrinkage cannot be ascertained from the records of the handler, the percentage of shrinkage shall be considered to be 1 percent of the volume handled or such higher percentage as may be indicated from the nature of the handlers' operations.[2]

This change is to clarify the present intent of the order.

7. Add an additional paragraph to § 904.3 as follows:

Responsibility of handlers in establishing the classification of milk. In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.[2]

8. Add at the end of § 904.3 (c) (2) the following:

• • • *Provided,* That such milk shall be Class II milk if received at a plant subject to another Federal milk marketing order and, subject to verification by the market administrator, is disposed of as Class II milk.[5]

The effect of this change is to accept the verification of the market administrator in another market under Federal regulation on the classification of milk sold in that market.

Prices

9. *Class I price level.* (a) Amend § 904.4 (a) (1) to provide a Class I price for milk delivered from producers' farms to handlers' plants located not more than 40 miles from the State House in Boston of $4.00 per hundredweight for periods prior to April 1, 1943, and thereafter $3.63 per hundredweight.[6]

[1] See footnote 2, *supra.*

[2] Proposed by the New England Milk Producers' Association.

[3] Proposed jointly by the handlers H. P. hood and Sons, Whiting Milk Company, White Bros., and Lyndonville Creamery Association.

[4] Proposed by Braley's Creamery, Inc., of North Dartmouth, Massachusetts.

[4] Proposed jointly by Northern Farms Cooperative Inc., East New York Dairies, Inc., Independent Cooperative Association, Inc., Maine Dairymen's Inc., Connecticut Valley Milk Producers' Association, White Bros. Producers' Group, of South Ryegate, Vermont, and Lyndonville, Vermont, Producers' Group.

(b) Amend § 904.4 (a) (1) to increase the Class I price.[2]

(c) Amend the proviso of § 904.4 (a) (1) by adding between the word "relief" and the clause "the price shall be" the following:

• • • Or with respect to any Class I milk disposed of to purchasers of any cash and carry milk depot or center operated as a nonprofit service to low-income families by any State or municipal agency or by any charitable or philanthropic agency or by any consumer cooperative duly established under the cooperative laws of Massachusetts.[7]

10. *Country receiving plant handling allowance.* (a) In § 904.4 (a) (2) change "13 cents" to "8 cents."[8] This change is to reduce the gross plant handling allowance, including an allowance for use of containers, from 23 to 18 cents per hundredweight on Class I milk.

(b) Increase the country receiving plant handling allowance from 20 to 23 cents.[2]

11. In § 904.4 (a) (2) change the term "New England Joint Tariff M2," to "New England Joint Tariff, M3."[2] This change is to bring the reference to the railroad tariff schedule up to date. Tariff M2 has been superseded by Tariff M3.

12. In § 904.4 (a) (3) delete the words "in the marketing area."[3] This change is to make this provision consistent with the change in method of pricing the milk sold outside the marketing area that automatically became effective on September 1, 1942.

13. In § 904.4 (b) (1) change the words "31 cents" to "17 cents."[8] This change will reduce the Class II price of city plants 14 cents relative to the level of the Class II price of country plants.

14. In § 904.4 (b) (2) substitute for the item "29 cents" the following:

• • • And subtract from milk received at plants located more than 40 miles from the State House in Boston but within the first 10 freight zones 23.5 cents; at plants located from the 11th to the 15th freight zones, inclusive, 24.25 cents; at plants located from the 16th to the 20th freight zones, inclusive, 25 cents; at plants located from the 21st to the 25th freight zones, inclusive, 25.5 cents; and at plants located in the 26th freight zone and beyond, 26 cents.[6]

The effect of this change will be an increase in the Class II price at country plants of from 3 cents in the more distant zones to 5.5 cents in the nearby zones.

15. (a) Amend § 904.4 (b) (2) to reflect the higher value now present in skim milk and eliminate New York cream from the computation of the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market.[3]

(b) In § 904.4 (b) (2) revise the value of skim milk to the present Class V-B price at New York.[6]

16. *Prices for milk manufactured into butter.* (a) In § 904.4 (b) (3) delete the words "deduct 5 cents, add 16⅔ percent and multiply by 3.7" and substitute the words "deduct 4 cents, add 20 percent, and multiply by 3.7".[6] Also delete the words at the end of the sentence "less 15 cents." The effect of this change is to price this milk on the butter formula used in New York.

(b) Amend § 904.4 (b) (3) by deleting the words "during the May, June, and September delivery periods" and substitute the words "during each month of the year."[10] This change will allow a butter class for all months of the year.

(c) Amend § 904.4 (b) (3) to provide that in case cream is manufactured into butter after there has been a request to purchase it for use as fluid cream that the butter price formula shall not be allowed.[6]

17. Amend § 904.4 (c) to provide for the continuation of the prevailing price clause on Class I milk sold in outside markets.[2 11]

Reports

18. Amend § 904.5 (f) to read:

1. Verification of reports. For the purpose of ascertaining the correctness of any report made to the market administrator as required by this order or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to (a) examine such books, papers, records, copies of income tax reports, accounts, correspondence, contracts, documents, and memoranda as the market administrator deems relevant and which are within the control (1) of any such handler from whom such report was requested, (2) of any person having, either directly or indirectly, actual or legal control of or over such handler, or (3) of any subsidiary of any such handler; and (b) weigh, sample, and test milk for butterfat.[2]

This change is to amplify the authority allowable under the act for the market administrator to have access to handlers' books and records in order to verify their reports.

Method of Payment for Milk

19. Amend § 904.8 (b) (2) to remove the present requirement that new producers receive the lowest class price for all their milk for the first 2 full months during which they deliver milk to the market.[4]

20. Amend § 904.8 (f) (1) to provide that in case the Federal Government should compel the transportation by rail from handlers' plants located more than 14 but less than 40 miles from the State House in Boston of all Class I milk to be disposed of in the marketing area, that handlers be permitted to deduct freight at the carlot rate for milk in bottles from the shipping point nearest his plant to the marketing area as published in the New England Joint Tariff, M3.[2]

21. Amend § 904.8 (f) (1) by putting a period after the word "hundredweight" and deleting the rest of the paragraph.[12] This change will allow a handler to deduct 10 cents per hundredweight from all the milk he receives from producers rather than from only Class I milk sold in the marketing area with respect to the

22. Add a new paragraph to § 904.8 as follows:

Interest on unpaid accounts. The market administrator shall promptly bill each handler from whom there is due to the market administrator under this section any amount which remains unpaid at the close of business on the tenth day of each month at the rate of one-half of one percent of such unpaid amount. The amount so billed shall be due immediately.[1]

Payments to Cooperative Associations

23. Delete all of § 904.9 except paragraph (e) or amend § 904.9 so that the Secretary shall prescribe exactly how payments may be used and provide for auditing by the administrator of the expenditures from this fund by cooperatives, disallowing an expenditure not provided for and requiring the refunding of all unexpended balances to the cash balance of the equalization fund.[2]

24. Delete § 904.9.[3]

25. In § 904.9 (a) (2) add a proviso at the end of the first sentence as follows:

• • • *Provided*, That where sales are consummated by delivery of milk from a plant handling milk from sources other than specified herein either directly or from a second plant the quantity of milk applicable for payments shall be sales in excess of the quantity received from such other sources.[3]

The effect of this change will be to provide, in case milk is sold to proprietory handlers from a plant of a cooperative in which there is milk received from a proprietory handler or another cooperative, that such other milk shall be considered to have been used to supply such sales before the cooperatives' own milk is available.

Expense of Administration

26. In § 904.10 (a) delete all of the present proviso.[4] The effect of this change will be to remove language from the order which is now inoperative because of changes that have occurred in the organization and structure of certain cooperatives.

Miscellaneous

27. Consider possible amendments designed to regulate the country assembly of milk to conserve rubber and equipment and to insure adequate facilities for movement of milk to market.[5]

28. Add a new section, as follows:

Agents. The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.[5]

Copies of this notice of hearing, of the tentatively approved marketing agreement, as amended, and of the order, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1019 South Building, Washington, D. 14. In § 934.4 (c) (2) substitute for the item "30 cents" the following:

• • • And subtract from milk received at plants located more than 20 miles from the City Hall in Lowell or Lawrence but within the first 10 freight zones 23.5 cents; at plants located from the 11th to the 15th freight zones, inclusive, 24.25 cents; at plants located from the 16th to the 20th freight zones, inclusive, 25 cents; at plants located from the 21st to the 25th freight zones, inclusive, 25.5 cents; and at plants located in the 26th freight zone and beyond, 26 cents.[1]

The effect of this change will be an increase in the Class II price at country plants of from 3 cents in the more distant zones to 5.5 cents in the nearby zones.

15. Amend § 934.4 (c) (2) to provide a country station allowance of 26 cents per hundredweight on Class II milk.[5]

16. Amend § 934.4 (d) to apply the prevailing price clause to milk sold in outside markets.[5]

Reports

17. Amend § 934.5 (e) to read:

(e) *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this order or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to (a) examine such books, papers, records, copies of income tax reports, accounts, correspondence, contracts, documents, and memoranda as the market administrator deems relevant and which are within the control (1) of any such handler from whom such report was requested, (2) of any person having either directly or indirectly, actual or legal control of or over such handler, or (3) of any subsidiary of any such handler; and (b) weigh, sample, and test milk for butterfat.[1]

This change is to amplify the authority allowable under the act for the market administrator to have access to handlers' books and records in order to verify their reports.

Application of Provisions

18. Amend § 934.6 (e) to read:

(e) *Milk subject to the Greater Boston Order.* The provisions hereof shall not apply, except as provided in § 934.3, to the handling of milk received at any handler's receiving plant which is subject to the provisions of the order regulating the handling of milk in the Greater Boston, Massachusetts, marketing area (Order No. 4), issued by the Secretary on February 7, 1936, effective February 9, 1936, as amended, or of any order superseding or amending such order, unless such handler, not including a cooperative association as qualified pursuant to § 904.9 (a) of the aforementioned order, sells, distributes, or disposes of less than 10 percent of his total receipts of milk as Class I milk in the Greater Boston marketing area.[1]

This change is to eliminate an inconsistency between the Boston and Lowell-Lawrence orders.

Determination of Prices

19. Delete § 934.7 (a) (1) (i) and § 934.6 (b). This change will discontinue the present arrangement of allowing a producer-handler to have his own farm production of milk deducted from his pool at Class I in the computation of his blended price.[1]

Payments to Producers

20. Delete § 934.8 (e) (2). This change is to eliminate an out-of-date reference to the Massachusetts Milk Control Board.[1]

Expenses of Administration

21. In § 934.10 (a), consider increasing the maximum administration assessment from 3 cents to 4 cents per hundredweight.[1]

Miscellaneous

22. Consider possible amendments designed to regulate the country assembly of milk to conserve rubber and equipment and to insure adequate facilities for movement of milk to market.[4]

23. Add a new section as follows:

Agents. The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.[1]

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area which requires a shorter period of notice than fifteen (15) days; and it is hereby determined that the period of notice given is reasonable under the circumstances.

Copies of this notice of hearing, of the tentatively approved marketing agreement, as amended, and of the order, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1019 South Building, Washington, D. C., or may be there inspected.

In the Matter of Engineers Public Service Company and its subsidiary companies, respondents.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of September, A. D., 1942.

It is ordered, Pursuant to section 11 (b) (1):

(1) That Engineers Public Service Company, a registered public utility holding company, shall sever its relationship with the companies named hereafter by disposing or causing the disposition, in any appropriate manner not in contravention of the applicable provisions of the said Act or the Rules, Regulations or Orders promulgated thereunder, of its direct and indirect ownership, control and holding of securities issued and properties owned, controlled or operated by the following companies:

Savannah Electric and Power Company
Gulf States Utilities Company
Baton Rouge Bus Company, Inc.

Engineers Public Service Company, a registered public utility holding company, controlling more than one single integrated public utility system, although heretofore afforded opportunity to indicate its choice of the single integrated system it desires to retain as its principal system, having failed to avail itself of such opportunity, and the Commission desiring nevertheless that further opportunity be afforded said respondent to indicate its views with respect to its choice of the principal system:

It is provided, With respect to our Findings, Opinion and Order herein, in their entirety, and with respect to the entry, publication, and service thereof that they shall be without prejudice to the right of the Commission to enter such other and further appropriate orders from time to time as the Commission may deem necessary to secure compliance by the respondents with the provisions of the Act and the pertinent Rules and Regulations thereunder, the Findings and Opinion in this proceeding, and the provisions of this Order; and

It is further provided, That jurisdiction is reserved to the Commission, notwithstanding this Order, or its entry, publication, and service, to conduct such investigations, hearings, or other proceedings involving any or all of the respondents herein and to make such orders as it shall deem necessary or appropriate under section 11 (b) (2) or any other provision of the Public Utility Holding Company Act of 1935.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics.

(2) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and the surname, the title is listed under the *surname.*

Personal-name prefixes such as *de, la, von,* etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in any other language:

Compañía; Cía.; Comp.
Compañía Anónima; C. A.; Comp. Anón.
Sociedad; Soc.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Amendment 4 to Priorities Regulation 11]

PRODUCTION REQUIREMENTS PLAN

Priorities Regulation No. 11 (§ 944.32)[1] is hereby amended as follows:

1. Paragraph (e) is amended to read as follows:

(e) *Interim procedure for Class I producers.* Any Class I producer who has filed his PRP application for the fourth quarter of 1942 but has not received his PRP certificate for such quarter may apply or extend preference ratings for delivery during such quarter, and, in case he shall have included advance quarter applications, may apply or extend preference ratings for delivery during only the first advance quarter, as follows:

(1) If he has been operating under the Production Requirements Plan, he may apply the same preference ratings he was authorized to apply during the preceding quarter (on his PRP certificates or under Priorities Regulation No. 12) to not more than 40% during the first month of the quarter, and not more than 70% during the entire quarter, of the amount of each material which he has indicated on his PRP application as his anticipated requirements for the fourth quarter, but in no event to more than the total amount of each material he put into production during July and August, 1942.

(2) If he has not been operating under the Production Requirements Plan, he may continue to apply and extend ratings under any applicable preference rating orders or preference rating certificates in the same manner as permitted prior to the beginning of the fourth quarter; and, notwithstanding the termination of any preference rating order on or after the end of the third quarter the same shall be deemed to continue in effect as to any such person until he receives his PRP certificate: *Provided, however,* That he shall not apply or extend ratings to the delivery in the fourth quarter of any material in an aggregate quantity greater than 40% during the first month of the quarter, nor greater than 70% during the entire quarter, of the amount of such material which he has indicated as his anticipated requirements on his PRP application for the fourth quarter, but in no event to more than the total amount of each material he put into production during July and August, 1942, subject to any further restrictions contained in the preference rating certificates or orders assigning the ratings which he is applying or extending.

(3) A Class I producer who applies or extends any preference rating pursuant to subparagraphs (1) or (2) of this paragraph (e), shall deduct the amount of any material which he has received or to which he has applied or extended such rating from the amount rated or otherwise authorized by his PRP certificate when issued to him.

(4) On or before October 5, 1942, each Class I producer shall, either by cancellation or by postponing deliveries, reduce the amount of each material which he has on order for delivery during the fourth quarter as follows:

(i) If he has received his PRP certificate for the fourth quarter, then to a total amount for the quarter which shall not exceed the amount of each such material he is authorized to receive during the entire quarter under such certificate.

(ii) If he has not received his PRP certificate for the fourth quarter, then to a total amount for the quarter which shall not exceed the amount of each such material he is authorized to receive during the quarter under subparagraphs (1) and (2) of this paragraph (e). Thereafter, upon receipt of his PRP certificate for the fourth quarter he shall make any further adjustments necessary to conform to the provisions of paragraph (d) (1) of this regulation.

The reduction required by this subparagraph (4) need be made only to the aggregate amount for the quarter as provided above, without regard to distribution of deliveries as between the first month of the quarter and the entire quarter.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–102]

RELIABLE TOOL AND WIRE PRODUCTS CORP.

Reliable Tool and Wire Products Corporation, New York, New York, is a corporation engaged in the manufacture and sale of steel hooks which are used in the assembling of dolls. During the period from April 1, 1942 through June 30, 1942, Louis Rubin, the president of the company, endorsed on purchase orders for approximately 11,840 pounds of steel wire the certification that the material was for maintenance, repair or operating supplies and that delivery thereof was entitled to a rating of A–10 under Preference Rating Order P–100. Such material did not constitute maintenance, repair or operating supplies as defined in this order and the certifications constituted a misrepresentation to the War Production Board in violation of Priorities Regulation No. 1 and Preference Rating Order P–100.[1] In making these certifications, Rubin relied upon advice given by persons outside the War Production Board which he had reason to believe was erroneous. By means of such misrepresentations, the company received deliveries of approximately 11,840 pounds of steel wire, which constituted a violation of Preference Rating Order P–100.

[1] 7 F.R. 925, 1009, 1626, 1794, 2236, 2660, 6825.

These violations of Priorities Regulation No. 1 and Preference Rating Order P–100 have impeded and hampered the war effort of the United States by diverting scarce material to uses unauthorized by the War Production Board. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.102 *Suspension Order S–102.* (a) Deliveries of material to Reliable Tool and Wire Products Corporation, its successors and assigns, or to Louis Rubin, his successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to Reliable Tool and Wire Products Corporation, its successors and assigns, or to Louis Rubin, his successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Reliable Tool and Wire Products Corporation, its successors and assigns, and Louis Rubin, his successors and assigns, shall not purchase, put into process, sell or otherwise dispose of any steel wire except as specifically authorized by the Director General for Operations.

(d) Nothing contained in this order shall be deemed to relieve Reliable Tool and Wire Products Corporation or Louis Rubin from any restriction, prohibition or provision contained in any of the orders or regulations of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on September 21, 1942, and shall expire on November 21, 1942, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 19th day of September 1942.

Director General for Operations.

PART 1026—PRODUCTION OF CHEMICALS, MAINTENANCE, REPAIR, AND OPERATING SUPPLIES

[Amendment 3 to Preference Rating Order P–89, as Amended]

Section 1026.1 *Preference Rating Order P–89*,[1] as amended, as hereby amended in the following respects:

(1) Paragraph (b) is amended to read:

(b) *Assignment of preference ratings.* Subject to the terms of this order, and provided that nothing herein contained shall prevent the use of any other or higher rating to which the producer shall be entitled by reason of any other preference rating certificate or order, the following preference ratings are hereby assigned to deliveries to the producer of material for repair, maintenance, and operating supplies:

(1) Up to and including A–1–a to deliveries of metals in any form appearing in Materials List No. 1, Revised, in Form PD–25A for the fourth quarter of 1942, and of fabricated parts and equipment having a unit cost of $250 or less. Parts and equipment, and components thereof, which are ordered for use together shall be treated as a single unit for the purpose of determining unit cost in this subparagraph.

(2) Up to and including A–1–c to deliveries of material not included in paragraph (b) (1).

(3) Such other preference ratings as the Director General for Operations may from time to time assign to particular orders for any material for repair, maintenance and operating supplies, upon application by the producer to the War Production Board, Chemicals Branch, Washington, D. C., Ref: P–89, by letter or telegram, stating plant location and serial number, material needed, the weight, value and function of such material, name and address of supplier (if known), purchase order number and date, product or products affected, percentage curtailment of production, nature of the emergency, rating requested, and delivery date promised by supplier on basis of rating requested.

(2) Paragraph (c) is amended to read:

(c) *Conditions on assignment of ratings.* The preference ratings assigned by or pursuant to paragraph (b) are assigned subject to the following conditions:

(1) That the producer shall have filed with the War Production Board, Chemicals Branch, Washington, D. C., Ref: P–89, a statement (in triplicate) properly executed on Form PD–315, and shall have received from the War Production Board a serial number under this order.

(2) That the producer shall not apply any preference rating assigned by paragraph (b) hereof to any purchase order for metal containers, metal parts for containers or material for the manufacture of metal containers unless and until he shall have communicated with the War Production Board, Chemicals Branch, Washington, D. C., Ref.; Chemicals Transportation and Packaging Section, and shall have received from the Director General for Operations specific authorization to apply such rating.

(3) That the producer shall not apply any preference rating hereunder unless the material to be delivered cannot be secured when required with a lower rating.

(4) That the producer shall not apply any preference rating hereunder to obtain scarce material if its use can be eliminated without serious loss of efficiency by substitution of less scarce material or by simplification of design.

(3) Paragraph (d) is amended to read:

(d) *Application and extension of ratings.* Preference ratings assigned by or pursuant to this order shall be applied by the producer and extended by the supplier in accordance with the terms of Priorities Regulation No. 3, as now or hereafter amended.

(4) Paragraphs (e) and (f) are each deleted in their entirety.

(5) Paragraph (g) is amended to read:

(g) *Inventory provisions.* The producer shall not accept deliveries (whether rated hereunder or not) of material for repair and maintenance or operating supplies which will increase the inventory or stores available to the producer for such purpose to an amount greater than the minimum necessary for repair and maintenance and to sustain the current level of operations of the producer, and the ratio of such inventory and stores to current operations shall in no event exceed the ratio of average inventory to average operation for the years 1938, 1939 and 1940. For purpose of calculating these ratios, and only for such purpose, the value of inventory and stores of material for maintenance, repair and operating supplies shall exclude all fuels, containers, parts for containers and material for the manufacture of containers, and all materials listed in § 1255.1, General Inventory Order M–161, as amended from time to time. Nothing contained in this paragraph (g) shall prevent the acceptance of delivery of any quantity of any material subject to § 1103.1, General Inventory Order No. M–97, or § 1255.1, General Inventory Order M–161, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

The following interpretation is hereby issued by the Director General for Operations with respect to § 1095.1 General Conservation Order L–50, as amended September 7, 1942.[1]

Question has arisen as to whether the term "operator" as defined in paragraph (a) (1) includes private and nonpublic telephone communication systems.

The term "operator" includes all persons to the extent engaged in rendering telephone communication service (and such telegraph and teletypewriter service as may be conducted by an operator) without regard to whether such service is private or public in character.

PART 3014—ARMORED CABLE

[General Limitation Order L–165]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of copper, zinc, iron, steel and other materials for defense, for private account and for export, and the following order designed to prevent unnecessary use of copper and its alloys by the manufacture of armored cable is deemed necessary and appropriate to the public interest and to promote the national war effort:

§ 3014.1 *General Limitation Order L–165*—(a) *Definitions.* For the purpose of this order:

(1) "Armored cable" means a flexible metal covered cable (commonly known as "BX" cable) used as a conductor of electricity in the interior of a building structure and which cable is designed and constructed to be used with bushings or the equivalent at cut ends.

(2) "Manufacturer" means any person who makes, fabricates, assembles, casts, or in any way processes material for the manufacture of armored cable.

(b) *General restrictions.* Notwithstanding any contract or agreement to the contrary:

(1) On and after the fifth day subsequent to the date of issuance of this order, no manufacturer shall acquire any copper, steel, or other material of any type to be used in the manufacture of armored cable except material in transit on such fifth day.

(2) On and after the thirtieth day subsequent to the date of issuance of this order, no manufacturer shall make, manufacture or assemble armored cable.

(c) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(d) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Reports.* Each manufacturer to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(f) *Violations and false statements.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further delivery of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Applicability of priority regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priority Regulations of the War Production Board as amended from time to time.

(i) *Applicability of other orders.* Insofar as any other order issued by the Director General for Operations, or to be issued by him hereafter, limits the use of any material to a greater extent than the limits imposed by this order, the restrictions of such other order shall govern, unless otherwise specified therein.

(j) *Communications.* Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Building Materials Branch, Washington, D. C., Ref: L–165. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. PART 3064—COTTON TEXTILES FOR AGRICULTURAL AND FOOD PROCESSING USES

[General Preference Order M–218]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of cotton textiles for use in the handling and processing of agricultural products and foodstuffs, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3064.1 *General Preference Order M–218*—(a) *Issuance of schedules covering cotton textiles for various types or classifications of agricultural and food processing uses.* The Director General for Operations may from time to time issue schedules establishing definitions, allocations of looms or yardages, assignments of preference ratings, purchase quotas for manufacturers or users, as well as regulations upon inventories, manufacture and sale, and such other matters pertaining to cotton textiles for various types or classifications of agricultural and food processing uses, as may be necessary and appropriate in the public interest and to promote the national defense.

(b) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(c) *Restrictions on the use of material obtained pursuant to any schedule.* Except as otherwise expressly provided in any schedule issued hereunder, and subject to any more restrictive provisions contained therein, no person shall use or dispose of any cotton textile material, whether in the original mill state or partially processed state, which was obtained by him pursuant to the application of a preference rating assigned by any such schedule, or pursuant to the use of any certification required by any schedule for the acquisition thereof, except as follows:

(1) For the manufacture of the end products covered by said schedule.

(2) For sale to any person on an order bearing a rating of A–2 or better; or

(3) For sale to or for the account of, or for physical incorporation into products to be delivered to, or for the account of, the Army of the United States, the United States Navy, the United States Maritime Commission, the War Shipping Administration or its Operating or General Agents: *Provided*, That no person shall sell or deliver, on an order rated less than A–2, any such material for physical incorporation into products for any of said governmental agencies unless he shall have first received from the purchaser a certificate signed by such purchaser, or by a person authorized to sign in his behalf, in substantially the following form:

The undersigned hereby certifies that he requires the material covered by the annexed order for physical incorporation into material or equipment to be delivered to or for the account of, the Army of the United States, the United States Navy, the United States Maritime Commission, the War Shipping Administration or its Operating or General Agents.

(d) *Records.* All persons affected by this order shall keep and preserve for a period of not less than two years accurate and complete records concerning inventories, production and sales, and showing the yardage of each class of fabric, as indicated by the headings in the schedules, sold pursuant to the application of the rating assigned by each schedule, and any other records as may be required to be kept by any such person in accordance with the provision or provisions of the respective schedule or schedules issued by the Director General for Operations pursuant to this order.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* All persons affected by this order shall execute and file with the War Production Board such other reports and questionnaires as may be required by the War Production Board from time to time in accordance with the provision or provisions of the respective schedule or schedules issued by the Director General for Operations pursuant to this order.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of cotton textiles for agricultural and food processing uses conserved or made available, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal in writing to the War Production Board, Reference M–218, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Communications to the War Production Board.* All communications concerning this order, or any reports required to be filed hereunder, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Branch, Washington, D. C., Reference: M–218.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. PART 1381—SOFTWOOD LUMBER

[Maximum Price Regulation 222]

NORTHERN SOFTWOOD LUMBER

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of Northern softwood lumber by a specific maximum price regulation. The Price Administrator has ascertained and given due consideration to the prices of Northern softwood lumber prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgement of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with the Procedural Regulation No. 1,[1] issued by the office of Price Administration, Maximum Price Regulation No. 222 is hereby issued.

AUTHORITY: §§ 1381.251 to 1381.267, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1381.251 *Maximum prices for Northern softwood lumber.* (a) On and after September 23, 1942, regardless of any contract or other obligation, no person shall sell or deliver any Northern softwood lumber, where shipment originates at the mill rather than at a distribution yard, and no person shall buy or receive in the course of trade or business any Northern softwood lumber so shipped, at prices higher than the maximum prices set forth in Appendices A to E hereof, inclusive, incorporated herein as §§ 1381.263 to 1381.267, inclusive; and no person subject to this Maximum Price Regulation No. 222 shall agree, offer, solicit or attempt to do any of the foregoing.

(b) The provisions of this Maximum Price Regulation No. 222 shall not be applicable to retail sales as defined in paragraph (a) (7) of § 1381.259.

(c) The provisions of this Maximum Price Regulation No. 222 shall not be applicable to sales or deliveries of Northern softwood lumber to a purchaser, if prior to September 23, 1942, such lumber had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(d) The maximum prices established in this Maximum Price Regulation No. 222 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for payment, and shall be decreased for prompt payment to the same extent that the sale price would have been decreased on October 1, 1941.

§ 1381.252 *Less than maximum prices.* Lower prices than those established in this Maximum Price Regulation No. 222 may be charged, demanded, paid or offered.

§ 1381.253 *Conditional agreements.* No seller subject to this Maximum Price Regulation No. 222 shall enter into an agreement permitting the adjustment of the price of Northern softwood lumber to prices which may be higher than the maximum prices in effect on the date of the agreement: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception should be made in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1381.254 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 222 shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to Northern softwood lumber, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Unnecessarily routing lumber through a distribution yard;

(2) Unreasonably refusing to ship lumber on standard grades;

(3) Falsely or wrongly grading or invoicing lumber;

(4) Grading as a special grade lumber which normally is graded by the seller as a standard grade;

(5) Making charges for delivery which exceed the actual cost to the seller of such delivery (except as provided in paragraph (d) of § 1381.267).

§ 1381.255 *Records and reports.* (a) Every seller and purchaser subject to this Maximum Price Regulation No. 222 making sales or deliveries or purchases of Northern softwood lumber to the value of $500.00 or more in any one month, after September 23, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than two years a complete and accurate record of each sale or delivery or purchase of Northern softwood lumber, showing the date of purchase or sale, the name and address of the buyer and seller, the quantities and grades purchased or sold, and the price paid or received.

(b) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1381.256 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 222 are subject to the criminal penalties, civil enforcement actions, proceedings for suspension of licenses and suits for treble damages provided for by the Emergency Price Control Act of 1942: *Provided*, That no war procurement agency, or any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 222 or the Emergency Price Control Act of 1942.

*Copies may be obtained from the Office of Price Administration.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 222 or any price schedule, regulation or order issued by the Office of Price Administration or any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1381.257 *Licensing.* The provisions of Supplementary Order No. 18 (§ 1305.-22) licensing persons selling lumber, lumber products or building materials, are applicable to every person, except mills, making sales of Northern softwood lumber for which maximum prices are established by this regulation.

§ 1381.258 *Petitions for amendment or adjustment—*(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a contract with the United States or any agency thereof, or with the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States", or any agency of any such Government, or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of Northern softwood lumber which is essential to the war program and which is or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum prices established by this Maximum Price Regulation No. 222 in accordance with Procedural Regulation No. 6,* issued by the Office of Price Administration.

(b) *Special relief.* Any person seeking special relief for which no provision is made in paragraph (a) of this section, from a maximum price established under this Maximum Price Regulation No. 222, may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 222 to eliminate the danger of inflation.

(c) *General amendments and adjustments.* Persons seeking any general modification of this Maximum Price Regulation No. 222 or any general adjustment or exception not provided for therein may file petitions for amendment in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration.

§ 1381.266 *Appendix D: Northern softwood lumber in special grades or items*—(a) *Application of Appendix D.* (1) This section shall apply to Northern softwood lumber which is sold on specifications (herein referred to as special grades or items) other than those set forth in §§ 1381.263 to 1381.265, Appendices A to C, inclusive.

(2) For purposes of this section the term "Northern softwood lumber" shall include all items of lumber in the species set forth in paragraph (a) (3) (i) of § 1381.259, but shall not include the following items: (The term "items" includes specifications, workings, services and/or extras.)

(i) Glued stock.
(ii) Mine material.
(iii) Switch, cross or mine ties.
(iv) Small dimension stock.
(v) Posts, poles and piling.

(b) *Maximum prices for combination grades.* Where Northern softwood lumber is sold on a combination grade (that is, a trade practice grade which is a combination of basic standard grades, such as No. 4 Common and Better) for which no maximum price has been established in Appendices A to C, §§ 1381.263 to 1381.265, inclusive, the maximum price shall be the maximum price established in such Appendices for the lowest basic grade of lumber contained in the stock that is sold on such combination grade. The seller, however, may grade and ship the lumber on the basic standard grades included in such combination grade and invoice the footage in each of the basic standard grades at a price not to exceed the maximum price established in this Maximum Price Regulation No. 222 for the respective basic standard grades.

(c) *Maximum prices for special grades and items other than combination grades.* The maximum price (for any seller) for Northern softwood lumber in a special grade or item, other than a combination grade, shall be computed by adjusting the maximum price established in Appendices A to C, §§ 1381.263 to 1381.265, inclusive, of this Maximum Price Regulation No. 222 for the most comparable standard grade or item in accordance with the differential or differentials which were employed or would have been employed by the producing mill during the period of October 1 to 15, 1941, subject to the following conditions:

(1) The mill must, within thirty days of entering into a contract for sale of stock subject to the provisions of this paragraph, file a report with the Lumber Branch of the Office of Price Administration, Washington, D. C., on Form 322:1 setting forth full details of the transaction, including (i) the name and address of the purchaser, (ii) the point of origin and the point of delivery of the stock, (iii) the species and grades of lumber ordered, (iv) the specifications, (v) the price charged for the stock, including the functional commission or discount where the lumber is sold to or through a wholesaler or commission salesman, and (vi) an explanation of how the price was computed, including a showing that the price bears the same relationship to the most comparable standard grade or item of lumber as was employed or would have been employed by the producing mill during the period of October 1 to 15, 1941.

(2) Where the Office of Price Administration, within thirty days of receipt of the report, rules in writing that the seller has made an excessive charge for furnishing stock in special grades or items, the seller must readjust the sale price in accordance with the ruling of the Office of Price Administration. If the Office of Price Administration does not rule on the price within such time, the price submitted shall be considered approved.

(3) Pending action on the application of the producing mill by the Office of Price Administration, the seller may quote and deliver at a price which shall be subject to adjustment in accordance with the action taken on the application, but final payment may not be made and accepted until a maximum price has been approved by the Office of Price Administration.

(4) In the event that the Office of Price Administration approves the price charged by the producing mill, or in the event that the Office of Price Administration rules as to the maximum price which the mill may charge, the price as established shall become the maximum price which any seller thereafter may charge for lumber sold on the special specifications and shipped from the particular mill to which the price is applicable. In subsequent sales of such special stock the mill need not file a report with the Office of Price Administration unless the price quoted by the mill is in excess of the maximum price previously determined.

(5) Copies of Form 322:1 can be obtained from the Office of Price Administration, or Form 322:1 can be reproduced by the seller, providing no change is made in style or content of the form.

§ 1381.267 *Appendix E: Delivered prices and estimated average weights*—(a) *Delivered prices for domestic Northern softwood lumber.* (1) A delivered price in excess of the maximum f. o. b. mill prices set forth in Appendices A and B, §§ 1381.263 and 1381.264, for domestic Northern softwood lumber may be charged, consisting of such maximum prices plus the transportation costs permitted by this paragraph: *Provided*, That (i) the invoice shows the point of origin of the shipment, the destination, and the applicable railroad or truck rate, or, in place of such rate, where shipment is by motor vehicle owned or controlled by the seller, the amount added for transportation; and (ii) the invoice is marked "direct mill shipment."

(2) Where shipment is exclusively by motor vehicle owned or controlled by the seller, the charge may be no greater than the actual cost to the seller of delivery by motor vehicle; and in no event shall the charge exceed the railroad charge at the carload rate for the most nearly comparable haul. If the actual cost is less than such railroad charge, only the actual cost may be added to the maximum price.

(3) Where shipment is by common or contract carrier, the amount added for transportation may be no greater than the actual amount paid to the carrier, except as provided in paragraph (d) of this section: *Provided*, That where shipment is by both rail and truck (either owned or controlled by the seller or a common or contract carrier), the following shall govern:

(i) Where shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of truck delivery, provided such cost is shown separately on the invoice.

(ii) Where a truck haul precedes the rail shipment, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for such truck haul: *Provided*, That the seller may apply to the Lumber Branch of the Office of Price Administration, Washington, D. C., for an exception if the seller can demonstrate that a separate and identifiable charge for the truck haul was customarily made by the seller during the year 1940.

(b) *Delivered prices for imported Western white spruce lumber shipped from the Canadian provinces of British Columbia and Alberta.* A delivered price in excess of the maximum prices, f. o. b. Spokane, Washington, set forth in Appendix C, § 1381.265, for imported Western white spruce lumber shipped to the purchaser from the Canadian provinces of British Columbia and Alberta may be charged, consisting of such prices plus transportation costs at the carload rail rate from Spokane, Washington to the point of delivery designated by the purchaser: *Provided*, That the invoice shows the point of origin of the shipment, the destination, and the carload rail rate from Spokane, Washington to the destination.

(c) *Delivered prices for imported Western white spruce, Northern white pine, Norway pine, Northern white cedar, and Eastern spruce lumber shipped from the Canadian provinces of Saskatchewan and Manitoba.* A delivered price in excess of the maximum prices, f. o. b. Baudette, Minnesota, set forth in Appendices B and C, §§ 1381.264 and 1381.265, for imported Western white spruce, Northern white pine, Norway pine, Northern white cedar, and Eastern spruce lumber shipped to the purchaser from the Canadian provinces of Saskatchewan and Manitoba may be charged, consisting of such prices plus transportation costs at the carload rail rate from Baudette, Minnesota to the point of delivery designated by the purchaser: *Provided*, That the invoice shows the point of origin of the shipment, the destination, and the carload rail rate from Baudette, Minnesota to the destination.

(d) *Trade practices.* In computing transportation costs, the following practices are permitted:

(1) The computation of transportation costs on the basis of the applicable freight rate and the estimated average weights set forth in paragraph (e) of this section.

(2) The charging of a sum equivalent to the one-quarter of a dollar nearest to the transportation cost per 1,000 feet of lumber computed in accordance with subparagraph (1) of this paragraph.

PART 1382—HARDWOOD LUMBER

[Maximum Price Regulation 223]

NORTHERN HARDWOOD LUMBER

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of Northern hardwood lumber by a specific maximum price regulation. The Price Administrator has ascertained and given due consideration to the prices of Northern hardwood lumber prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1[1], issued by the Office of Price Administration, Maximum Price Regulation No. 223 is hereby issued.

AUTHORITY: §§ 1382.151 to 1382.166, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1382.151 *Maximum prices for Northern hardwood lumber.* (a) On and after September 23, 1942, regardless of any contract or other obligation, no person shall sell or deliver any Northern hardwood lumber, where shipment originates at the mill rather than at a distribution yard, and no person shall buy or receive in the course of trade or business any Northern hardwood lumber so shipped, at prices higher than the maximum prices set forth in Appendices A to D hereof, inclusive, incorporated herein as §§ 1382.163 to 1382.166, inclusive; and no person subject to this Maximum Price Regulation No. 223 shall agree, offer, solicit or attempt to do any of the foregoing.

(b) The provisions of this Maximum Price Regulation No. 223 shall not be applicable to retail sales as defined in paragraph (a) (7) of § 1382.159.

(c) The provisions of this Maximum Price Regulation No. 223 shall not be applicable to sales or deliveries of Northern hardwood lumber to a purchaser, if prior to September 23, 1942, such lumber had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(d) The maximum prices established in this Maximum Price Regulation No. 223 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for

payment, and shall be decreased for prompt payment to the same extent that the sale price would have been decreased on October 1, 1941.

§ 1382.152 *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 223 may be charged, demanded, paid, or offered.

§ 1382.153 *Conditional agreements.* No seller subject to this Maximum Price Regulation No. 223 shall enter into an agreement permitting the adjustment of the price of Northern hardwood lumber to prices which may be higher than the maximum prices in effect on the date of the agreement: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception should be made in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1382.154 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 223 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation agreement, sale delivery, purchase, or receipt of or relating to Northern hardwood lumber, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Unnecessarily routing lumber through a distribution yard;

(2) Unreasonably refusing to ship lumber on standard grades and in grade-rule range widths and lengths;

(3) Falsely or wrongly grading or invoicing lumber;

(4) Grading as a special grade lumber which normally is graded by the seller as a standard grade;

(5) Making charges for delivery which exceed the actual cost to the seller of such delivery (except as provided in § 1382.166).

§ 1382.155 *Records and reports.* (a) Every seller and purchaser subject to this Maximum Price Regulation No. 223 making sales or deliveries or purchases of Northern hardwood lumber to the value of $500.00 or more in any one month, after September 23, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than two years a complete and accurate record of each sale or delivery or purchase of Northern hardwood lumber, showing the date of purchase or sale, the name and address of the buyer and seller, the quantities and grades purchased or sold, and the prices paid or received.

(b) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1382.156 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 223 are subject to the criminal penalties, civil enforcement actions, proceedings for suspension of licenses, and suits for treble damages provided for by the Emergency Price Control Act of 1942: *Provided*, That no War Procurement Agency, or any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 223 or the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 223 or any price schedule regulation or order issued by the Office of Price Administration or any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1382.157 *Licensing.* The provisions of Supplementary Order No. 18 (§ 1305.22) licensing persons selling lumber, lumber products or building materials, are applicable to every person, except mills, making sales of Northern hardwood lumber for which maximum prices are established by this regulation.

§ 1382.158 *Petitions for amendment or adjustment*—(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a contract with the United States or any agency thereof, or with the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States", or any agency of any such Government, or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of Northern hardwood lumber which is essential to the war program and which is or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum prices established by this Maximum Price Regulation No. 223 in accordance with Procedural Regulation No. 6,[2] issued by the Office of Price Administration.

(b) *Special relief.* Any person seeking special relief for which no provision is made in paragraph (a) of this section, from a maximum price established under this Maximum Price Regulation No. 223, may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1,[3] issued by the Office of Price Administration, and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the purpose of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 223 to eliminate the danger of inflation.

(c) *General amendments and adjustments.* Persons seeking any general modification of this Maximum Price Regulation No. 223 or any general adjustment or exception not provided for therein may file petitions for amendment in accordance with Procedural Regulation No. 1,[4] issued by the Office of Price Administration.

§ 1382.159 *Definitions.* (a) When used in Maximum Price Regulation No. 223, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(2) "Feet" means board feet of lumber except that with reference to lumber in thicknesses of ½", ¾", and ⅝", the term "feet" means surface feet.

(3) "Northern hardwood lumber" means lumber:

(4) "Mill" means any establishment:
(i) Which processes into the items of lumber covered by this Maximum Price Regulation No. 223, by sawing or planing, or ships to milling-in-transit operations for such processing by sawing, planing, or kiln drying, at least 25 percent of the volume of Northern hardwood lumber or logs purchased or received by it, *or*
(ii) Which resembles the following described establishment more nearly than that described under the definition of "distribution yard" in subparagraph (5) (ii) of this paragraph: An establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock primarily Northern hardwood and Northern softwood lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail shipment, and which has been located at its particular site in order to be near the lumber producing area.
(5) "Distribution yard" means an establishment:
(i) Which processes into the items of lumber covered by this Maximum Price Regulation No. 223, by sawing or planing, or ships to milling-in-transit operations for such processing by sawing, planing, or kiln drying, less than 25 percent of the volume of Northern hardwood lumber purchased or received by it; *and*
(ii) Which resembles the following described establishment more nearly than that described under the definition of "mill" in subparagraph (4) (ii) of this paragraph: A wholesale or retail lumber yard which purchases or receives lumber from a mill or another distribution yard for purposes of unloading, sorting, and resale or redistribution, which regularly maintains a miscellaneous stock of lumber from different regions, which obtains its lumber primarily by rail shipment and sells primarily for truck shipment, which is equipped to make quick deliveries of many different items of lumber, and which has been located at its particular site primarily in order to be near a lumber consuming area.
(6) "Volume" means the board feet volume of lumber processed from logs, processed from other lumber, or sold, as the case may be, within six months immediately prior to the transaction subject to this Maximum Price Regulation No. 223.
(7) "Retail sale" means a sale which satisfies all of the following tests:
(i) It must be a sale of not more than 2,000 feet of lumber;
(ii) It must be a sale in which the purchaser requests delivery to a point not more than 20 miles from the mill at which shipment originates;
(iii) It must be a sale of lumber to a contractor or consumer for use in construction, remodeling, repair, maintenance, fabrication, or remanufacture, and not for resale in substantially the same form.
(8) "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission, and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any agency of the foregoing.

§ 1382.160 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 223 supersede the provisions of the General Maximum Price Regulation [5] with respect to sales and deliveries of Northern hardwood lumber for which maximum prices are established in this regulation.

§ 1382.161 *Export sales.* The maximum price at which a seller may make an export sale of Northern hardwood lumber shall be determined in accordance with the provisions of the Maximum Export Price Regulation,[6] issued by the Office of Price Administration. An "export sale" is any sale between a seller in the continental United States and a purchaser outside thereof in which the commodity sold is transported from the continental United States to a point outside thereof and includes any sale of a commodity outside the continental United States by an agent of the exporter or by a corporation owned or controlled by the exporter within a period of two years after the date of shipment of the commodity from the continental United States.

§ 1382.162 *Effective date.* This Maximum Price Regulation No. 223 (§§ 1382.151 to 1382.166, inclusive) shall become effective September 23, 1942.

§ 1382.163 *Appendix A: Maximum prices for Northern hardwood lumber in standard or near standard grades*—(a) *Application of Appendix A.* The provisions of this section shall apply to Northern hardwood lumber which is sold in the species and on the grades designated in this section. Lumber sold on such grades shall be deemed to include lumber in:
(1) Grade-rule range widths and lengths;
(2) Widths and lengths substantially the same as grade-rule range widths and lengths; or
(3) Specified average widths or specified average lengths which are substantially run-of-the-log.
(b) *Maximum prices.* The maximum f. o. b. mill price for 1,000 feet of Northern hardwood lumber in standard or near standard grades in a rough air dried condition shall be as follows:

(b) *Maximum prices for combination grades.* Where Northern hardwood lumber is sold on a Log Run, Mill Run, or No. 1 Common and Better grade for which no maximum price has been established in Appendix A, § 1382.163, the maximum price shall be the maximum price established in that section for the lowest grade of lumber contained in the stock that is sold on such special inspection grade. The seller, however, may grade and ship the lumber on the standard grades included in such special inspection grade and invoice the footage in each of the standard grades at a price not to exceed the maximum price established in this Maximum Price Regulation No. 223 for the respective standard grades.

(c) *Maximum prices for "non-standard special" grades and items other than combination grades.* The maximum price (for any seller) for Northern hardwood lumber in a "non-standard special" grade or item, other than a combination grade, shall be computed by adjusting the maximum price established in Appendix A or B, §§ 1382.163 or 1382.164, of this Maximum Price Regulation No. 223 for the most comparable standard or "standard special" grade or item in accordance with the differential or differentials which were employed or would have been employed by the producing mill during the period of October 1 to 15, 1941, subject to the following conditions:

(1) The mill must, within thirty days of entering into a contract for sale of stock subject to the provisions of this paragraph, file a report with the Lumber Branch of the Office of Price Administration, Washington, D. C., on Form 323:1 setting forth full details of the transaction, including (i) the name and address of the purchaser, (ii) the point of origin and the point of delivery of the stock, (iii) the species and grades of lumber ordered, (iv) the specifications, (v) the price charged for the stock, including the functional commission or discount where the lumber is sold to or through a wholesaler or commission salesman, and (vi) an explanation of how the price was computed, including a showing that the price bears the same relationship to the most comparable standard or "standard special" grade or item of lumber as was employed or would have been employed by the producing mill during the period of October 1 to 15, 1941.

(2) Where the Office of Price Administration, within thirty days of receipt of the report, rules in writing that the seller has made an excessive charge for furnishing stock in "non-standard special" grades or items, the seller must readjust the sale price in accordance with the ruling of the Office of Price Administration. If the Office of Price Administration does not rule on the price within such time, the price submitted shall be considered approved.

(3) Pending action on the application of the producing mill by the Office of Price Administration, the seller may quote and deliver at a price which shall be subject to adjustment in accordance with the action taken on the application, but final payment may not be made and accepted until a maximum price has been approved by the Office of Price Administration.

(4) In the event that the Office of Price Administration approves the price charged by the producing mill, or in the event that the Office of Price Administration rules as to the maximum price which the mill may charge, the price so established shall become the maximum price which any seller thereafter may charge for lumber sold on the special specifications and shipped from the particular mill to which the price is applicable. In subsequent sales of such special stock the mill need not file a report with the Office of Price Administration unless the price quoted by the mill is in excess of the maximum price previously determined.

(5) Copies of Form 323:1 can be obtained from the Office of Price Administration, or Form 323:1 can be reproduced by the seller, providing no change is made in style or content of the form.

(d) *Additions.* Additions to the maximum prices established in this section may be charged in accordance with the provisions of paragraph (d) of § 1382.163, Appendix A.

§ 1382.166 *Appendix D: Delivered prices and estimated average weights.* (a) Delivered prices in excess of the maximum f. o. b. mill prices established in this Maximum Price Regulation No. 223 may be charged, consisting of such maximum prices plus the transportation costs permitted by this section: *Provided*, That (1) the invoice shows the point of origin of the shipment, the destination, and the applicable railroad or truck rate, or in place of such rate, where shipment is by motor vehicle owned or controlled by the seller, the amount added for transportation; and (2) the invoice is marked "direct mill shipment".

(b) Where shipment is exclusively by motor vehicle owned or controlled by the seller, the charge may be no greater than the actual cost to the seller of delivery by motor vehicle; and in no event shall the charge exceed the railroad charge at the carload rate for the most nearly comparable haul. If the actual cost is less than such railroad charge, only the actual cost may be added to the maximum price.

(c) Where shipment is by common or contract carrier, the amount added for transportation may be no greater than the actual amount paid to the carrier, except as provided in paragraph (d) of this section: *Provided*, That where shipment is by both rail and truck (either owned or controlled by the seller or a common or contract carrier), the following shall govern:

(1) Where shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of truck delivery, provided such cost is shown separately on the invoice.

(2) Where a truck haul precedes the rail shipment, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for such truck haul: *Provided*, That the seller may apply to the Lumber Branch of the Office of Price Administration, Washington, D. C., for an exception if the seller can demonstrate that a separate and identifiable charge for the truck haul was customarily made by the seller during the year 1940.

(d) In computing transportation costs, the following practices are permitted:

(1) The computation of transportation costs on the basis of the applicable freight rate and the appropriate estimated average weights set forth in paragraph (e) of this section.

(2) The charging of a sum equivalent to the one-quarter of a dollar nearest to the transportation costs per 1,000 feet of lumber, computed in accordance with subdivision (1) of this paragraph.

(e) (1) The estimated average weights for Northern hardwood lumber in a green or rough air dried condition, shall be as follows:

Species:	Pounds per 1,000 feet BM
Brown Ash	3,300
Basswood	2,500
Beech	4,000
Birch	4,000
Rock Elm	4,000
Soft Elm	3,200
Hard Maple	4,300
Soft Maple	3,700
Oak	4,000

(2) The estimated average weights for Northern hardwood lumber in a kiln dried condition shall be the average weights established in subdivision (1) of this paragraph decreased by the average difference in weight between air dried lumber and kiln dried lumber in the particular species shipped. This average difference shall be calculated on the basis of the experience of the mill which produced the lumber shipped.

[3] For instance, a new or related construction of gingham shall be priced in line with the specific maximum price of the most nearly comparable construction of gingham for which there is a specific maximum price. The same holds true for corduroy, cottonades, whip cords, frock cloth, etc. A cotton product which does not fall within one of the fabric groups enumerated in paragraph (d) of § 1400.118 shall be priced under the formula provided in § 1400.101 (b) and (d). It may not be related to a construction in a different fabric group. Thus a pin check cannot be related to a cottonade.

[Docket AO 113-A 3]

FALL RIVER, MASSACHUSETTS, MARKETING AREA

NOTICE OF HEARING ON HANDLING OF MILK

Proposed amendments to tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Fall River, Massachusetts, Marketing Area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 *et seq.*), and in accordance with the applicable rules of practice and procedure thereunder (7 CFR 900.1-900.17; 6 F. R. 6570, 7 F. R. 3350), notice is hereby given of a hearing to be held in the Watuppa Grange Hall, Westport, Massachusetts, beginning at 10:00 a. m., E. W. T., October 1, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area. These amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to the economic or marketing conditions which relate to the amendments, or any modification thereof, which are hereinafter set forth. Such evidence may also include economic or marketing data relative to the provisions of the said tentatively approved marketing agreement and order which will be affected by approval of the proposed amendments or any modification thereof. The amendments which have been proposed are as follows:

a. Proposed by H. P. Hood and Sons, Inc.:

1. Amend § 947.3 (a) (2) (i) by deleting the words "buttermilk and cultured skim milk." (This will change these products from Class I to Class II.)

2. Amend § 947.3 (a) (2) (ii) to classify as Class II actual plant shrinkage not to exceed 2 percent of all milk classified according to § 947.3. (This will change shrinkage associated with the handling of Class I milk from Class I to Class II.)

b. Proposed by Fall River Milk Producers' Association:

3. Amend § 947.4 (a) by changing the price (Class I) from $3.88 to $4.30.

4. Add new provisions to give representative of the Secretary of Agriculture power to bring about necessary changes in the farm-to-market hauling of milk which are made necessary by the shortage of critical materials and to set the price for such services.

c. Proposed by the New England Milk Producers' Association:

5. Amend § 947.4 (a) to provide an increase in the Class I price.

6. Amend § 947.4 (b) to reflect the higher value now present in skim milk and eliminate New York cream in computing the weighted average price per 40-quart can of 40 percent bottling quality cream at Boston.

7. Amend § 947.4 (d) to provide the prevailing price clause to sales in outside markets.

d. Proposed by Dairy and Poultry Branch, Agricultural Marketing Administration, U. S. D. A.:

8. Revise, in § 947.1 (a) (2), the meaning of the term "Secretary" to include any person who may be authorized to exercise the power and perform the duties of the Secretary.

9. In § 947.2 (c) (Duties), add a new subparagraph as follows:

Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation of this order [and of the marketing agreement] as do not reveal confidential information.

10. Add the following words to § 947.3 (3) (2):

And provided further, That if for any delivery period the quantity of shrinkage cannot be ascertained from the records of the handler, the percentage of shrinkage shall be considered to be 1 percent of the volume handled or such higher percentage as may be indicated from the nature of the handlers' operations.

(This change is to clarify the present intent of the order and of the tentatively approved marketing agreement.)

11. Add an additional paragraph to § 947.3 as follows:

Responsibility of handlers in establishing the classification of milk. In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

12. Amend § 947.3 (c) (2) to read:

Milk or skim milk disposed of by a handler to any plant not subject to provisions hereof shall be classified as Class I milk not to exceed the total quantity of Class I milk or skim milk at such plant.

13. Amend § 947.5 (c) to read:

Verification of reports. For the purpose of ascertaining the correctness of any report made to the market administrator as required by this order or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to (a) examine such books, papers, records, copies of income tax reports, accounts, correspondence, contracts, documents, and memoranda as the market administrator deems relevant and which are within the control (1) of any such handler from whom such report was requested, (2) of any person having, either directly or indirectly, actual or legal control of or over such handler, or (3) of any subsidiary of any such handler; and (b) weigh, sample, and test milk for butterfat.

(This change is to amplify the authority allowable under the act for the market administrator to have access to handlers' books and records in order to verify their reports.)

14. In § 947.7 (b) (4) delete the words "but one." (This reduces the size of the cash balance retained in the producer-settlement fund.)

15. In § 947.9 (c), change "13th day" to "15th day", in § 947.9 (d) change "15th day" to "16th day", and in § 947.11 (a) change "13th day" to "15th day." (This will give handlers 2 days longer to pay their equalization and administration assessments.)

16. In § 947.10 (a) and (b), preface the present language with the words:

On or before the 15th day after the end of each delivery period.
(This will provide a deadline for paying market service deductions.)

17. Add a new section as follows:

Agents. The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Copies of this notice of hearing, of the aforesaid tentatively approved marketing agreement, as amended, and of the order, as amended, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1019 South Building, Washington, D. C., or may be there inspected.

CHICAGO, ILLINOIS, MARKETING AREA

NOTICE REGARDING HANDLING OF MILK

Notice of report and opportunity to file written exceptions with respect to a proposed amendment to the marketing agreement, as amended, and to the marketing order, as amended, regulating the handling of milk in the Chicago, Illinois, Marketing Area, prepared by the Administrator of Agricultural Marketing Administration.

Pursuant to § 900.12 (a) of the General Regulations of the Agricultural Marketing Administration, United States Department of Agriculture, governing proceedings to formulate marketing orders and marketing agreements, notice is hereby given of the filing with the hearing clerk of this report of the Administrator of the Agricultural Marketing Administration, with respect to a proposed amendment to the marketing agreement, as amended, and to the marketing order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Interested parties may file exceptions to the report with the Hearing Clerk, Room 1019, Department of Agriculture, Washington, D. C., not later than the close of business on the 10th day after publication of this notice in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary Statement

The proceeding was initiated by the Agricultural Marketing Administration upon receipt of petitions dated July 31, 1942, received from the Pure Milk Association and from the Chicago Milk Producers Council, for a public hearing on certain changes in the marketing agreement and marketing order program which they proposed. Following this request, and after consideration of the proposals, notice of the hearing was issued on August 7, 1942, and the hearing was convened on August 14, 1942. The time for filing briefs was set at the close

[1] Acting pursuant to authority delegated by Secretary of Agriculture under Act of April 4, 1940 (54 Stat. 81; 7 F.R. 2656).

of the hearing, to expire at midnight, August 24, 1942.

The major issues developed at the hearing were concerned with (1) the basic formula price to be used in determining class prices, (2) the Class III price, and (3) the butterfat differential to be used in computing individual producer payments.

With respect to these issues it is concluded from the record that:

1. The Class III price formula should be revised in order that the Class III price will not be lower than the Class IV price.

2. The basic formula price to be used in determining Class I and Class II prices should be revised.

3. The butterfat differential used in computing individual producer payments should be revised.

The proposed amendment to the order, as amended, which follows, is recommended as the detailed means by which these conclusions may be effectuated. The proposed amendment to the marketing agreement, as amended, is not included in this report because the provisions thereof will be the same as the provisions of the amendment set forth below.

PROPOSED AMENDMENT TO ORDER, AS AMENDED

It is found upon the evidence introduced at the public hearing held in Chicago, Illinois, on August 14 and 15, 1942:

Findings

1. That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e (50 Stat. 246; 7 U.S.C. 1940 ed. 602, 608c) are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

2. That the order, as amended by this amendment, regulates the handling of milk in the same manner as, and is applicable only to handlers defined in, a marketing agreement upon which a hearing has been held; and

3. That the issuance of this amendment, and all of its terms and conditions, tends to effectuate the declared policy of the act.

Provisions

1. Delete § 941.1 (a) (11) and substitute therefore the following:

(11) The term "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture of the United States.

2. Delete § 941.4 (b) (3) and substitute therefor the following:

3. Delete from the proviso in § 941.5 (a) (2) the phrase "the price shall be $2.20 per hundredweight," and substitute therefor the phrase "the price per hundredweight shall be that computed pursuant to this subparagraph less 46 cents or the Class IV price plus 12 cents, whichever is higher."

4. Delete § 941.5 (a) (4) and substitute therefore the following:

(4) Class III milk—The price per hundredweight for milk containing 3.5 percent butterfat during each delivery period shall be the average computed by the market administrator of prices as reported by the United States Department of Agriculture paid during such delivery period to farmers at each of the manufacturing plants or places listed in this subparagraph for which prices are reported, but in no event shall such price be less than the price computed pursuant to subparagraph (5) of this paragraph.

PROCESSING OF FRESH GRAPES, ETC., INTO WINE

PETITIONS RE DENIAL OF APPLICATION FOR EXEMPTION

Notice of opportunity to petition for review of determination denying the application for the partial exemption of the processing of fresh grapes and other fresh fruits into wine, grape juice, or brandy from the maximum hours provisions of the Fair Labor Standards Act of 1938 as an industry of a seasonal nature pursuant to section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder.

Whereas application was made by the Wine Institute of San Francisco, California, for the partial exemption of the processing of fresh grapes and other fresh fruits into wine, grape juice, or brandy from the maximum hours provisions of the Fair Labor Standards Act pursuant to section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder; and

Whereas the Administrator of the Wage and Hour Division gave notice of a public hearing to be held at the National Office of the Wage and Hour Division, New York, New York, on June 19, 1942, before Mr. Merle D. Vincent, who was authorized to take testimony, hear argument, and determine:

Whether the processing of fresh grapes or other fresh fruits into wine, grape juice, or brandy, or any subdivision or combination of these activities is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder, and if so the appropriate limits of such industry,

and

Whereas following such hearing the said Merle D. Vincent duly made his findings of fact and determined as follows:

(1) The processing of fresh grapes or other fresh fruits into wine or grape juice in wineries, and the distillation of brandy in wineries and distilleries, as well as the production of related by-products in these establishments, constitute an integrated industry.

(2) The preliminary operations in the making of wine or brandy, through the "first racking" of the wine, or any combination of operations short of the production of the finished wine, do not constitute a separable branch of an industry within the meaning of section 7 (b) (3) of the Fair Labor Standards Act and Part 526 of the regulations.

(3) Although the establishments engaged in the processing of fresh grapes or other fresh fruits into wine, grape juice, or brandy perform their crushing, fermenting and distilling operations principally during the harvesting season of approximately fourteen weeks each year, they do not cease production during the remainder of the year, but carry on aging, finishing, bottling, or other operations after the completion of the crushing, fermenting, and distilling.

(4) The processing of fresh grapes or other fresh fruits into wine, grape juice, or brandy is not an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Act and Part 526 of the regulations.

The application is denied; and

Whereas said findings and determination were duly filed with the Administrator on September 11, 1942 and are now on file in room 1619, National Office of the Wage and Hour Division, 165 West 46th Street, New York, New York, and are available for examination by all interested parties;

Now, therefore, pursuant to the provisions of § 526.7 of the aforesaid regulations notice is hereby given that any person aggrieved by the said determination may within fifteen days after the date this notice appears in the FEDERAL REGISTER file a petition with the Administrator at the National Office of the Wage and Hour Division requesting that he review the action of the said representative upon the record of the hearing. Such petition shall set forth the grounds upon which the petition for review is based.

Signed at New York, New York, this 16th day of September 1942.

Acting Administrator.

BOARD OF ECONOMIC WARFARE.

Office of Exports.

[License Denial 3]

G. E. STECHERT & COMPANY, ET AL.

REVOCATION OF EXPORT LICENSES

Pursuant to Part 807 of the regulations adopted under section 6 of the Act of July 2, 1940, as amended, the Chief of the Trade Intelligence Division of the Export Control Branch, Office of Exports, has charged G. E. Stechert & Company, Alfred Hafner, Walter Alfred Hafner and Otto Henry Hafner with certain violations of Proclamation 2497 authorizing a Proclaimed List of Certain Blocked Nationals and Controlling Certain Exports issued in part under the authority of said section. The respondents have filed a written answer to the charges above set forth.

The Compliance Commissioner, duly designated under § 807.1 of the aforesaid regulations, has reviewed the record and filed his findings of fact and recommendations in the matter. The following facts have been found:

G. E. Stechert & Company is a partnership engaged in buying, selling, exporting and importing books and periodicals, mostly of a scientific nature; its principal place of business is 31–37 East Tenth Street, New York City. The sole members of the partnership at all times hereafter mentioned have been Alfred Hafner, Walter Alfred Hafner and Otto Henry Hafner. Between the dates of July 30, 1941 and November 19, 1941 G. E. Stechert & Company and the partners thereof sent to Frederico Will, a German book seller located in Rio de Janeiro, Brazil, various shipments of books totaling $9.50. Between the dates of December 23, 1941 and March 6, 1942, G. E. Stechert & Company and the partners thereof sent to Jose Alves Nogueira of Rio de Janeiro, Brazil, various shipments of books of the total invoice value of $149.01. These exportations occurred subsequent to July 17, 1941, on which date the name of Frederico Will was placed on the aforesaid Proclamation List of Certain Blocked Nationals. Jose Alves Nogueira was during the above mentioned period acting as an agent of Frederico Will with respect to the exportations made to him and G. E. Stechert & Company and the

partners thereof knew that Jose Alves Nogueira was acting as the agent of Frederico Will. The exportations to Will and Nogueira were not authorized by a license as provided for in Proclamation 2413 or 2465; nor had the Administrator of Export Control determined that such prohibition or exportation would be an unusual hardship on American interests. The Compliance Commissioner has found that these exportations were directly or indirectly to, or on behalf of, or for the account of a Blocked National and as such constituted violations of section 3 of the aforesaid Proclamation 2497 and section 6 of the Act of July 2, 1940, as amended. Upon consideration of the record, findings of fact, and all recommendations in the matter, *It is hereby ordered*, That:

(1) All export licenses heretofore issued to G. E. Stechert & Company, Alfred Hafner, Walter Alfred Hafner and Otto Henry Hafner for exportations as yet not consummated are hereby revoked, and

(2) Until November 16, 1942, G. E. Stechert & Company, Alfred Hafner, Walter Alfred Hafner and Otto Henry Hafner and any person acting on behalf of either of them are denied the privilege of obtaining individual export licenses and the use of any general or unlimited export licenses for any exportation whatsoever from the United States.

The respondents may appeal in writing to the Assistant Director in charge of the Office of Exports provided the appeal is taken within ten days after receipt of this order.

WESTERN UNION TELEGRAPH CO. AND POSTAL TELEGRAPH-CABLE CO.

ORDER FOR HEARING ON "TOURATE MESSAGES"

In the matter of The Western Union Telegraph Company and Postal Telegraph-Cable Company (New York); discontinuance of "Tourate Messages".

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 15th day of September 1942;

It appearing that there have been filed with the Commission Supplement No. 1 to The Western Union Telegraph Company Tariff F.C.C. No. 221, and First Revised page 24 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 63, both effective September 18, 1942, which provide for the discontinuance of a classification of telegraph communications described as "Tourate";

It further appearing that said discontinuance of the "Tourate" classification makes increases in rates and charges and states regulations and practices effecting such increases in rates and charges for the transmission of telegraph communications in interstate commerce; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of said tariff provisions should be postponed pending hearing and decision thereon;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the rates, charges, regulations and practices contained in said Supplement No. 1 to The Western Union Telegraph Company Tariff F.C.C. No. 221, and First Revised page 24 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 63, insofar as they relate to the discontinuance of the classification of "Tourate" communications;

It is further ordered, That the operation of said tariff schedules, Supplement No. 1 to The Western Union Telegraph Company Tariff F.C.C. No. 221, and First Revised page 24 to Postal Telegraph-Cable Company (New York) Tariff F.C.C. No. 63, insofar as they will result in an increase in rates and charges for delivery of interstate telegraph communications classified as "Tourate" communications, be suspended; and that the use of the rates, charges, regulations and practices therein stated as applicable to such "Tourate" communications be deferred until December 18, 1942, unless otherwise ordered by the Commission; and during said period of suspension no change shall be made in such rates, charges, regulations and practices, or in the rates, charges, regulations and practices sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby instituted, into the lawfulness of the rates, charges, classifications, regulations, practices and services of The Western Union Telegraph Company and the Postal Telegraph-Cable Company (New York) for and in connection with "Tourate" communications;

It is further ordered, That in the event a decision as to the lawfulness of the rates, charges, classifications, regulations, practices and services herein suspended has not been made during the suspension period, and increased charges shall be made effective with respect to "Tourate" communications, The Western Union Telegraph Company, the Postal Telegraph-Cable Company (New York), and all other carriers participating in service provided under the tariff provisions suspended herein, shall, until further order of the Commission, each keep accurate account of all amounts received by each of them by reason of any increase in charges effected thereby; in which accounts each such carrier shall specify by whom and in whose behalf such amounts are paid;

It is further ordered, That The Western Union Telegraph Company, the Postal Telegraph-Cable Company (New York), and each participating carrier, shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing January 10, 1943, showing the amounts received and accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order shall be filed in the office of the Federal Communications Commission with said tariffs herein suspended in part; that copies hereof be served upon the carrier parties to such tariffs; and that said carrier parties be, and they are hereby each made a party respondent to this proceeding:

It is further ordered, That this matter be, and the same is hereby, assigned for hearing at 10 o'clock on the 15th day of October 1942 at the office of the Federal Communications Commission in Washington, D. C.

[Docket Nos. G-257, G-242]

EL PASO NATURAL GAS CO., ET AL.

ORDER DENYING PETITION FOR POSTPONEMENT AND TRANSFER OF HEARING

SEPTEMBER 16, 1942.

In the matter of El Paso Natural Gas Company, Western Gas Company, and El Paso Gas Transportation Corporation; The State of Arizona, complainant, v. Western Gas Company and El Paso Natural Gas Company, defendants.

Upon consideration of the petition filed September 5, 1942, by El Paso Natural Gas Company, Western Gas Company, and El Paso Gas Transportation Corporation, respondents and defendants in the above-entitled matters, requesting a continuance of the hearing in such matters for a period of ninety days from September 30, 1942, and transfer of the place of said hearing from Phoenix, Arizona;

The Commission *finds* that: (1) The complaint of the State of Arizona was duly served on the defendants March 21, 1942; the Commission instituted its investigation of respondents April 21, 1942; and the defendants-respondents have had, therefore, ample notice and opportunity for preparation for the hearing herein;

(2) An important witness of the Commission's staff whose testimony is believed relevant and material to the issues in these proceedings has been called to serve in the armed forces, and further postponement of the hearing may make it impossible to obtain his testimony;

(3) Subsequent to a previous request made by the respondents and defendants for a postponement of hearing, the Commission by its order of September 1, 1942, extended the date of hearing from September 9, 1942, to September 30, 1942;

(4) Under the existing circumstances no good cause has been shown for the granting of the petition for a further postponement:

Wherefore, the Commission *orders*, That: (a) The petition of El Paso Natural Gas Company, Western Gas Company and El Paso Gas Transportation Corporation for postponement and transfer of the hearing in the above-entitled matters be and the same is hereby denied:

(c) Subsequent hearings may be held at such times and places as the Trial Examiner may designate.

FEDERAL TRADE COMMISSION.

[Docket No. 4547]

J. T. JARRELL CO.

COMPLAINT AND NOTICE OF HEARING

In the matter of Jim S. Porter, trading as J. T. Jarrell Company.

Supplemental Complaint

The Federal Trade Commission, having reason to believe that the respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, Sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues a supplemental complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent Jim S. Porter is an individual trading and doing business as the J. T. Jarrell Company with his principal office and place of business located at No. 7 Commercial Warehouse Building, Little Rock, Arkansas.

J. T. Jarrell Company, subsequent to the issuance of the original complaint herein, was a corporation organized and existing under and by virtue of the laws of the State of Arkansas with its principal office and place of business located at No. 7 Commercial Warehouse Building, Little Rock, Arkansas.

On July 31, 1941, J. T. Jarrell, as a corporation, was dissolved and its Vice President and principal stockholder, Jim S. Porter, continued to operate the business of J. T. Jarrell Company in the same manner and form as when J. T. Jarrell Company was a corporation.

PAR. 2. Respondent, Jim S. Porter, trading as the J. T. Jarrell Company, is now engaged in the business of acting as a broker in the sale of food products, particularly canned fish, fruits and vegetables.

Respondent is also engaged in the business of buying and selling, for his own account, food products, particularly canned fish, fruits and vegetables. The purchases which respondent has been making for his own account have been made in his own name, trading as the J. T. Jarrell Company.

Respondent causes the products which he purchases for his own account to be shipped and transported to him from the various places of business of those sellers from whom respondent purchases said products, many of such sellers being located and doing business in states other than the State of Arkansas.

PAR. 3. In the course and conduct of his business of buying food products for his own account in commerce, as aforesaid, the respondent has been and is now receiving and accepting from various sellers brokerage fees or allowances or discounts in lieu thereof on many of said purchases for his own account. In so doing, respondent, Jim S. Porter, trading as J. T. Jarrell Company, has continued practices which were formerly employed by the J. T. Jarrell Company, a corpora-

tion, as alleged in the original complaint herein, and subsequently dissolved.

The respondent receives such brokerage fees, discounts and allowances in lieu thereof in various ways, among which are the following four specified ways:

1. By purchasing canned food stuffs, dried fruits, canned fish, and other miscellaneous merchandise from sellers at prices lower than the same sellers sell such commodities of like grade and quality to other purchasers.

2. By various methods obtaining such commodities at prices that are lower than the prices at which such commodities of like grade and quality are sold by such sellers to other purchasers by an amount which reflects all or part of the brokerage fees currently paid by said sellers to brokers for the selling of such commodities in behalf of such sellers.

3. By making deductions in lieu of brokerage from the invoices of certain sellers when paying such invoices.

4. By receiving from certain sellers rebate checks representing the customary brokerage fees of such sellers.

As illustrative of the practices pursued by the respondent in receiving and accepting allowances and discounts in lieu of brokerage upon his own purchases of food stuffs are the following:

1. Respondent purchases salmon for his own account from Griffith-Durney Company of Seattle, Washington. On such purchases he receives and accepts an allowance of 3% off the invoice price.

The 3% allowance granted to the respondent by Griffith-Durney Company is paid in the form of a check within a 30 day period after the shipment of the commodity.

2. The respondent purchases dried fruits from Guggenheime & Company of San Francisco, California, for his own account and receives from this seller an allowance or discount in lieu of brokerage in the amount of 2½% which amount is deducted by the respondent from the invoice price when remitting for dried fruits purchased from Guggenheime & Company for his own account.

3. The respondent purchases canned fish from Fred B. Neuhoff Company of Los Angeles, California, on a net price basis, which price basis reflects an allowance or discount in lieu of brokerage.

4. The respondent purchases its requirements of beans from the Midwest Bean Company of Denver, Colorado, on a net price basis, which price basis reflects an allowance or discount in lieu of brokerage.

PAR. 4. The foregoing acts of the respondent constitute a violation of subsection (c) of section 2 of the Clayton Act as amended by the Robinson-Patman Act approved June 19, 1936.

Wherefore, the premises considered, the Federal Trade Commission, on this 16th day of September, A. D. 1942, issues its supplemental complaint against said respondent.

Notice

Notice is hereby given you, Jim S. Porter, trading as J. T. Jarrell Company, respondent herein, that the 23d day of October, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 16th day of September, A. D. 1942.

By the Commission.

[Docket No. 4835]

GLOVER & WILSON

COMPLAINT AND NOTICE OF HEARING

In the Matter of Roy Glover and Ray Wilson, trading as Glover & Wilson.

Complaint

The Federal Trade Commission, having reason to believe that the respondents named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, Sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint stating its charges with respect thereto as follows:

PARAGRAPH ONE: Respondents Roy Glover and Ray Wilson are individuals trading and doing business as Glover & Wilson with their principal office and place of business located at No. 1 Commercial Warehouse Building, Little Rock, Arkansas.

PAR. TWO: Respondents are now engaged in the business of acting as a broker in the sale of food products, particularly canned fruits and vegetables.

Respondents have also been engaged in the business of buying and selling, for their own account, food products, particularly canned fruits and vegetables. The purchases which respondents have been making for their own account have been made ordinarily in the name of Glover & Wilson. Orders have been placed by the respondents with various manufacturers, packers and sellers for various food products and the respondents cause many of the products which they purchase for their own account to be shipped and transported to them across state lines from the various places of business of those sellers from whom respondents purchase said products, many of such sellers being located and doing business in states other than the State of Arkansas.

PAR. THREE: In the course and conduct of their business of buying food products for their own account in commerce, as aforesaid, the respondents have been and are now receiving and accepting from numerous sellers, brokerage fees or allowances or discounts in lieu thereof on many of said purchases for their own account.

As illustrative of the practices pursued by the respondents in receiving and accepting allowances and discounts in lieu of brokerage upon their own purchases of food stuffs are the following:

1. The respondents purchase sardines for their own account from the Val Vita Food Products Company of Fullerton, California, and receive from such company a brokerage fee amounting to approximately 3% off of the invoice price, which brokerage fee is deducted from the invoice when the respondents make payment to this seller for such product

2. The respondents purchase dried fruit for their own account from West Coast Growers and Packers of Fresno, California, and receive from such seller a brokerage fee of approximately 5%, which is paid by such seller to the respondents upon the purchases made by the respondents for their own account.

3. The respondents purchase canned fish from the Oceanic Sales Company of Seattle, Washington, for their own account and receive from such seller a brokerage fee of approximately 3½% upon such purchase made from such seller by the respondents. The fee is paid directly by the seller to the respondents as brokerage upon the purchases of the respondents for their own account.

4. The respondents purchase canned fish for their own account from the Superior Fisheries, Inc., of Los Angeles, California, and receive from such company a 5% allowance in lieu of brokerage, which allowance is deducted by the respondents from the invoice price when payment is made by the respondents to this seller for such products.

PAR. FOUR: The aforesaid acts of respondents constitute a violation of subsection (c) of section 2 of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936.

Wherefore, the premises considered, the Federal Trade Commission, on this 16th day of September, A. D., 1942, issues its complaint against said respondents.

Notice

Notice is hereby given you, Roy Glover and Ray Wilson, trading as Glover & Wilson, respondents herein, that the 23rd day of October, A. D. 1942, at 2 o'clock in the afternoon is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of the fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 16th day of September, A. D. 1942.

By the Commission.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of September, 1942.

It appearing to the Commission that its notice of filing and order for hearing dated September 4, 1942 (Holding Company Act Release No. 3781) incorrectly named Olcott Falls Company as an applicant, and should be corrected in that and certain other related respects:

It is hereby ordered:

(1) That said plan, as so amended, be, and the same is hereby approved, subject, however, to those conditions and reservations of jurisdiction contained in our order entered herein on July 8, 1942, except to the extent that such conditions or reservations, or any one or more of them, may be in conflict with anything in this order contained;

(2) The declaration embraced within the subject application, as amended, as aforesaid, regarding the proposed issuance and sale by Southwestern Public Service Company of (a) First Mortgage and Collateral Trust Bonds, 4% Series due in 1972, in the principal amount of $20,000,000 (b) Serial Notes (unsecured), maturing in the principal amount of $500,000 annually from 1943 to 1954, inclusive, being in the aggregate principal amount of $6,000,000, (c) 6½% Cumulative Preferred Stock, of the par value of $100 per share, in the aggregate par amount of $6,000,000, and (d) 185,000 shares of common stock of the par value of $1 per share and transferable warrants evidencing certain present stockholder's right of subscription thereto, and (e) a promissory note in the principal amount of $700,000 (evidencing a temporary bank loan incident to the refinancing to be accomplished through the issuance and sale of the other securities just enumerated) and of Community Power and Light Company regarding the issuance and sale of its promissory note in a principal amount not in excess of $675,000 (likewise evidencing a temporary bank loan incident to the mechanics of said refinancing), be permitted to become effective;

Provided, The declaration regarding the issuance and sale of the above identified securities is upon the express condition that, so long as any of its said 6½% Cumulative Preferred Stock shall remain outstanding, Southwestern Public Service Company shall provide for a Sinking Fund for such stock in the amount and to the extent and in the manner set forth in Appendix "A" attached to this order, and hereby made a part hereof by reference;

And provided further, That Southwestern Public Service Company shall not (i) declare or pay any dividends upon its Common Stock in excess of 50% of the "Net Earnings of the Company Available for Dividends" (as defined in section 8 of Article Second of the Indenture providing for the issuance of the Serial Notes of said Company) remaining after deducting from such "Net Earnings of the Company Available for Dividends" (a) dividends paid or accrued on the Preferred Stock (but not exceeding an amount equal to dividends computed at dividend rates applicable to the Preferred Stock on which such dividends were paid or accrued) and (b) the 6½% Cumulative Preferred Stock Sinking Fund requirements (on an appropriate pro rata basis), such "Net Earnings of the Company Available for Dividends" and said deductions therefrom to be computed from September 1, 1942 up to the end of the calendar month immediately preceding that in which it is then proposed to declare such dividend, nor (ii) declare or pay dividends on its Common Stock in excess of 50¢ per share in any twelve months' period commencing September 1 (the first such period commencing September 1, 1942), nor (iii) make any payment or distribution on such Common Stock (by purchase or otherwise in money or other property) other than as permitted by (i) and (ii) above; in each case pending the further order or orders of the Commission, except that none of such restrictions shall apply to any payment which may be made in connection with any rights, or asserted rights, of appraisal and payment which any stockholders of Community and/or General may have under any state statute applicable to the merger of Community Power and Light Company and General Public Utilities, Inc. into Southwestern Public Service Company;

And provided further, That Southwestern Public Service Company shall cause to be executed and delivered to the Trustee under the Indenture to secure its First Mortgage and Collateral Trust Bonds hereinabove mentioned, within 60 days from the date hereof, an Indenture supplemental to the original Indenture securing said bonds, which supplemental Indenture shall contain a covenant restricting the declaration or payment of dividends (or other distribution) upon the Common Stock of that company during the continuance of the indebtedness so secured in substantially the same manner as, and to the same extent such declaration and payment is by the Serial Note Indenture, presently proposed to be executed and delivered, restricted during the life of the indebtedness by said latter Indenture secured.

(3) That the conditions and restrictions set forth in the last preceding division hereof (numbered (2)) shall take the place of and supersede that condition numbered (3) in the said order of this Commission of July 8, 1942, which condition, in substantial effect, forbade the payment of any dividend, or the making of any other distribution upon the common stock of Southwestern Public Service Company pending the further order, or orders, of this Commission;

(4) That the declaration of Community Power and Light Company regarding the making by said company of a capital contribution of Texas-New Mexico Utilities Company of the amount of the proceeds of a bank loan to be effected by said Community Power and Light Company in an amount not in excess of $675,000 shall, and the same is hereby permitted to become effective.

(5) That the acquisition from Continental Gas and Electric Corporation of all the outstanding shares of capital stock, notes and open accounts of Panhandle Power and Light Company, Cimarron Utilities Company and Guymon Gas Company, all itemized in our findings of July 17, 1942, The United Light and Power Company, et al., Holding Company Act Release No. 3667, which itemization is by reference made a part hereof, authorized by the said order of July 8, 1942, to be made directly by Southwestern Public Service Company, may be made by The Kansas Utilities Company and subsequently transferred in liquidation to said Southwestern Public Service Company, as described in said plan, as now amended, such acquisition being hereby approved and authorized;

(6) That the declaration of Southwestern Public Service Company regarding the proposed payment from its capital surplus of certain dividends upon the preferred stock presently proposed to be issued and sold by it be, and it is hereby granted and permitted to become effective in respect only of the dividends for the first two quarter-annual dividend periods and in all other respects said declaration relative to the payment of dividends from capital surplus is denied, without prejudice to the right of Southwestern Public Service Company to renew its declaration before this Commission in this connection in regard to dividend payments contemplated to be made for any subsequent period, or periods, and;

Provided, And the authority granted in the last preceding paragraph hereof is upon the express condition, that any amount which may be charged to the capital surplus of Southwestern Public Service Company in connection with the dividend payments so authorized to be charged against such capital surplus shall be eliminated by credits thereto in an aggregate amount sufficient for that purpose from the earnings of the company which would otherwise be available for the payment of dividends before any dividends shall be declared or paid upon the common stock of said company.

(7) That all the transactions contemplated by the Plan of Integration and Simplification, including the acquisition of properties and securities (and in particular the acquisition of the securities of Panhandle Power and Light Company, Cimarron Utilities Company and Guymon Gas Company), the sale of properties and securities (and in particular the sale of the properties of The Kansas Utilities Company), the merger of Community and General into Southwestern and the issuance by the latter company of new securities consisting of bonds, notes, Preferred and Common Stocks, and the issuance, transfer, exchange or conveyance of properties or securities pursuant to said Plan of Integration and Simplification, are all necessary or appropriate to the Integration or Simplification of the holding company system of Community Power and Light Company and to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, the securities and properties to be so issued, transferred, exchanged or conveyed being specified and itemized either in this order, or the order of the Commission dated July 8, 1942, or in the findings and opinion with respect hereto or thereto;

(8) That jurisdiction in respect of the underwriting compensation upon the sale of the bonds, serial notes and common stock, hereinabove identified, is hereby released the Commission having made no adverse findings in respect thereof, but, in all other respects, jurisdiction over all fees and expenses incurred, or to be incurred, in connection with said plan of reorganization and said refinancing, and all transactions incidental thereto shall continue to be reserved, pursuant to the Commission's said order of July 8, 1942;

(9) That the time within which the several transactions authorized by the said order of July 8, were required to be consummated, be, and the same is hereby extended for a period of 60 days from the date of this present order.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

APPENDIX A

So long as any shares of the 6½% Cumulative Preferred Stock shall be outstanding, Southwestern Public Service Company (hereinafter called the "Company") shall, out of the "Net Earnings of the Company Available for the Sinking Fund", as hereinafter defined, or out of its earned surplus, set apart and apply, as and for a Sinking Fund for the 6½% Cumulative Preferred Stock, on April 1, 1943 and on April 1 in each year thereafter, to and including April 1, 1952, an amount of cash equal to 1% of the aggregate par value of 6½% Cumulative Preferred Stock at any time theretofore issued by the Company, and on April 1, 1953 and on April 1 in each year thereafter (the several dates hereinbefore referred to in this sentence being referred to in this Item as the "Sinking Fund payment date"), an amount of cash equal to 3% of the aggregate par value of 6½% Cumulative Preferred Stock at any time theretofore issued by the Company, such funds to be applied to the purchase or re-

Reference

demption of 6½% Cumulative Preferred Stock as hereinafter provided. The Company shall be entitled to a credit on its foregoing obligation to set aside cash for the Sinking Fund to the extent of the costs to it (including accrued dividends and brokerage commissions, if any), but not exceeding the redemption price (plus such accrued dividends and commissions, if any) thereof of all shares of 6½% Cumulative Preferred Stock theretofore purchased, redeemed or otherwise acquired, and cancelled, by it otherwise than through operation of the Sinking Fund and not theretofore applied as a credit on such Sinking Fund obligation. The term "Net Earnings of the Company Available for the Sinking Fund", as used herein, shall mean the "Net Earnings of the Company Available for Dividends", as defined in section 8 of Article Second of the Indenture providing for the issuance of the Serial Notes of the Company, for the calendar year immediately preceding such Sinking Fund payment date, after deducting from such "Net Earnings of the Company Available for Dividends" an amount equal to the dividends paid or accrued during such calendar year on the Preferred Stock (but not exceeding an amount equal to dividends computed at dividend rate or rates applicable to the Preferred Stock on which such dividends were paid or accrued).

Moneys in the Sinking Fund shall from time to time be applied by the Company to the purchase of 6½% Cumulative Preferred Stock at private sale or in the open market, with or without advertising for tenders, at the best prices obtainable by the Company, but not exceeding the redemption price thereof, plus accrued dividends and brokerage commissions, if any. If, on or before the January 15 next succeeding any such Sinking Fund payment date, the Company shall not have exhausted the moneys in the Sinking Fund in accordance with the foregoing provisions, then such moneys remaining in the Sinking Fund (if in excess of $5,000) shall be applied by the Company to the redemption on the next succeeding March 1 of shares of said stock, in accordance with the terms of redemption provided in the Agreement of Merger referred to above. All certificates for shares of 6½% Cumulative Preferred Stock purchased, redeemed or otherwise acquired through operation of the Sinking Fund shall be promptly cancelled by the Company.

If for any reason provision for the Sinking Fund shall not be made as hereinabove provided, the deficiency (but without interest thereon) shall be fully made up by the Company before any dividends are declared or any other payment or distribution made on the Common Stock of the Company.

§ 92.14 *General.* When a vessel under charter is to be redelivered to the owner or other Government agency the Chief of Transportation will advise the officer in charge of the port where redelivery will be made of the fact, designating the date set for redelivery and directing such officer to accomplish the redelivery. Upon receipt of this advice, the officer in charge of the port will advise the owner of the vessel and any other parties interested and will appoint a board of survey and an inventory board in accordance with §§ 92.18 and 92.19. (c) Form of letter of notification of intention to redeliver:

The present voyage will be completed upon the arrival of the vessel at this port, which it is expected will be on ----------. You will be advised of the actual date of arrival as soon as it is known.

The claim should be complete, represent your entire claim, and should so state.

§ 92.19 *Board of survey.* * * *

(b) *General procedure.* The board of survey will survey and will come to a finding on each vessel as soon as possible after its arrival at the port, after consideration of any itemized claims for damages submitted by the owner or other Government agency and of all possible evidence obtained relating to the history of the ship and its services prior to allocation to the War Department. It will make a recommendation of the necessary repairs that should be made to place the ship in the same or as good order and condition as that in which she was when delivered to the United States, ordinary wear and tear and damage due to the operation of risks assumed by the owners excepted, and the lump sum regarded as just compensation for the damage occasioned to the vessel that it recommends to be paid in lieu of repairs. When, in the judgment of the board, minor repairs can be made without in-

terference with the survey of the vessel, the matter should be brought promptly to the attention of the officer in charge of the port for necessary action. The board at its discretion may solicit bids for the accomplishment of repairs and consider such bids in arriving at the award determined upon. In case any member of the board disagrees with the majority, he will submit a minority report to be forwarded with the report of the board. (R.S. 161; 5 U.S.C. 22) [Par. 9, AR 55–520, Sept. 1, 1942]

Effective September 16, 1942, Part 61 of the Civil Air Regulations is amended as follows:

1. By striking §§ 61.518 through 61.5186 (g) and inserting in lieu thereof the following:

§ 61.518 *Flight time limitations.* The following rules prescribed the flight time limitations for all pilots in scheduled air transportation:

(a) A pilot may be scheduled to fly 8 hours or less during any 24 consecutive hours, without a rest period during such 8 hours. If such pilot be scheduled to fly in excess of 8 hours during any 24 consecutive hours, he shall be given an intervening rest period at or before the termination of 8 scheduled hours of flight duty. Such rest period shall equal at least twice the number of hours flown since the last preceding rest period and in no case shall such rest period be less than 8 hours. During such rest period, the pilot shall be relieved of all duty with the air carrier.

(b) When a pilot has flown in scheduled air transportation service in excess of 8 hours during any 24 consecutive hours, he shall receive 24 hours of rest before being assigned any duty with the air carrier. Time spent in dead-head transportation to duty assignment shall not be considered part of such rest period.

(c) A pilot shall not fly in excess of 30 hours during any 7 consecutive days. Relief from all duty for not less than 24 consecutive hours shall be provided for and given to such pilot at least once during any 7 consecutive days.

(d) A pilot shall not fly in scheduled air transportation service as a member of the crew more than 100 hours in any one month: *Provided,* That the Administrator is authorized, during the present war and until 6 months after the termination thereof, to permit the maximum of 100 hours to be exceeded to the extent necessary to complete a particular flight for military purposes.

(e) A pilot shall not fly in scheduled air transportation service as a member of the crew more than 1,000 hours in any one calendar year: *Provided,* That this limitation shall not be effective during the present war and until 6 months after the termination thereof, and that during this period the maximum flying hours permitted in any one calendar year shall be controlled by the provisions of paragraph (d) of this section.

(f) The foregoing flight time limitations shall not be applicable when a pilot is qualifying on a regular route, or alternate route, over which such pilot is not qualified.

(g) A pilot shall not do other commercial flying while employed by an air carrier when such flying, in addition to that in scheduled air transportation service, will exceed any flight time limitations specified herein.

[Docket No. A-1627]

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER GRANTING RELIEF, ETC.

Memorandum opinion and order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 10 for the establishment of a price exception for the resultant sludge coal produced by Mine Index No. 87.

An original petition pursuant to the provisions of section 4 II (d) of the Bituminous Coal Act has been filed with this Division by the above-named party, requesting the establishment of a price exception permitting the sale of the resultant sludge coal which passes through dewatering screens with openings not larger than 1 mm. for Mine Index No. 87 of Central States Collieries, Inc., at 75 cents per net ton for rail and truck shipments.

Petitioner represents that 150 tons of this sludge product are produced each week in excess of the 1500 tons per month which are burned in the power plant of Mine Index No. 87 to produce electricity for operation of the mine and that this excess amount is accumulating in large quantity. By Order issued October 10, 1941, 6 F.R. 5253, in Docket No. A-825, the Peabody Coal Company was permitted to sell the sludge product of its Majestic Mine, as were other mines of Peabody and one mine of Franklin County Coal Company, at the established price for Size Group No. 16 coals of 60 cents per net ton. Petitioner sets forth the following analysis of the resultant product produced at Mine Index No. 87 of Central States Collieries, Inc., compared with the analysis of the resultant coal which was involved in Docket No. A-825 and with the analysis of the resultant coal involved in Docket No. A-1450 where permission was granted Mine Index No. 36 of the Delta Coal Mining Company to sell its sludge at 85 cents per net ton:

	Little Sister 1 mm. sludge		Majestic 28 mesh x 0 sludge		Delta ½ mm.x½" sludge	
	As received	Dry	As received	Dry	As received	Dry
Moisture	19.40	.....	22.11	.....	22.28	.....
Ash	12.65	15.69	12.83	16.47	7.95	10.22
Volatile	31.17	38.67	26.41	.....	26.54	.....
Fixed Carbon	36.78	45.64	38.65	.....	43.23	.....
B.t.u.	9679	12008	8089	11340	10106	13000
Sulphur	2.59	3.21	1.40	1.80	1.77	2.27

This comparison indicates that the sludge of the Little Sister Mine (Mine Index No. 87) has a higher B.t.u. than that of the Majestic Mine, for which a minimum price of 60 cents per net ton has been established, while at the same time, it has a lower B.t.u. than the sludge of the Delta Mine, for which a price of 85 cents per net ton has been established. Accordingly, the price of 75 cents per net ton for the sludge of Mine Index No. 87 proposed by the petitioner is fair and equitable so far as can be ascertained at this time.

It appears, therefore, that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth.

No petitions of intervention having been filed with the Division in the above-entitled matter, and the following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That temporary relief in the above-entitled matter is granted as follows: Commencing forthwith § 330.8 (*Price instructions and exceptions*—(b) *Price exceptions*) and § 330.21 (*Price instructions and exceptions*—(b) *Price exceptions*) in the Schedules of Effective Minimum Prices for District No. 10 for All Shipments Except Truck and for Truck Shipments be and they hereby are amended to include the following price exception:

At Mine Index No. 87 the resultant coal which passes through dewatering screens with openings not larger than 1 mm., or the equivalent thereof, after the production of washed coal in other sizes, may be sold at a price not less than 75 cents per net ton: *Provided, however*, That this price shall not apply to said resultant product if it has been mechanically or thermally dried: *And further provided*, That there shall be filed with District Board No. 10 and the Bituminous Coal Division at Washington, D. C., within 10 days after any such sale a complete description of such sale as is required by the Marketing Rules and Regulations of the Division, Order No. 313, and any other order of the Division. The filing required herein shall be in addition to that required for filing with the field office.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered and that jurisdiction be and it hereby is reserved by the Acting Director subsequently to modify or revoke the price exception herein established.

Dated: September 18, 1942.

Acting Director.

(b) *Restrictions on manufacture.* (1) No manufacturer, except as provided in paragraph (b) (6) hereof, shall during the period September 1 to December 31, 1942 use or consume any fat or oil in any class of use listed in Schedule A in a quantity in excess of the percentage specified in Schedule A, of one-half of his total use or consumption of fats or oils in such class of use during the eight months September 1 to December 31, 1940 and September 1 to December 31, 1941.

(2) No manufacturer, except as provided in paragraph (b) (6) hereof, shall in any calendar quarter beginning with the first quarter of 1943, use or consume any fat or oil in any class of use listed in Schedule A in a quantity in excess of the percentage specified in such Schedule A of his average quarterly use or consumption of fats or oils in such class of use during the corresponding quarters of the two years 1940 and 1941.

(3) If any manufacturer shall not in any period or quarter use or consume the quantity of fat or oil permitted by paragraphs (b) (1) and (2) hereof, the unused part of his quota for such period or quarter shall for the purposes of such paragraphs (b) (1) and (2) be carried forward and added to his permitted quota for the succeeding quarters: *Provided, however,* That any unused part of his permitted quota for any prior period or quarter shall not be carried forward beyond June 30, 1943 and beyond the 30th day of June of each year thereafter.

(4) For the purpose of determining the quantity of raw foots which may be used or consumed, use or consumption shall be calculated on the basis of total fatty acid content.

(5) The restrictions on fats and oils hereby imposed are imposed with respect to fats and oils in the aggregate, and such restrictions are not to be construed to limit a manufacturer to the same fat or oil used or consumed by him in the base period.

(6) Nothing in paragraphs (b) (1) and (b) (2) hereof shall restrict:

(i) The use of fats and oils in any period or quarter by any manufacturer whose aggregate use or consumption of fats and oils in such period is less than 6,000 lbs.;

(ii) The use of fats and oils in the manufacture of products to be delivered pursuant to the Act of March 11, 1941, entitled An Act to Promote the Defense of the United States (Lend-Lease Act);

(iii) The use of fats and oils in the manufacture of any edible product where such product is sold to the Army or Navy of the United States by the manufacturer.

(7) For the purposes of determining a manufacturer's permissible quota under paragraphs (b) (1) and (b) (2) hereof, any fat or oil used in the manufacture of the products referred to in subdivisions (ii) and (iii) of paragraph (b) (6) hereof shall be excluded both from the base period on which such quota is based and from the period or quarter during which use or consumption is hereby limited.

(c) *Restrictions on deliveries of linseed oil.* (1) No person engaged in the business of selling linseed oil at wholesale (whether crushed or processed by him or purchased for resale) shall deliver in the aggregate to persons other than manufacturers:

(i) During the period September 1 to December 31, 1942, more linseed oil (whether raw or processed) than 80% of one half of the total amount of linseed oil so delivered by him during the eight months September 1 to December 31, 1940 and September 1 to December 31, 1941.

(ii) During any calendar quarter, beginning with the first quarter of 1943, more linseed oil (whether raw or processed) than 80% of the average quarterly amount of linseed oil so delivered by him during the corresponding quarters of the two years 1940 and 1941.

(2) In reducing deliveries pursuant to paragraph (c) (1) hereof, no person shall make discriminatory cuts as between customers, whether new or old.

(d) *Restrictions on processing and inventories.* (1) No manufacturer shall hereafter change the condition of any fat or oil in his raw materials inventory, or add any additional materials thereto, except to the extent necessary to store any such fat or oil in his raw materials inventory in a form necessary to prevent deterioration thereof, or except to put such fats or oils into process for the manufacture of his finished products subject to the limitations of paragraph (d) (2). Nothing contained in this paragraph shall be construed to limit the amount of fats and oils which may be held by any manufacturer in his raw materials inventory.

(2) No manufacturer shall hereafter increase the rate at which fats and oils are put into process by him, except to the extent necessary to meet the required deliveries of his finished products within the limitations established by this order, and to maintain only a practicable minimum working inventory of such finished products. The term "practicable minimum working inventory" is to be strictly construed. The mere fact that the turn-over has increased, or that materials are difficult to obtain, does not justify maintaining inventories above the minimum at which his operations can be continued.

(e) *Reports.* Every manufacturer and every other person affected by this order shall file such reports giving such information at such times and upon such form or forms as the Director General for Operations may from time to time prescribe.

(f) *Effect of other orders.* Insofar as any other order of the Director of Priorities, the Director of Industry Operations or the Director General for Operations, heretofore or hereafter issued, limits or curtails to a greater extent than herein provided the use, acquisition or disposition of any fat or oil, the limitations of such other order shall control.

(g) *Miscellaneous provisions.*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, whether because of the absence of use during the two-year base period, or otherwise, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of fats or oils conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the Director General for Operations by addressing a letter to this War Production Board, Chemicals Branch, Washington, D. C., Ref: M-71, setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(3) *Violations.* Any person who willfully violates any provisions of this order or who in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C., Ref: M-71.

(5) No cloth jobber shall extend any preference ratings received from a producer for wool cloths described in paragraph (d) (2) and (3) to the extent that his inventory of such cloths is or will become in excess of the yardage of all such cloths sold or delivered by him during the preceding 90 days.

(e) *Revocation of ratings.* The preference rating assigned by this order as issued June 8, 1942 is hereby revoked as to any undelivered material to the extent that the delivery of such undelivered material is inconsistent with the restrictions of this amended order.

(4) No person shall sell or deliver to any person any officers uniform produced under this order or any material to be physically incorporated into any officers uniform if he knows or has reason to believe such officers uniform or material is to be used in violation of the terms of this order.

(h) *Applications and appeals.* Any producer, including a tailor-to-the-trade, who requires additional material for the production of officers uniforms may apply, and any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship because he has not heretofore manufactured officers uniforms or because he has not heretofore sold or delivered officers uniforms or otherwise may appeal, to the War Production Board, Reference P-131, setting forth the pertinent facts and the reasons why he considers relief should be granted. Any such application or appeal regarding the production or sale of officers uniforms for U. S. Army officers (commissioned, warrant and specialist corps) or nurses, must be accompanied by a letter of approval from the Office of the Chief, Army Exchange Service, War Department, Washington, D. C., and any such application or appeal regarding the production or sale of officers uniforms for U. S. (j) *Audit and inspection.* All records required to be kept under this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(k) *Violations.* Any person who willfully violates any provision of the order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. PART 1341—CANNED AND PRESERVED FOODS

[Maximum Price Regulation 226]

FRUIT PRESERVES, JAMS AND JELLIES

In the judgment of the Price Administrator, seasonal conditions and other factors affecting the sale of fruit preserves, jams and jellies have resulted in the establishment under the General Maximum Price Regulation[1] of maximum prices which are not generally fair and equitable as applied to the 1942 pack and which are not best calculated to assist in securing adequate production of these commodities. This Maximum Price Regulation No. 226 is issued by the Price Administrator in order to establish for the packers of fruit preserves, jams and jellies maximum prices which are fair and equitable and which will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued and filed with the Division of the Federal Register.*

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 3153, 3330, 3666, 3990, 3991, 4339, 4487, 4659, 4738, 5027, 5192, 5276, 5265, 5445, 5484, 5565, 5775, 5783, 5784, 6058, 6031, 6007, 6216, 6615, 6794, 6939, 7093.

The Price Administrator has given due consideration to the prices of fruit preserves, jams and jellies prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable, the Price Administrator has consulted with representatives of the fruit preserves, jams and jellies industry.

The maximum prices established by this Regulation are not below prices which will reflect to the producers of the raw agricultural commodities from which fruit preserves, jams and jellies are manufactured, a price for each such commodity equal to the highest of any of the following prices, as determined and published by the Secretary of Agriculture: (1) 110 per centum of the parity price, adjusted by the Secretary of Agriculture for grade, location and seasonal differentials; (2) the market price prevailing on October 1, 1941; (3) the market price prevailing on December 15, 1941; or (4) the average price during the period July 1, 1919, to June 30, 1929.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, Maximum Price Regulation No. 226 is hereby issued.

AUTHORITY: §§ 1341.301 to 1341.316, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1341.301 *Prohibition against dealing in fruit preserves, jams and jellies above maximum prices.* (a) On and after September 26, 1942, regardless of any contract or other obligation, no packer shall sell or deliver any fruit preserves, jams or jellies covered by this Maximum Price Regulation No. 226 at a price higher than the maximum prices established by this Maximum Price Regulation No. 226.

(b) No person in the course of trade or business shall buy or receive any fruit preserves, jams or jellies from a packer at a price higher than the maximum prices established by this Maximum Price Regulation No. 226;

(c) No person shall agree, offer, solicit or attempt to do any of these things.

§ 1341.302 *Packer's maximum prices for fruit preserves, jams and jellies.* (a) The packer's maximum price per dozen or other unit f. o. b. factory for each kind, flavor, brand and container type and size of fruit preserves, jams and jellies covered by this Maximum Price Regulation No. 226 shall be:

(1) The weighted average price per dozen or other unit f. o. b. factory charged by the packer for the kind, flavor, brand and container type and size during the applicable 1941 base period; plus

(2) 1.4¢ for each pound of finished fruit preserves, jam or jelly in a dozen or other unit of that size container; plus

(3) The difference per dozen or other unit between the weighted average cost delivered at the factory of 1941 fruit purchased or contracted for during and prior to the 1941 base period, adjusted in the case of cold-packed fruit to include six months' storage, and the weighted average cost delivered at the factory of 1942 fruit purchased or contracted for during and prior to the 1942 base period, adjusted in the case of cold-packed fruit to include six months' storage; except as limited in paragraph (b) (7) of this section.

(b) In determining the packer's maximum price:

(1) The "weighted average price" shall be the total gross sales dollars charged for each kind, flavor, brand and container type and size, divided by the number of units of that item sold. All sales made in the regular course of business during the applicable base period of 1941 shall be included, except sales made to the United States.

(2) The "applicable base period" shall be:

(i) The months of June and July for the following flavors: apricot, black raspberry, cherry, currant, guava, pineapple, raspberry and strawberry.

(ii) The months of August and September for the following flavors: blackberry, boysenberry, elderberry, loganberry, peach, plum, tomato and youngberry.

(iii) The months of October and November for the following flavors: apple, boiled cider, crabapple, grape and quince.

(3) In the case of any mixed flavor, the "applicable base period" shall be the base period prescribed in paragraph (b) (2) of this section for the flavor which predominates by weight in the fruit mixture.

(4) The "weighted average cost" shall be the total amount paid for fresh, canned and cold-packed fruit of the flavor being priced divided by the total number of pounds or other unit of that fruit purchased.

(5) "1941 fruit purchased" and "1942 fruit purchased" shall include only fresh fruit or fruit which was canned or cold-packed during the years 1941 and 1942, respectively.

(6) In computing the weighted average cost delivered at the factory of 1942 fruit purchased or contracted for during and prior to the 1942 base period, the packer shall estimate to the best of his ability all fruit costs which he reasonably expects to incur from that time until the end of the base period. However, as to those flavors for which the applicable base period is October and November, the weighted average cost shall be computed as of a date no earlier than September 28, 1942.

(7) In computing the weighted average cost delivered at the factory of 1942 fruit purchased or contracted for during and prior to the 1942 base period, the packer shall exclude from the computation any amounts paid for fruit in excess of the following amounts:

(i) For all canned and cold-packed fruits and berries, the maximum prices which the packer's supplier or suppliers were entitled to charge him under Maximum Price Regulation No. 185 and Maximum Price Regulation No. 207 in the respective sales by which the canned and cold-packed fruits were acquired by the packer.

(ii) For all fresh fruits, but not including guavas, quince or berries, the sum of (*a*) the weighted average cost delivered at the factory of 1941 fruit purchased or contracted for during and prior to the 1941 base period and (*b*) the following respective amounts:

Raw Agricultural Commodity:	*Maximum Permitted Increase (per ton)*
Apples	To be announced
Apricots	$23.
Cherries, Red Sour Pitted.	$50.
Cherries, Sweet	$56.
Crabapples	To be announced.
Grapes	$14.
Peaches (Clingstone)	$7.
Peaches (Freestone)	$15.
Plums	$2.
Tomatoes	$1.

(ii) For guavas and quince, the market prices delivered at the factory prevailing on the respective dates on which the guavas and quince were contracted for.

(iv) For all fresh berries, the sum of (*a*) the weighted average cost per pound delivered at the factory of 1941 fruit purchased and contracted for during or prior to the 1941 base period and (*b*) three cents per pound.

(8) In converting the increased cost of the raw agricultural commodity into increased cost per dozen or other unit for each kind and container type and size, the increase shall be allocated to each kind and container type and size in the same proportion as costs of raw materials in 1941 were allocated.

(c) The maximum price for each kind, flavor, brand and container type and size for a packer who owns more than one factory shall be determined separately for each factory. But if any two or more factories had the same f. o. b. factory prices in 1941 a maximum price may be determined uniformly for that group by using the combined figures of the group in the computations required by paragraphs (a) and (b) of this section. In applying for the specific authorization of a price under paragraph (b) of § 1341.303, application may be made for a uniform maximum price applicable to the whole group.

(d) Any packer who regularly sold a purchaser any item of fruit preserves, jams or jellies on a delivered price basis during the calendar year 1941 shall increase the maximum price for the item, as computed under the preceding paragraphs of this section, by the amount of the freight charge for that item which he added to his f. o. b. factory price during March 1942. The resulting price shall be the packer's maximum delivered price for that purchaser.

§ 1341.303 *Inability to fix maximum prices under § 1341.302* (a) If the packer's maximum price for any item cannot be determined under § 1341.302, his maximum price shall be the maximum price of the most closely competitive packer.

(b) If the packer's maximum price for any item cannot be determined under § 1341.302 or under paragraph (a) of this

section, the maximum price shall be a price determined after specific authorization from the Office of Price Administration, Washington, D. C., on application setting forth (1) a detailed description of the kind, flavor, brand and container type and size; and (2) a statement of the facts which differentiate it from the most similar item for which he has determined a maximum price, identifying the similar item and stating the maximum price determined for it. When authorization is given, it will be accompanied by instructions for determining the maximum price. Within ten days after the price has been determined, the seller shall report it to the Office of Price Administration, Washington, D. C. This price shall be subject to adjustment at any time by the Office of Price Administration.

§ 1341.304 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 226 may be charged, demanded, paid or offered.

§ 1341.305 *Customary allowances and discounts.* The maximum prices established by §§ 1341.302 and 1341.303 shall be reduced to reflect the packer's customary allowances, discounts and other price differentials.

§ 1341.306 *Transfers of business or stock in trade.* If the business, assets, or stock in trade of any packer are sold or otherwise transferred on or after September 26, 1942, and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no transfer had taken place, and his obligation to keep records sufficient to verify those prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions contained in this Regulation.

§ 1341.307 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 226 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to fruit preserves, jams and jellies, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1341.308 *Enforcement.* Any person violating a provision of this Maximum Price Regulation No. 226, is subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942.

§ 1341.309 *Records and reports.* Every packer who makes sales of any fruit preserves, jams or jellies covered by this Maximum Price Regulation No. 226, shall (a) preserve for examination by the Office of Price Administration for a period of two years all his existing records which were the basis for the computations required by § 1341.302; and (b) preserve for the same period all records of the same kind as he has customarily kept, relating to the prices which he charged for fruit preserves, jams or jellies sold on and after September 26, 1942; and (c) file with the Office of Price Administration, Washington, D. C., within 10 days after determining his maximum prices for each kind, flavor, brand and container type and size of fruit preserves, jams or jellies, a statement showing (1) his weighted average price and his increase in the cost of the raw agricultural commodity, as determined under § 1341.302, together with the maximum price determined under this regulation and all customary allowances, discounts and differentials, and (2) in those cases in which the maximum price was determined by the maximum price of the most closely competitive packer, the maximum price and the name and address of the packer whose maximum price was adopted; and (d) preserve for a period of two years a true copy of each such statement filed with the Office of Price Administration for examination by any person during ordinary business hours. Any packer who claims that substantial injury would result to him from making any such statement available to any other person, may file a copy of the statement with the nearest Regional, State, District, or Field Office of the Office of Price Administration. The information contained in the statement will not be published or disclosed unless it is determined that the withholding of the information is contrary to the purposes of this regulation.

§ 1341.310 *Petitions for amendment.* Any person seeking a modification of this Maximum Price Regulation No. 226 may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1,[2] issued by the Office of Price Administration.

§ 1341.311 *Applicability.* The provisions of this Maximum Price Regulation No. 226 shall be applicable only to the United States and the District of Columbia.

§ 1341.312 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 226 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of fruit preserves, jams and jellies for which maximum prices are established by this Regulation, except as provided in § 1341.316 (b).

§ 1341.313 *Export sales.* The maximum prices at which a person may export fruit preserves, jams and jellies shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.
